Eighteen Canadians, former service men in the army and navy, arrived on the Empress of France yesterday, and had no means with which to continue their journey. They were furnished with transportation to this port and were told that they would be looked after by the Y. M. C. A. when they got here. One of them lives in Dawson City. Through the kindness of Mrs. Harold Lawrence, of the Red Cross, aid was secured for them and they were cared for for the night. Three of them whose homes were in Halifax were sent on their way last night through the efforts of Walter Brindle, secretary of the Seamen's Institute. NOW IS THE TIME, THE WINTER is coming. Potato Profits

Last Spring a farmer came to us telling us he was wondering whether fertil zer would help his pot toe. We said it would. He thought it over and finally said: "You tell me what fertilizers are good for potatoes and I'll try them out." Potatoes and I'll try the mout.

He bought Gunns Shur-Gain 4-8-4 and 6-13 Fertilizers—used them side by side but planted a few 10ws without fertilizer for a check. All rows were 440 ft. long—notice the results—

Two rows fertilized with 4-8-4 yielded 20 bushels marketable potatoes

Two " UNFERTILIZED " 10 " " In other words the judicious use of fertilizer doubled the yield.

LAUDS BOXING

(Toronto Globe)

Under the supervision of Rev. Lawrence Skey, who proved to be one of the most ardent enhusiasts present, the University of Toronto boxers, wrestlers, and gymnestic squad gave an exhibition before a well-attended meeting in St. Anne's Parish-Hall of the Young Men's Club of that church. The gymnastic squad gave an exhibition of tumbling and work on the horizontal bar and the horse. Their and well-trained afaletes, and, headed by Coach Biake, they performed some most during "stunts." In adultion to their performances, there three baxing and two wresting bouts.

St. Anne's are supplying their boys with boxing gloves, and engaging an instructor to teach them now to use them, and on that account the exnition given and on that account the exemition given and evening was the more keenly apprecided. king hopes for peace in ireland spreading of ireland, king George said:

"The st t of afacts in ireland grieves me profoundly. I deplore the campaign of violence and outrage whereby a small section of my subjects seek to sever Ireland from the empire and I sympathize with the loyal servants of the crown who are endeavoring to restore peace and maintain order under conditions of unexampled difficulty and danger.

"It is my most earnest hope that all sections of the people of Ireland will insist upon a return to constitutional methods, which alone can pub an end to the terrible events which threaten ruin to that country, and make possible reconciliation and a lasting peace."

KISSES AND "MARY ELLEN."

(Montreal Herald.)

It is an interesting coincidence that just when the president of France had sent kissing to limbo, or wherever discarded habits go, it should appear for the the first time in Canadian politics in a new form.

In the recent British Columbia elections Mrs. Ralph Smith easily led all her towanty-seven competitors for public favor at the polls in the city of Vancouver. In the by-election held to fill her late husband's place in the legislature she stood as an independent, but this time she accepted the government's programme and ran on it. She won in a canter.

Then the rejoicing Liberals fell upon her neck and kissed her. Premier Oliver led the way in this mode of salutation. She had embraced the premier's programme and it was, perhaps, not out of the way for him, in turn, to embrace her. Mayor Gale had not this excuse, but he, too, kissed "Mary Ellen" in view of 3,000 cheering supporters. In fact it might be claimed that they all kissed her vicariously, to judge by the uproarious approval given to the plensing ceremony performed by the permier and the mayor.

Instructor Blake, of the Universary of Toronto physical staff, gave an address on intocom Atinetees, during the course of which have recently been advanced. The people who made these objections, he said, were the least informed on the subject, and statements made upone to mistead the public. One of the greatest assets of boxing was the fact that it made the individual shift for himself, and not depend on teamwork. Even in a swimming race, said Mr. Blake, a spent swimner had the chance to take timings easy, but in the ring, materied against another man, he had to rely on his own initiative to carry him through.

"People call boxing brutal," said Mr. Blare, "but they will go to a football mater and see upwards of ten players carried off the field, some of them with broken limbs, and cheer them to their sportmanship. Again, they will say that the knockout is brutal. It is not. It is merely a scientific and merciful way of finishing a bout, and it is devoid of any in alter-effects."

In their canvas for votes politicians have had merely the duty of kissing the babies. Now that women have the right to run for parliamentary honors they will probably claim as an improvement the right to kiss the winning woman. We should not forget to say that the practice frowned upon by President Millerand was his kissing of men, which a little reflection will convince most of us is in a totally different category from the popular Vancouver function.
