GREATEST CHAPTER OF MILITARY HISTORY SAYS LLOYD GEORGE

London, Oct. 9.—Premier Lloyd George has sent the following to Field Marshal Haig in the field:

"I have just heard from Marshal Foch of the brilliant victory by the 3rd and 4th armies and wish to express to yourself, General Dyras, General Rawlinson, and all the forces and men under your command my sincerest congratulations on the great and significant successes which the British army with their American brothers-in-arms have gained during the past few days.

"The courage and tenacity with which the troops of the empire, after withstanding terrible enemy assaults in the spring of this year, again resumed the offensive with such decisive results is the greatest chapter of our military history."

A meeting of the physical committee of the Young Men's Christian Association was held last night. R. Willett presiding and the policy which will govern the arrangement of the winter classes was laid down. The complete list of the classes and the time-table is not as yet completed, but special attention will be paid to athletics and aquatics throughout the winter under the direction of J. H. Maughan, physical training instructor. The association plan to have a special schedule of outdoor events, hikes and athletics in compliance with the regulations for the prevention of the spread of Spanish influenza in the city. The schedule will be fully arranged to-day.

Stores Open at 8.30, Close at 6 p.m.; Saturdays 10 p.m.

Million and a Half From Ontario Forests

Pine Forests Are Giving Out But Pulpwood Increasing in Value

(C. L. In Conservation.) The important part that the crown timber lands of Ontario play in defraying the cost of civil government is indicated by the fact that during the year ended October 31, 1917, the forest revenue collected amounted to \$1,695,708. This is an increase of \$390,282 over the preceding year, and includes \$113,297 collected from limit holders as fire ranging dues.

Nearly 100,000,000 feet less pine timber was cut during the preceding year. While labor shortage was undoubtedly a factor contributing to this reduction,

the fact remains that the cut of pine timber has steadily declined for years, due unquestionably to the progressive depletion of the white pine forests of the province, which formerly produced so large a proportion of the provincial forest revenue.

The change which has taken place in this respect is strikingly indicated by the fact that, while the cut of white and red pine has steadily declined in Ontario, that of the timber and pulpwood has increased greatly. For example, the number of railway ties (mostly jack pine) taken out during 1916-1917 was more than double the number cut during the previous season. The total cut of pulpwood for the province was 445,978 cords, of which approximately equal amounts were cut from settlers' lots and crown timber lands.

The pulp and paper industry is each year assuming increased importance in Ontario, as in other provinces, in com-

parison with other primary forest industries. Beyond question, the pulp and paper business will increase to vastly greater proportions in Canada, both east and west, than is now the case, and this development will help materially toward the payment of Canada's war debt, and the redressing of our present unfavorable trade balance, particularly with the United States.

That the names of young ladies had been wrongfully mentioned in connection with a West Side scandal and that they contemplated taking legal proceedings against the author and those who spread the report was a statement of one of those mentioned.

There has been an alarming decrease in the number of partridges or ruffed grouse in New York state and sportsmen are petitioning for a closed season.

A GROUP OF DISTINCTIVE DRESSES

That Are Marvels For Value

Women are busily attending to our war work and find they have need for new clothes for their unusual work. When the day's duties are over they take delightful relief in wearing frocks of charming femininity. Simple as they are—these Dresses of today—they are full of distinction and winsomeness.

Some very interesting models have been created this Fall. Many of them feature new skirt draperies, others limit their novelty to sleeves and striking collars and cuffs. Others are one-piece affairs of quiet charm, with girlish effects. The materials are exceptional in quality; colorings are those most in favor for this time of the year. No woman in need of new additions to her wardrobe can afford to overlook our offerings here at \$22.50.

A very attractive array of New Satin Gowns for maid and matron—all New York Dresses—of beautiful design and newest colorings. The accordion pleated skirt, the apron drape and the collarless effect are all new and popular features. The colors include burgundy, taupe, navy, green, etc.

Serge Dresses are more attractive than ever this season. The trimmings are novel and very charming, fringe and braid, or both, in evidence; Satin and Serge combinations are also much admired and are suitable for street or afternoon wear.

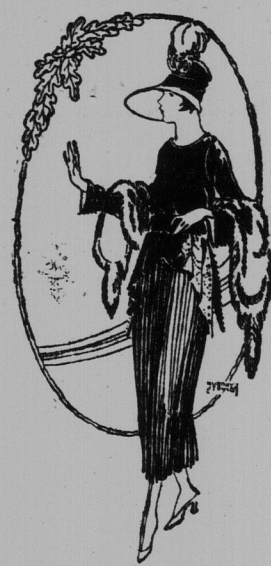

SERGE DRESSES Range from..... \$15.50 to \$47.50

COMBINATION DRESSES from..... \$35.00 to \$55.00

Dressy Afternoon Frocks of Satin and Georgette combinations, or Taffeta, are in navy, plum and taupe shades and are very lovely, with a touch of beading, silk embroidery or silk fringe, \$36.50 to \$60.00

Jersey Cloth Dresses—Pretty style with square neck, deep belt and long tunic embroidered in silk on belt, sleeves, front and tunic; taupe, navy, brown, etc..... \$31.50
