## BRINGS LEAGUE ISSUE TO FORE

Senator Pepper's Statement  
Seen as Step Toward U. S.  
Participation—Both Parties  
Fear Campaign.

Washington, April 16.—The League of Nations has been brought to the front as a living issue by the statement made by Senator George Wharton Pepper of Pennsylvania, and by other incidents within the past few days. Senator Pepper's declaration that the time is approaching when the United States can enter the league is regarded here as the most important step towards American adhesion to the league covenant that has been taken for a long time.

The proposal of President Harding that the United States join the league's permanent court of international justice is beginning to attract considerable attention, and it is apparent already that the whole subject of American affiliation in an association of nations, with the league furnishing the most feasible foundation for international operation, is to be given an airing before Congress convenes in December. Action Surprising.

Senator Pepper's expression of sympathy for the league is all the more surprising in that he was looked upon as an uncompromising irreconcilable with reference to the covenant. While he indicated yesterday that his speeches at the time of the league contest in the Senate showed that he would favor the league if certain objectionable features were deleted from the covenant, it is recalled that he was the head of the Association for the Preservation of American Independence, which was foremost in the efforts to kill the covenant in toto.

True to his colors, ex-Gov. James M. Cox of Ohio still insists that the league must be an issue in next year's presidential contest. John H. Clarke

next year, the league covenant will be dragged in, to the embarrassment of those who look upon it as full of political danger.

(New York Tribune.)  
High praise is due Senator Pepper for his outspoken stand with respect to the League of Nations. He subjects himself to the charge of inconsistency—for it was generally believed that before his entry into the Senate he stood with the irreconcilables who would have the league under no possible conditions. Perhaps this did him an injustice. At any rate, the question of consistency is of no moment. The great point, and the one that the American people will be quick to applaud, is that Senator Pepper has the courage of his convictions and utters them frankly, as a statesman should and as few politicians dare.

The Tribune especially welcomes the attitude of Senator Pepper because it is a notable expression of non-partisanship and fair-mindedness, and without these two qualities of mind progress toward American participation in a sound organization of the nations of the world is impossible. The league was made a party issue by President Wilson. It became a party issue in 1920, and there is danger that it will continue to be a party issue in 1924. Lord Robert Cecil has done something to lift its consideration to a higher level, and Senator Pepper now adds the weight of his example.

### GARDEN OF EDEN DRESSES RULED OUT IN PARIS

London, March 24.—(By mail.)—Consternation reigns in the music-halls of Paris, reports The London Times Paris correspondent. The French Cabinet has decided to suppress stage performances which offend against public morality, and the popular theatre managers have been ordered to take the necessary legal action. The managers of the popular theatre have protested that their productions cannot possibly be in question. Yet there never was a season when competition was more keen in the devising of spectacles in which feminine nudity is unblushingly exhibited. Eve was scarcely less covered by her fig leaf than some of these modern beauties of the Parisian stage.

It is, however, proclaimed that the police regulations have been scrupulously observed, and that these women are harmonious and immobile figures in an artistic creation. It must indeed be admitted that at the larger halls some of the spectacles in which they appear are strikingly artistic in conception and gorgeous in color. It is suggested, therefore, that the action of the Government is directed rather against the more obscure halls, where, it is said, male performers appear as comically as the women, dressed as described as licentious, and dialogue contains sous-entendus obviously obscene. It is further argued that the figure which is veiled may be, and often is, more offensive and suggestive of licentiousness than the figure of the male performer.

The manager of one music-hall, who declares that he was the last "to dare" the music-hall, and in said now to have become more daring than all his competitors—says he is quite prepared to stand up to the abolition of the music-hall, and that he is quite prepared to stand up to the abolition of the music-hall, and that he is quite prepared to stand up to the abolition of the music-hall.

### How to Rid the Arms of Objectionable Hairs

(Aids to Beauty.)  
A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required: Mix a stiff paste with some powdered deodorant and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has vanished! This simple treatment cannot cause injury, but care should be exercised to get real deodorant.

### LOCAL NEWS

A quiet hour for clergy was conducted last night in Trinity Church by Rev. Dean Shreve, of Quebec, as a preliminary to the opening of the synod meetings this morning. Nearly all the clergy were present. Those from the North Shore could not reach the city in time. Dean Shreve gave three addresses on the Love of God. The benediction was pronounced by His Lordship Bishop Richardson.

The programme of the B. Y. P. U. of the Main Street Baptist church at the meeting held last night was of the most profitable and interesting which the society has enjoyed this season. The president, Frederick Cowan, was in the chair and following the opening devotion the pastor, Rev. Dr. David Hutchinson, gave an address on the Love of God, which was illustrated with a very fine series of lantern slides depicting incidents described in the Bible story of Joseph's life.

Damage to the extent of several thousands of dollars was caused last night by a fire which broke out in the house of Harold N. Stetson, 161 Mount Pleasant avenue, and which gave the firemen a stubborn two-hour battle before it was extinguished. The blaze was confined pretty well to the attic storey, but a great deal of damage was done by smoke and fire. Mr. Stetson was out of town at the time. About
