**Heavy Duty**  
**"Imperial" Engines**  
10, 20 and 30 Horse-power

Beside the Models A, M and B line of "IMPERIAL" MOTOR ENGINES, which are becoming so deservedly popular in this country, the company manufactures a HEAVY DUTY LINE, Model C. These are made to meet the demand for a slow speed engine for tow boats, schooners and large fishing boats.

They are of the well known two cycle three port type, and are the latest word in two cycle engine construction. The cylinders are cast with solid heads, and are separate from the crank case, which is in two parts. Die cast, nickel brass bushings are used in connecting rod and main bearings. The pistons have three rings. A large Flywheel Pump gives ample water circulation and keeps the pistons at the proper temperature. Fully equipped. Fully guaranteed. Made in 10, 20 and 30 horse power, 1, 2 and 3 cylinders. The 10 horse power has a bore and stroke of 5 1/2 x 6 inches, turns a 22-inch 3 blade propeller 450 revolutions per minute, and weighs 490 lbs.

## NEWS IN A LINE

An aged resident of Country Road, William Roberts, passed away on Saturday, March 4th.

The W. P. A. of Bay Roberts wish to thank the members of the Ladies' Orange Benevolent Association for a donation of \$9 toward their Patriotic Fund.

A party in honor of the marriage of their daughter, Violet Lillian, was given by Mr. and Mrs. A. Parsons at their residence, Cross Roads, on Thursday night, March 2nd, when a large number of guests were present. List of presents will be published later.

Mr. A. Fradsham returned from a trip to Philadelphia and other places in the United States on Saturday night last. We understand that he made arrangements while away to form a new company take over the assets and liabilities of the late firm of A. Fradsham & Co. A large 3-story building is now in course of construction on the site of the old building which was destroyed by fire last fall. The new company will carry on a general business.

Imperial Engines are fitted with a Kerosene Header and up-to-date Carburetor, and will burn either Kerosene or Gasoline. A large tank with separate compartments for kerosene and gasoline is supplied with engine. Call and see this engine and outfit whether you want to buy or not. If you know very little about an engine yourself, bring along someone who does. We take pleasure in showing our engine and outfit to men who know the most about motor engines. C. E. Russell, Bay Roberts, Agent for the Imperial.

Customer: "You say these watches cost five shillings to make? Why, that is the price you are selling them at!"  
Jeweller: "That's quite right."  
Customer: "Then how do you make any profit?"  
Jeweller: "Repairing them."

Petrograd, March 9.—The activity of Russian torpedo boats in the Black Sea against the coast towns East of Trebizond is continuing with success.

### Mission Fathers Coming

We learn that the four Passionist Fathers from New York, who will hold a mission in the R. C. Churches in this city during Lent, will likely arrive here by the Stepano next week and begin their religious exercises in the Cathedral the following Sunday evening. It is not yet known who will be sent but it is understood that some of the ablest members of the order will be selected for the work in this colony. After Easter missions will be held in many of the outport parishes and these clerics will likely remain here well into the summer.—Herald.

### Married

At St. Thomas' Church, St. John's on Saturday, March 4th, by the Rev. Dr. Jones, Miss Violet Lillian Parsons, daughter of Capt. A. and Mrs. Parsons, to Mr. Alexander Gordon, of Aberdeen, Scotland, cable operator with the Western Union Telegraph Co., Bay Roberts.

It is estimated that the wheat crop of the three prairie provinces for last year 246,000,000 bushels will be available for export. This is sufficient to make 56,571,421 barrels of flour, sufficient for 9,889,998,675 loaves of bread of 24 ozs. each; which would provide one loaf for each day for a whole year to 27,123,264 people.

### The Capture of Bitlis

Petrograd, Mar. 6.—An official statement regarding the capture of Bitlis, issued by the War Office, details the capture of Bitlis, and shows that our troops backed the position without firing a shot. The attack was made in the night during a snow storm, and about 3 o'clock in the morning a bayonet charge was ordered. The Turks, after a desperate resistance, were fledged and the Turkish artillery position stormed after hand to hand fighting the result of which was that the defenders, who fought with greatest desperation, were all killed on the position. In pursuit of the enemy we captured twenty guns, six latest Krupp types, all of which were in good condition. We also captured on the positions huge quantities of food and rifle cartridges. Each had in a large depot of ammunition. During the pursuit the Turks were captured, and the number of prisoners continues to increase and includes 40 officers.

### Results of the Storm

The following message from C. C. Pittman of Lunenburg was received by the Marine and Fisheries Dept.—"Great destruction of fishery property along the coast in Sundays gale. Two dwelling houses at Mick's Cove were completely destroyed with cars and a store at Lord's Cove containing codtraps, etc., demolished.

### Now or Never For Germany

W. A. Willison cables to the Toronto News that the "Now or never" policy of the Germans in the West has led to a revival of speculation on naval possibilities. This, associated with a renewed interest in the navy by both sides and the undoubted new activity of the German navy, suggests a possibility of the enemy playing his final card if his endeavor to force a military decision fails. The British press, reflecting public opinion, insists upon the necessity for adequate preparations on land and sea, realizing the potentiality of enemy sea activity.
