## SOME HARD FIGHTING.

### Spaniards Again Attack Americans.

ANOTHER ALL NIGHT FIGHT—TWO MEN KILLED AND SEVERAL WOUNDED.

Camp of the United States marines, Guantanamo, June 14, via Kingston, Jamaica, June 16.—After two nights of hard fighting the American flag still floats on Cuban soil over the encampment of the marine battalion. Thus far the marines have had the best of the fighting, but the situation is grave, and they are exhausted with repelling almost incessant attacks. They have little chance to rest or sleep, and the time of the arrival of the relieving troops is uncertain. Were it not for the protecting guns of the fleet, the little band would be annihilated by the Spanish troops, in overwhelming numbers, from Santiago de Cuba. As it is, they probably can hold their position; but they cannot move forward until reinforced by troops. What first, with the white tents on a bold eminence against the tropic background, looked like a holiday camp, is now grim reality. The tents have been struck and rolled into breworks, supplemented by trenches around the crest of the hill. The spot is lamentably exposed, on the bare ground, while surrounding it on all sides is heavy brush. The least movement in the camp is the signal for instant target practice upon the part of the Spanish sharpshooters, whose rifles carry much further than those of the marines, though their owners rarely hit anything they aim at. It is impossible to accurately estimate the Spanish attacking force, but it is numerous enough. About two-thirds of this force surrounds the camp night by night.

A DEADLY RING. And the spitting of the Mausers makes things quite lively, for the Spaniards are daring enough to crawl up and take a pop shot at the marines from the bushes, about thirty yards from the camp. Every yard of chapparel is

an ambuscade, and picket duty is slipping coins with dead. After the first attack, on Saturday night, Col. Huntington decided that another attempt would be made on Sunday night, and he caused entrenchments to be thrown up on all sides of the camp, and in the trenches the main part of the battalion last night waited for the attack that the colonel was certain would come. It arrived within a short time after dark, and from that time until daybreak the firing was incessant and at times very heavy. On the American side two men were killed, and four were injured. The dead are—Sergeant Major Henry Hoode, of the marines, shot through the right breast; Private Tauman, Private Wallace, fell off the cliff and was instantly killed. The injured are—Private Martin, shot through the left leg; Private Roxbury, shot through the arm. The above are all privates belonging to Company D. Private Burk, shot through the arm.

The first attack of the Spaniards was made at eight o'clock, and the last shot fired by them at about five o'clock in the morning. During the night the Spaniards attacked the camp of the marines on shore, and the Marbled, believing the Americans had been driven out.

THREW SEVERAL SHELLS into the place. The attack, however, was repulsed by a small detachment of marines in camp, without trouble. The shells of the Marbled struck among the marines.

The fight was the first of the war in which the Cubans co-operated with the American forces, and their co-operation was not a glittering success. At one time, during the afternoon, when ever the marines were firing on a small detachment of Spaniards that made their appearance a short distance from without volleys and sent a volley right among the Americans. There were several narrow escapes, but no one was injured. Lieut. Neville, of Company D, was sent out on scout duty, and as on the day previous, he attacked a small stone fort. A hot fight followed and the Spaniards were driven off with loss. It was during this fight that Wallace Tauman fell over the cliff. Fifteen dead Spaniards, including one lieutenant, were found in the fort.

THE NIGHT ATTACK was a picturesque and a striking spectacle, the crack of the Mausers, the fire from every bush encircling the camp, the twitter of the long, steel bullets overhead, while the machine guns down on the water were ripping open the pickets, and the crash of the first round in the air, all made the scene a most dramatic one. The fire of the Spaniards was thickest. Then there was the screech of the Marbled's shells as they took a house in the night, and the sharp, quick flashing of the Colt rapid firing 1-pounder guns from the effectively placed ship launch.

A night wild and lurid as a tropical storm. The Delphi this morning located the Spanish water station on the ocean side of the harbor entrance, which supplied the water for the attacking force. The water was situated in a blockhouse windmill, having a small garrison. It was shelled at 2,000 yards. Excellent practice was made. The station was wrecked, and cannon followed the retreating Spaniards up the steep ravine.

HE VISITED SANTIAGO.

The delay in the arrival of transports is ascribed here to a fear that a few of Cervera's squadron might not be in Santiago harbor. Once for all, Admiral Sampson decided to settle this question officially, and on Saturday last he sent Lieut. Victor Blue, of the gunboat Swallow, to investigate. Lieut. Blue landed on Saturday, and proceeded with guides to the hills overlooking the harbor and the city. He distinctly saw and definitely located four Spanish armored cruisers and two torpedo-boat destroyers. He saw also three small cruisers or gunboats. The results of his expedition he reported this morning (Monday) to Admiral Sampson on the deck of the flagship New York. Lieut. Blue traveled about 72 miles, following the eastern line of the city. He brought out to the flagship a copy of a Santiago paper, issued last Saturday, in which complaint is made that the navy and army are failing to distribute to the citizens their portions of the provisions remaining in the city. Lieut. Blue's report has definitely exposed the fiction that any of Cervera's cruisers were in the Bahama, or in a position to attack the transports, which are now confidently expected at an early date. Blue reported also that skirmishing continues in the hills, around Santiago, between the Cubans and Spaniards. The latter have been repairing the fortifications of the city, and it is expected that Admiral Sampson will renew the bombardment in anticipation of a possible arrival and landing of troops this week. General Calixto Garcia has been expected to arrive near Santiago and report to Admiral Sampson to-day. This morning it turned out that the information upon which this expectation was based was incorrect. As yet the whereabouts of General Garcia is not definitely known. Today the dynamite and it is confidently expected that the guns will be used if an attempt is made to force the passage of the harbor for the purpose of exploding any submarine mines that may exist.

Mr. Archibald Blue, director of the Bureau of Mines, has gone to Kent county, where a rich strike of oil has just been made in a new well. It is near Thameville, and the first well put down was a regular gusher, flowing 1,000 barrels per day. Other wells are being sunk, and there is great excitement in the vicinity. Mr. Blue's visit is to find out the quality of the oil and the prospects of the newly-found petroleum.—London Free Press.

## Every Day

In each month during the summer special offerings will be made in all our departments. This simply means in selecting a Diamond, a piece of Silverware or Jewelry, Watch, Clock, Chain, or Charm, any article in Glassware, China, Leather Goods, or Furniture, elsewhere, that the full purchasing power of one hundred cents is not realized. Our assortment of Belts, Girdles, Waist Sets, and all summer Jewelry is most complete.

WRIGHT, KAY & CO.,  
110 & 112 Woodward Ave.,  
Detroit.

## YOUNG LIVES LOST

Two Boys Drowned While Bathing Near Tilbury.

Went in Swimming on Their Way From School and Got Beyond Their Depth.

Special to The Planet. Tilbury, June 15.—A sad drowning accident happened in Tilbury North, about four miles west of here, yesterday at 4.30 p. m., whereby two boys lost their lives. The unfortunate youths were Roy, the 13-year-old son of Thos. C. Jackson, and George Watson, about the same age, a step-son of Frederick Shoults, both farmers in the township. In company with another boy, Maitland Jackson, the boys were returning home from school and on reaching the pond of Alfred Vinters decided to go in bathing. The pond is about 8 feet deep in the center, sloping down gradually from the sides. Both lads soon got beyond their depth and went down. Their companion ran for assistance but by the time help arrived both were dead, their bodies being found at the bottom. Mr. Jackson had been absent for a few days, and had just got off the train at Tilbury last night on his return when he was informed of the sad news of his son's death. The funeral will be held to-morrow.

### ACCUSED OF SLANDER.

Two slander suits for \$5,000 damages each were commenced Monday against Philip Quick and Alfred Monger, both of Harrow, by Rev. W. H. Cooper, pastor of the Methodist church at that place. Some months ago the parsonage at that place was burned and it is said that several members of the congregation started the report that the pastor had burned the building in order to secure the insurance on his furniture. Mr. Cooper learned of these rumors and at once commenced an investigation. He claims to have secured evidence that Quick and Monger were the authors of the story.

## Time For Oxfords

Our range is complete, Ladies' from 75¢—Men's at \$1.00.

Our Ladies' Trilby, two-button shoe, cloth top, at \$1.50 is a seller.
