should therefore aim to elevate the character of the coming men and women. The greatest wealth Canada could possess was the education of the coming men in the duties of citizenship. It was not elementary education which was wanted, but the education that taught men to recognize the ideals of citizenship and the power of the laws. The Canadian clubs should aim at spreading this respect for law and order and the country's institutions. Another work for the clubs was to see governments in many parts of the esting facts and figures regarding Can-country. esting facts and figures regarding Can-ada and her industrial and agricultural ton.

Greeks, the artistic, and the Romans, the legal, it was England that developed the principle of constitutional government."

In concluding, Mr. Smith said that there was a need of noble manhood in Canada. He thought that too many young men were always ready to sacrifice their manhood for the sake of commercialism. This was a great pity, and he looked to Canadian clubs to foster that spirit of home and honor which would combat the growth of the ultracommercial spirit. He believed in men.
