INTENSE SUFFERING

IN NEW YORK CITY

Thousands Sleep in the Open \* Air in Efforts to Secure Relief.

New York, June 23. - Fourteen persons are dead and scores prostrated to-day as the result of three days sweltering heat in New York City. Suffering is intense on the crowded East Side where the poverty-stricken inhabitants are unable to buy ice at the prohibitative rate of forty cents a hundred pounds.

Thousands of persons slept in the parks, on roofs and on the sands of Coney Island last night in a vain effort to alleviate their sufferings. It is estimated that 20,000 persons slept outdoors at Coney Island alone last night. At 3 o'clock this morning the mercury had mounted to 81 degrees and was steadily climbing upward. Later in the day the heat became almost unbearable. At no time during the night were the heat-stricken people relieved for the temperature hovered about the eighties even at midnight.

Conditions on the East Side were terrible. At every window a head on a pillow might be seen and hundreds of mothers, bent upon saving the lives of their little babes, slept upon the sidewalks. Mattresses were strewn along the streets until they resembled great bedrooms and scores of heat victims lay

upon the bare sidewalks. Traffic blockades were common sights throughout the day. Horses succumbing to the heat dropped dead in their traces, and thoroughfares were blocked with street cars, vans and vehicles of

every description. The most cruel blow dealt the poor residents of the East Side tenemen district was the increase in the price of ice. No sooner had the heat wave gripped the city than it was ann that forty cents a hundred pounds would be charged for ice, which had previously been sold for 35 cents.
