ZELAYA SAID TO HAVE GRAFTED

DEPOSED PRESIDENT OF NICARAGUA OUT

His Successor Formulates a Long List of Charges Against Him.

Bluefields, Nicaragua, Oct. 18.—Declaring that the recently overthrown president of Nicaragua, Zelaya, was "a crook and a knave" Acting Provincial President Estrada, to-day issued a public statement in which he asserted that Zelaya had elevated graft and fraud to the dignity of a standard government principle and that it had become the main plank in the administration platform.

He stated that Zelaya had granted exclusive monopolies for tobacco, liquor and explosives, that he had given over the sole rights for the navigation of lakes and rivers to private corporations that exclusive privileges were enjoyed by those in his favor who held the rights to do all the butchering, fishing and mining within the boundaries of the country.

In addition he declared that monopolies were held on the rubber and salt industries, and in short that Zelaya was the centre of a gigantic graft system that was absorbing the resources of the country to the benefit of a small coterie.

In addition Estrada charged that the government treasury had been raided, that outrageous embezzlements had been committed under the guise of fictitious international loans and other tricks of high finance. No department, according to Estrada, has been conducted honestly. The customs house has been used merely as a means for further enriching Zelaya and his accomplices whose imports, Estrada asserted, have been allowed to come in free.

These and many other illegal acts, according to Estrada, have paralyzed all chances for the betterment of Nicaragua and have dimmed the future progress of liberty in the country.

It is reported that Zelaya has given up all plans of attempting to regain his position as the head of the government and has left the country. The report, however, is not verified.

The situation to-day is unchanged. Estrada holds the reins of government. The revolution in the interior towns is still in progress with the revolutionists for the most part in control.

CHEQUE PASSER IS GIVEN FOUR MONTHS

Roland B. Petitt Will Work on Rock Pile and Sober Up.

(From Tuesday's Daily.)

Roland Petitt, who pleaded guilty to a charge of passing valueless cheques, came up in the police court this morning for sentence and received four months with hard labor. Addressing the court, the prisoner said he was a married man with a family to support, and was expecting to close a $20,000 deal for a patent when he passed the cheque. In the same breath he told the magistrate he was crazed with drink when he passed the paper, and said: "However you deal with me, I intend to make restitution, and expect money to-day with which to pay back the amounts."

The prosecution handed in a conviction against accused from Vancouver.

Albert Coles, against whom is a charge of sending in false fire alarms from box 45, was remanded two days for a medical examination. The prosecution, through H. W. R. Moore, said Dr. Robertson had examined the man and thought he was irresponsible.

John James, an Indian, charged with stealing a bicycle, was again remanded. The case will be heard to-morrow.

ISLAND EXHIBIT TO WASHINGTON UNIVERSITY

Display at Exposition at Seattle Will Be Maintained at Seattle

Ernest McGaffey, secretary of the Vancouver Island Development League, has just returned from Seattle, where he has been superintending the disposition of the exhibits which the league had at the A.-Y.-P. exposition. Almost all the specimens have been turned over to Frank Stevens Hall, curator to the museum attached to the University of Washington, where they will form a perpetual exhibit and will be used daily as a practical example of the island's wealth in the classes of the university.

Mr. McGaffey says that the real feature of the island's exhibit at the fair was its size. Because of this it was visited by thousands where other exhibits were passed by on account of their unpretentious character. In view of this he is of the opinion that something of a pretentious character should be attempted when it comes to sending an exhibit from the island to the Winnipeg exposition of 1912.

That portion of the A.-Y.-P. exhibit sent from this island, which has been transferred to the University of Washington consists of all the heavy timber and coal, the shingles from Ladysmith and all the ore specimens, with the exception of those which came from Alberni, and which have to be returned to the people who loaned them.

—On Sunday the house belonging to T. Elford at Shawnigan was completely destroyed by fire. It is not known how the fire originated, but the place was completely destroyed. No one was occupying the place at the time.

KING OF GREECE MAY ABDICATE

His Three Sons Have Given Up Their Army Commissions.

Athens, Oct. 18.—Premier Mavromichalis having announced the desire of the Royal Princes to have the bills relating to their services in war adopted, the chamber of deputise without discussion, voted the bills abolishing the right of the Princes to hold military commands.

The adoption of the Military Reform bills veils another step in the military revolution which may yet involve the abdication of King George. It is understood that His Majesty feels acutely his abandonment by the great powers in the matter of Greece's aspirations for the annexation of Crete, and has quite seriously considered the possibility of being compelled to abdicate as an outcome of the disappointment of his people. King George, who has been living in retirement at Taoi since the recent military movement, on being informed of the possibility of another revolution, drove in an automobile to the capital, and instructed his three sons formally to resign their army commissions. This done, King George summoned Premier Mavromiachilis to the palace, and informed him that he had persuaded his sons to resign, because he was reluctant to permit the chamber of deputies to suffer at the hands of the military revolutionists for its loyalty to the Crown.

A painful scene followed the premier's announcement of the decision of the Princes, and some 30 loyalist members rose and quitted the house, The chamber then voted the bills.

King George's unexpected act of self-renunciation, and the fact that the chamber is now completely dominated by the officers' league, is regarded in many quarters as being incompatible with His Majesty's dignity and his retention of the throne.

Crown Prince Constantinos held the position of commander-in-chief of the Grecian army; Prince Andros was a captain of the Grecian cavalry, and Prince Christoferos as sub-lieutenant in the infantry.

CZAR NICHOLAS GOES A LONG WAY AROUND

On Coming Visit to Italy He Will Avoid Traversing Bavaria.

St. Petersburg, Oct. 19.—An important and unexpected change of itinerary has been made on the eve of Emperor Nicholas' departure for Italy. It is understood the change was due in part to recent criticism of the Emperor in the Bavarian Landtag, but as well to other and deeper reasons, which, according to the best information obtainable here, resulted in the Emperor's decision to avoid Bavaria and make a long circuit through Eastern France to reach his destination.

The new route chosen is by way of Odessa, Posen, Frankfort and Besoncon, France, and involves a railroad journey of nearly 2,000 miles. A meeting between the Emperor and the President of France during the trip is possible.

COOK CLOSES HIS LECTURE TOUR

Will Return to New York to Work Upon His Documents.

Toledo, Ohio, Oct. 19.—Dr. Frederick A. Cook, who lectured last night, said that officers of the Danish government ship Godhaab, which has just arrived off Copenhagen, after a northern voyage, might be able to give information which would throw light on the polar controversy. He referred especially to Captain Scourby and Engineer S. Trulk. "These men passed two weeks among the Eskimos from whom I recruited my men for my expedition," said Dr. Cook. "They can speak Eskimo perfectly, and several scientists are aboard the ship." Dr. Cook will conclude his lecture tour this week, closing at Minneapolis, and will return to New York to work upon his documents.

COL. A. D. DAVIDSON LEAVES CITY TO-DAY

He Points Out That Canadian Northern Has Been Great Colonizer.

Col. A. W. Davidson, land commissioner of the Canadian Northern railway, left the city for Vancouver this afternoon. He describes himself as "Farmer" Davidson, and will spend some time on the coast before proceeding east. He is deeply interested in the Fraser River Lumber Company, with immense sawmills at Millside, near New Westminster.

Col. Davidson will visit the mills and also the company's lumber camps near Comox. He expects to spend two or three weeks on the coast before returning.

Referring to the Canadian Northern, the colonel says Mackenzie & Mann have always laid great stress upon the colonizing of the lands along their line. The company has been the great colonizer he says from the time it first began construction. If it comes to Vancouver Island he anticipates the same policy will be carried out.

MOVE TOWARDS CLEANER STREETS

CHIEF LANGLEY MAKES SUGGESTION TO COUNCIL

Asks That By-Law Be Amended in One Important Particular.

(From Tuesday's Daily.)

Chief of Police John Langley forwarded a letter to the council last evening suggesting certain amendments to the streets' by-law whereby it will be possible, in cases where refuse matter is thrown upon the streets or sidewalks, for the police to hold the landlords or the agents of the premises liable. As the by-law reads at present only the person who deposited the refuse on the streets can be summoned and in the majority of cases it is practically impossible to discover the offender's indentity.

Ald. Turner called attention to the desirability of instructing the police to pick up things which have been dropped on the street. He knew of instances where slabs of wood had been dropped on the street from carts and the police failed to pick them up. This ought not to be.

Ald. Ross was of the opinion that the street superintendent ought to get busy. He was the man in his opinion that was primarily responsible for the condition of the streets.

Ald. Stewart said that while on this subject he wished to point out the desirability of issuing instructions to prevent carts employed in carrying away material from excavations, dropping quantities of this material all along the route. The carts should be "trimmed" before starting. This was always done in up-to-date cities.

Ald. Bishop favored closer attention being given to the supervision of the operation of scavengers' carts.

The letter was referred to the legislative committee.

The city engineer reported on the cost of putting down a permanent pavement on Broad street from Johnson to Cormorant, and on Pandora avenue from Douglas to Government. He said he would like to see wood blocks on Broad street. The owners on Pandora avenue had petitioned in favor of granitoid and he submitted figures for the same. Some of the aldermen thought that the city engineer should have expressed a definite opinion as to which kind of pavement was in his judgment the best and then the council should back him up regardless of the wishes of the property owners. This view did not meet with the approval of the majority of the board, and the section mentioned will be done with granitoid as requested by the property owners.

The city engineer and the water commissioner reported that in the case of by-law 25, providing for local improvements on Catherine street and McPherson and Fullerton streets, the estimate ran $7,000 short, due to the fact that pavement on Catherine street had been widened and extra rock surfacing work done. The report was adopted and the extra amount will be paid.

On the suggestion of Ald. Mable the council at an early date will give consideration to the question of appointing an independent assessor. It is believed that such a plan will save much time, and the work in the assessor's office be expedited.

The contract for the supply of steel tubes was awarded to J. H. B. Rickaby for the sum of $40,928.45. This contract calls for the Mannesmann's seamless spigot and faucet tubes—a specially coated pipe which is in high favor with all engineers requiring such material.

The following works of local improvement will be taken in hand at once, no adverse petitions having been received:

To grade, tar, macadamize and drain Craigflower road, from Arm street to Russell street, and on Russell street, from Skinner street to Langford street; permanent sidewalk on the west side of Douglas street, from Garbally road to Francis street; grade and tar macadamize Quadra street, from Blanchard street to Hillside street, and construct permanent sidewalks on the east side of Quadra street, from Pandora avenue to Hillside avenue, and on the west side of Quadra, from Caledonia avenue to Hillside avenue; permanent sidewalk on the north side of Michigan street, from Beacon Hill park to Government street and boulevards, curbs and gutters on the south side of Michigan street, from Government street to Menzies street, and on the north side from Beacon Hill park to Menzies street, and grade, drain and rock-surface said street, from Beacon Hill park to Menzies street; boulevards on both sides of Government street, from Michigan street to Toronto street, and on the south side of Belleville street, from Menzies street to St. John street.

The city engineer reported on the cost of the following works:

Grading, macadamizing and draining Prince's avenue, from the city park easterly to Chambers street with permanent sidewalks and boulevards, curbs and gutters. Total cost, $14,321; city's share, $4,536. Permanent walk on the north side of Pembroke street, from Cook street westerly to the North Ward park. Total cost, $1,027; city's share, $205. Wood block pavement on Fort street, from Douglas street to Blanchard street. Total cost, $11,970; city's share, $3,990.

R. B. McMicking, local manager of the B. C. Telephone Company, has asked the city to prepare plans for the carrying of the city electric wires in the subway across the causeway, for transmission to the head office at Vancouver. Should the plans be approved the city will be allowed to use the subway, but not otherwise.

On the suggestion of Ald. Mable, the city electrician has been instructed to go ahead and place the necessary conduits in the man-holes and connect up with the wires, the council feeling that the city has every right to the use of the conduit.

It was decided to purchase a water meter at a cost of $1,278 to register the amount of water supplied to the municipality of Oak Bay.

Permission for the use by the local chess club of one of the rooms in the Carnegie library was granted on request by W. Marchant.

The B. C. Electric Railway Company is willing to erect a waiting room at its Beacon Hill terminus, and is desirous that the city council should select the site. The company would prefer to have it on the edge of the park property. The city engineer will give the matter attention. The parks committee will give the matter immediate attention.

The honorary president of the Canadian Club, of Halifax, wrote asking for a donation towards the cost of a national memorial which is to be erected at Halifax. The matter was left in the hands of the mayor.

NARROW ESCAPE OF SIX HUNDRED

SPECIAL TRAIN RAN INTO HERD OF CATTLE

C. P. R. Express Nearly Wrecked at Ramsey—Three Injured.

Winnipeg, Oct. 19.—Hair-breadth escapes from death were experienced by those on the special train carrying passengers from the Empress of Ireland in an accident that occurred at 9.45 a.m. Saturday morning at Ramsey, a few miles east of Chapeau, on the C.P.R. The train dashed at thirty miles an hour into a herd of cattle being driven along the line. The engineer first saw the animals when within a hundred yards of them. He clapped on the air-brakes and yelled to the fireman to save himself, and they both leaped for their lives. The small wheels of the engine mounted the animals, derailing the train, which travelled for some distance over the ties, the six hundred passengers being shaken up like peas in a box.

One baggage car was sent hurtling off the track to the left, where it was embedded in the soft earth on its end. The next car, a colonist, packed with second-class passengers, was dashed down the bank, and the scene in its interior, passengers say, beggared description. Women and children were thrown from one end of the car to the other. Every window was smashed, seats were torn up, while top bunks came crashing down.

When the crew of the train and many willing helpers succeeded in rescuing the inmates of the carriage, contrary to their expectations, it was found that but three were seriously injured:

J. R. Stanners, of London, England, was severely cut about the face; T. Eady, of Wicksworth, Derbyshire, had his face terribly cut; Miss L. Woolley, Liverpool, was suffering from serious injury to the back. Eighteen others were hurt more or less.

LORD'S SUPPER TO 25,000 PERSONS

Immense Congregation Communicate at Pittsburg Services.

Pittsburg, Oct. 19.—The greatest religious gathering ever held in this city and perhaps in the country occurred at the National League ball park, Forbes field, here, when 25,000 persons assembled at the sacrament of the Lord's supper, the event being the principal feature of Sunday's session of the convention of the disciples of Christ, of the Christian church.

About one hundred elders and one thousand deacons of the church officiated in passing bread and wine, while a choir of five hundred voices led the music.

Four big gatherings at the various convention halls closed the day's programme. One of the principal sermons was preached by Rev. S. M. Martin, of Seattle.

CONDEMN GYPSY SMITH'S METHODS

Invasion of Chicago's Restricted District by Church Workers.

Chicago, Oct. 19.—Opinion is divided to-day as to the wisdom of last night's parade, when 12,000 church workers, under the leadership of Gypsy Smith, the evangelist, marched through Chicago's tenderloin district.

A woman who has lived in the district for the last five years said: "I was sorry to see so many young boys attracted to the district for the first time in their lives."

The revivalists declare that the demonstration was simply "marvelous," and did a great deal of good.

Gypsy Smith is one of the most prominent evangelists in the country, and when holding a meeting in the large cities always devotes one night to the tenderloin, when he with his followers march through the district and plead with the women and men to lead better lives.

ANGLICAN SYNOD NOW IN SESSION

BUSINESS TRANSACTED AT FORENOON SITTING

Appointments Are Made and Reports Read This Morning.

(From Tuesday's Daily.)

The second session of the Eleventh Synod of the Diocese of British Columbia was continued this morning in the Christ church school room with delegates from the many parishes of the province in attendance.

Appointments were made as follows: To be clerical secretary, J. H. S. Sweet; to be lay secretary, F. W. Blanchenbach; treasurer, P. Wollaston; auditors, F. Elworthy and A. W. Bridgman. Beaumont Boggs and E. H. Hiscocks were the lay members added to the executive committee, and Rev. W. Baugh Allen, Esquimalt, and Rev. H. A. Collison, Cedar Hill, were the clerical additions. Representing St. Mark's, Victoria, Capt. P. Elliston was appointed; St. Mary's, Metchosin, Mr. Skelton, and representing St. James, James Island, Colonel Layard and Edward Walker.

The report of the executive committee was presented. The committee reported that they had met six times during the year, and gave a general outline of the work done.

The committee offered a resolution of appreciation of the past work of Canon Beanlands, who recently resigned his charge to proceed to a similar charge in England. The report also stated that Architect J. C. M. Keith had been requested to look over the plans for the new cathedral with a view of bringing the cost within $150,000.

The missions board reported a number of resignations and appointments made, and announced that the South Saanich and Cedar Hill districts had now made up the arrears which had been standing for some time. The announcement was received with applause.

The widows' and orphans' fund committee reported on the work, and that $8,359 now stood to the capital.

The religious education in public schools' committee report stated that the committee was in accord with the pan-Anglican resolutions regarding the matter, but could not see under present conditions how they were to be applied.

Rev. Mr. Andrews said the report appeared very pessimistic, and if the committee had concluded its duties it would be well to appoint a more optimistic one.

The bishop thought if the committee joined with the committees from the many other denominations in the province on the matter and discussed it fully something towards united action might be taken towards bringing about the giving of religious instruction in the schools. He appointed the committee to continue to act and added the name of Rev. Mr. Ambrose.

ONE BY ONE FAMILY GOES.

Tacoma, Oct. 19.—The running down and killing of Mrs. Catherine Herman, a widow, 47 years of age, by a Northern Pacific train last evening, was the third violent death in the Herman family in three years. Three years ago the woman's husband was run over and killed by a train, and a little over a year ago a son was killed in a logging camp. Three girls, the eldest of whom is 18 years, and one boy, aged 12, are left.

ALFONSO WILL GET RID OF HIS PREMIER

Reactionary Attitude of Maura Displeases the King.

Madrid, Oct. 19.—It is generally understood here to-day that King Alfonso intends shortly to depose Premier Maura and appoint Senor Baccarogga temporary premier until a new cabinet can be organized.

Premier Maura will not resign unless Alfonso forces him to take this step.

King Alfonso and Premier Maura are said to have quarreled violently because Prof. Ferrer was executed without the King being given an opportunity to pardon him.

POLYGAMOUS HINDUS KEPT OUT OF STATES

Party of Nine Are Turned Back at Seattle, But Will Appeal.

Seattle, Oct. 19.—Because several of them expressed a belief in polygamy, and also because they were not properly equipped financially, nine Hindus, out of a party of 11, who arrived here on the steamer Shinano Maru, have been refused admission to the United States by the local immigration authorities. The other two were admitted. This is the second lot of East Indians who have been turned back recently as a result of their confession that they considered two or three wives greatly preferable to one.

The nine brown men who have just been refused permission to enter the United States have the privilege of appealing to the secretary of the department at Washington, and it is said they all intend to do so. They will be detained here until the result of this appeal is made known.

VANCOUVERITE JAILED FOR SELLING BIBLES

But His Ad. Led People to Expect Something Different.

Vancouver, Oct. 19.—For selling Bibles, James M. Lambert is now in jail. But it is not because he sold the Bibles in the ordinary way. For several weeks past there had been appearing the following advertisement, and it was the wording of it which caused J. R. Greenfield, postoffice inspector, to file an information charging Lambert with false pretences. The ad. reads:

"Notice.—On receipt of $1 we will send, securely sealed, a beautifully bound book of over 400 pages of good things. Every sport should read it; the most wonderful book ever written; prohibited in many countries; French and English translations. Send at once. J. D., 8 East Side postoffice, Vancouver, B. C."

Among those who sent for the volume was William Black. He did not know what to expect in return for his dollar. Least of all he expected to receive a Bible. Yet when it did come he saw at a glance that he had been "stung," notwithstanding that the book is the most wonderful ever written. So Mr. Black made complaint to Mr. Greenfield of the postoffice department, and an officer went out and took the ingenious advertiser to jail.

In the police court yesterday the case was remanded till to-day. A careful reading of the advertisement shows that Lambert without doubt "made good" everything in the ad.

Just how extensive a business Lambert has done is unknown to the postoffice department, but it is presumed that he quite flooded the city with the good book, and probably placed it where it never would have been placed except for the wording of the advertisement.

MISCREANT CUT THROAT OF WOMAN

Los Angeles Stirred by Midnight Crime in Negro District.

Los Angeles, Cal., Oct. 19.—Every available police detective in this city is searching for the fiend who entered the room where Mrs. George Staehle and her 12-year-old daughter lay asleep and, with a razor, slashed the woman's throat from ear to ear, inflicting a horrible wound that the surgeons at the receiving hospital feared would prove fatal.

A white handled razor, found in the bedroom, is the only clue on which the officers can base their search. The bloodstained blade was found on the floor beside the bed. The house was entered through the bathroom window.

Mrs. Staehle is the wife of an employee of a local brewing company. She and Elsie, her little daughter, were sleeping alone in the house when the crime was committed shortly after midnight. The neighborhood is thickly populated by negroes and the yard of the Staehle home was filled with them when the officers responded to a hurry call.

Several arteries in the woman's neck had been severed and her wind pipe punctured. That death was not almost instantaneous was regarded by the hospital attendants as marvelous.

KELOWNA SEEKS FOR CONTROL OF WATER

Will Ask for Bill at Next Legislative Session.

Kelowna, B. C., Oct. 18.—At last council meeting the mayor said that city councils for two years past had contemplated getting a private bill passed in the legislature in order to secure control of irrigation water within the city limits, but there had not been time after each municipal election for the council to take the necessary preliminary steps before the opening of the legislative session. He thought the present council ought to do some of the preliminary work such as advertising in order to give their successors a chance to obtain the desired legislation.

Ald. Bailey said he had spoken to Price Ellison M.P.P. about the method of procedure, and had been informed by him that the intention of the council to apply for a private bill had to be advertised in the B. C. Gazette and a local newspaper for at least 60 days prior to the session of the legislature. The present water act did not seem to apply to the circumstances of Kelowna, and a private bill appeared necessary. He approved of the mayor's suggestion that this year's council should undertake the required advertising and notice was given of intention to introduce a by-law.

LOMBROSO DIED TO-DAY.

Turin, Italy, Oct. 19.—Cesario Lombrose, one of the most eminent crimologists and psychologists of Europe, died here to-day from cerbral hemorrhage.

HON. S. H. BLAKE MARRIES.

(Special to the Times.)

Toronto, Oct. 19.—Hon. S. H. Blake was married this morning at Rio de Janeiro to Miss Baird, his private secretary. Mr. Blake is 74 years old, and married his first wife, a Miss Cronyn, of London, fifty years ago.

LAYS GHOST OF ORIENTAL ISSUE

MINISTER OF LABOR STATES CASE PLAINLY

Government Policy in This Regard is Only One for the Country.

Vancouver, B. C., Oct. 19.—"My inquiry in British Columbia under royal commission into the methods by which Oriental immigration had been promoted, supplemented by a knowledge of conditions in the Orient gained by a recent journey through India, China and Japan, has convinced me more strongly than ever that the government's policy in this particular is the only one to be followed in this country."

Thus the Hon. Mackenzie King, minister of labor, again lays the ghost of the Oriental issue which is being invoked for purely party purposes in this province on the eve of a provincial general election. The words given above are taken from a letter written by Mr. King to G. E. McCrossan, president of the Young Liberal Association in this city.

It will be remembered that a few weeks ago the Conservative press published a dispatch in which it was alleged that Mr. King had said publicly that unless the Grand Trunk Pacific were permitted to use Oriental labor the cost of construction would be prohibitive.

SUFFRAGETTE'S CONFIDENCE.

New York, Oct. 19.—Lady Frances Cook, better known in this country as Tennessee Claflin, who arrived here to-day, said she is ready, if need be, to spend $1,000,000, all her fortune, to win votes for women. "I am going right to President Taft," Lady Cook continued, "to see if I cannot get him to do what Lincoln did, but by peaceful measures. I shall call the president's attention to the 14th amendment of the constitution, which says that only idiots, the insane and convicts may not vote, and I want to know if that bars women. King Edward at heart sympathizes with us, and so did his mother, Queen Victoria, before him."

WOMAN'S NERVE IS BURGLAR'S UNDOING

Portland Woman Gives Alarm Which Leads to His Capture.

Portland, Oct. 19.—Quick, decisive action on the part of Mrs. J. A. Magladry, of Eugene, to-day resulted in the arrest of a man whom the police believe to be one of the sharpest hotel room thieves in the country.

Mrs. Magladry and her husband were guests at the Imperial hotel. When she arose this morning she stepped into the adjoining room to dress, leaving her husband sleeping soundly. Returning a few moments later she found a man ransacking her husband's clothing.

Screaming for help, Mrs. Magladry attacked the thief. The husband awakened by the commotion sprung from the bed and also throttled the intruder. Mrs. Magladry's sister, Mrs. Robert Parker, hurried from the adjoining room, locked the door and removed the key. The prisoner made no effort to break away.

The captive said his name is James Davidson. He has been recognized as Kirk Jones, alias James Scott, a notorious hotel thief.

SPANISH ATTACHE OBJECTS TO SPEECH

Parisian Councillor Defends Demonstrations Against Spain.

Paris, Oct. 19.—An attache of the Spanish embassy attending the funeral of Policeman Dufresne, who was killed while guarding the Spanish embassy Wednesday, abruptly left the service to-day when Councilman Masse, an official representative of the city, characterized Wednesday's demonstration as the "response to a call of conscience against the horrible news from Spain." He said that Paris was standing nobly faithful to the traditions of her glorious past.

Councilman Masse seemed to speak directly to the Spaniard, who immediately left the room. International complications may follow as the result of Masse's statement.

INSPECTOR DISMISSED.

Washington, Oct. 19.—Secretary Nigel yesterday, on recommendation of the commissioner of immigration, removed from service Daniel D. Davis, immigration inspector in charge at Chicago. The action was based on information which had come to the secretary that Mr. Davis had made overcharges in connection with meals and attendance furnished to detained immigrants.

DUFFY TO MANAGE CHICAGOS.

Chicago, Oct. 19.—Hugh Duffy, manager of the Providence Club of the Eastern League, is to be the next manager of the Chicago White Sox, according to a rumor in circulation here to-day. Duffy was here yesterday, and had a long conference with Charles Comiskey.
