A BIBLE STUDENT LOOKING FOR TRUTH

Japanese Writer Cannot Under-
stand Why Infinite Being
Would Allow Divine Plan for
Christianity to be Broken Up

LETTER 8.

At the very start of the peculiar
theological doctrine of a Divine Plan,
meets some strange mysterious fea-
tures that it is impossible to under-
stand as coming within the region of
ordinary intelligence. That particularly
selected section of the human race
called the Jews, through which the
Redeemer was to come, never knew
anything about it, as a race; never
believed in it, and now after 1,900
years do not believe it. If this was a
special plan and they were selected
to consummate it, how is it they never
knew it? Let us follow this down a
little further and see how it works out.

When the Divine Victim left this
world as represented, after consum-
mating the scheme of human redemp-
tion, it is claimed by one portion of
the Christian world, He left the key to
the future development of the plan
with the Apostle Peter. When Peter
died he left it with the Pope of Rome,
but little was it understood by his
recipients, that in some of the early
councils of the church in about the
third century, there were such disagree-
ments that some of the council
members were actually murdered in the
council chamber.

Some time after this the Greek
church split off from the Roman
church and broke the plan in two
halves, the Pope still holding the key.
But as time rolled on the Pope, who
now only managed one half the plan,
of which Peter left him the incum-
bant, allowed things to get into such
a state that a reformation became
necessary, and a person called Luther
broke away, protesting against the
rottenness and corruption that exist-
ed, and founded a new sect called
Protestants. This was another break
in the plan. Soon the new set was
as strong as the Roman Catholics.
But it did not take long before the
new sect fell into forbidden ways and
everything but a high religious stand-
ard, and another new set started to
reform them called Methodists. In
the present day there are about 150
different sects founded upon the
Bible and New Testament, with new
ones continually coming to the front.

About the fifth century another
strange thing happened. An interest-
ing new religion sprang up, the funda-
mental basis of which was founded
upon the Bible and New Testament.
Mohamet came to the front with a
new plan. The first part was taken
from the instruction given by Moses,
when he ordered his soldiers to enter
the promised land and slay everything
that had life. Mohamet started out
following this example, and with fire
and sword stamped upon the earth
that opposed him, especially venting
his spite upon the Christians. Moh-
met's second point was taken from the
New Testament, by promising a
Mohometan heaven and his soldiers
were encouraged by the assurance
that sudden death was sudden glory.
And this sect is growing in numbers
today faster than the Christians.

Surely it must be plain to every
intelligent mind that such a thing as
a Divine plan made by the great
Divine Being for man's regeneration
and guidance to seal his eternal des-
tiny needs reconsideration. Can it be
possible that the great Infinite Being
with all power and wisdom, should
allow His plans to be so interfered
with and broken up, particularly
when He had given such a price as
His own Son to make them a success.

OBITUARY.

M. J. Doherty.

The death of Michael J. Doherty,
formerly of St. John, occurred yester-
day at Chelsea, Mass., where he has
resided for the past ten years. He
was the youngest son of the late
John Doherty and is survived by his
mother, Mrs. Frances Doherty, of 155
Dorchester street; one brother, Pat-
rick, in New York and two sisters,
Miss Mary and Miss Anna, residing
at home. He also leaves a widow
and two children a boy and girl. The
deceased was about thirty-seven years
old. Prior to leaving St. John he was
well known in athletic circles, being
especially prominent as a baseball
player. At the time of the Chelsea
fire, Mr. Doherty was burned out, but
had recently erected a new house. He
was employed as an inspector with
a manufacturing concern until a couple
of years ago, when his health gave
out. His remains will be interred at
Chelsea.

SHOOTING AFFRAY
AT GLACE BAY

Sydney, Dec. 6.—As a result of a
row in the Polacks' shacks at Glace
Bay, one of the Poles is shot in the
forehead by another named James Gar-
rie. The affair occurred late in the
evening and Garrie, when he saw he
shot his man, fled. The Sydney police
were notified to watch but it was un-
necessary. Garrie was captured about
midnight at Dominion No. 3 colliery
and placed in the police station and
will come up for preliminary hearing
today. The Pole who was shot was re-
moved to St. Joseph's hospital. His in-
juries are not fatal.

PROGRESS MADE IN WHITE PLAGUE FIGHT

One Patient Makes Partial Re-
covery as Result of Treat-
ment -- Co-operation With
Churches Needed.

The monthly report of the work of
the St. John Association for the Pre-
vention of Tuberculosis, shows the
work done during the month of Novem-
ber is as follows:

Number of patients receiving treat-
ment, to Nov. 1, 21; number of new
cases during the month, 5, of which
3 were children. Total number of vi-
sits to dispensary by all patients, 16
of which 5 were adults and 8 children;
number of doctors who are giving
their services to dispensary work, 4;
these books are supplied to every doctor;
9; number of hours dispensary was
open during the month, 8; nurses' vi-
sits, in homes, 89; of co-operation, 48;
number of patients visited by nurse at
request of attending physicians and
who were unable to come to the dis-
pensary, 5; number of visits paid to
these patients, 45.

One child with every symptom of
pulmonary tuberculosis, who had been
sick for six months has remarkably
improved after two weeks' treatment
prescribed at the dispensary. Every
detail of this treatment is being faith-
fully followed out by the parents, and
it is to this fact alone that the child's
partial recovery is attributed.

The donations include, Mrs. Til-
son and W. A. Jones, each a dozen
each; Mrs. Tilton and others warm
wraps; Metropolitan Life Insurance
Co., 3 dozen copies of Directions for
Living and Sleeping in the Open Air.
These books are supplied to every per-
son attending the dispensary who de-
sires information on the subject.

Co-operation is needed with the dis-
pensary staff of every church in the
city. How this can best be done may
be ascertained by communicating with
the doctors or nurse at the dispensary
who are anxious to co-operate
with the prominent workers in each
church.

METHODIST MISSION WORK THE SUBJECT

Address by Returned Mis-
sionary at Largely Attended
Meeting Last Evening—How
Revival Spread to China.

A mass meeting was held in the
Queen's Square Methodist church
last evening when addresses were
given by Rev. G. E. Hartwell, a mis-
sionary returned from China, and
Rev. E. C. Stephenson, of Toronto,
secretary of the Forward Movement
in the interests of the missions of
the Methodist church.

Rev. Geo. A. Ross, of Fairville,
presided. After a song service by
the choir and a solo by Miss Gaetz,
Rev. Mr. Hartwell gave an interest-
ing account of missionary work
among the Chinese. He said that
when a Chinese is baptized he is
looked upon as a Christian, even
though he did not change his mode
of life very much, and became sepa-
rated from his countrymen. He told
how the work of the great Welsh
revival spread to India, thence to
China, and then to China, where the
missionaries had prayed fervently
that the people among whom they
labored would experience the uplift
of such awakening of spiritual life
as follows the great revivals.

Dr. Stephenson gave an interesting
account of the missionary work of
the church in various fields, and ex-
hibited a number of maps showing
where the mission stations were lo-
cated, also copies of sermons, Bibles
translated into different languages,
and curious relics received from mis-
sionaries in foreign lands.

TRAGIC DROWNING OF HEDLEY HOLMES

Sunbury County Man Broke
Through Ice and Succumbed
to Exposure Before Rescued
--Precautions in Vain.

Fredericton, Dec. 6.—Word of a tra-
dic drowning at Glace Bay, back of
Lakeville corner, Sunbury county,
only reached here this morning. Hed-
ley Holmes, of Lakeville corner, was
returning home from a camp in the
lumber woods, where he had been
working, and had to cross Indian Lake
on the ice.

Mr. Holmes evidently expected he
would have trouble in crossing the
lake for he placed cedar poles and
each arm to support him if the ice
gave way and used a lighter stick to
test the ice ahead. In this way he
reached within about 30 yards of the
western shore when suddenly the ice
broke and he was precipitated into the
deep and frigid water.

By the time men reached the place
in a boat which had to be forced
through the ice about an hour and a
half had passed and Mr. Holmes had
succumbed from exposure and exhaus-
tion. The body was recovered and
taken to his home where his widow
and he were almost heartbroken.
Mr. Holmes was aged 24 years, and
besides his widow is survived by
three children.

For Men Only.

A great mass meeting for men only
will be held in the Y. M. C. A. on
Sunday evening, December 11th,
commencing at 8.15. Rev. R. P. Mc-
Kim will address the meeting, his
subject being "The Sins of God."
Special music will be provided and
an earnest appeal will be presented
to the men present.

MAKE MORE MONEY TO AID GOOD CAUSE

Entertainment Under Auspices
of Door Keepers' Circle Suc-
cessfully Repeated in Opera
House Educational Films.

The entertainment given by the
Door Keepers' Circle of the King's
Daughters in the Opera House in aid
of the fund of the Association for the
Prevention of Tuberculosis, was re-
peated most successfully yesterday af-
ternoon and evening. The programme
of moving pictures was completely
changed and the new films introduced
were received very favorably. A very
interesting feature yesterday was the
exhibition of a number of slides il-
lustrating modern methods of fighting
consumption which through an un-
fortunate delay did not arrive in time
for Monday's performance.

Dr. J. R. McIntosh and Dr. Stewart
Skinner gave a brief lecture on the
subject of tuberculosis. These included
the Jordan home at Riverside which
through the generosity of Mrs. J. C.
Jordan and the cooperation of the pro-
vincial government will be converted
into a sanatorium for consumptives;
hospital cases illustrating the outdoor
system of treating the disease, sleep-
ing porches with methods of protect-
ing the patients from the cold, etc.,
and home sanitariums with sleeping
quarters on the roof, window tents
and other simple means of securing
the maximum amount of fresh air and
sunshine. The effects of alcohol, dust,
smoke and unsanitary conditions in
stimulating the spread of the disease
were depicted and the common house
flies were shown up as one of the
most active and dangerous enemies of
mankind.

The musical portion of the pro-
gramme again delighted the audiences
and their appreciation was shown in
no uncertain manner. Miss Louise
Knight's success was emphasized by
the presentation of several handsome
bouquets. G. S. Mayes was in excel-
lent voice and was forced to respond
to several encores. Mr. Wetmore also
was very well received and was ac-
corded generous applause.

ANNUAL REPORT ON SCHOOL ACCOUNTS

Comptroller Recommends That
All Bond Issues Have Sink-
ing Funds Provided -- Re-
ceipts for Year \$189,032.40

The report of Adam P. McIntyre,
comptroller, on his audit of the school
accounts, states that debentures to the
amount of \$17,441 matured during the
year and were paid out of the over-
draft due to the bank. The securities
held for sinking funds amount to \$21-
220. The insurance on school buildings
and furniture, which expires in June,
1913, is for \$267,720, one-sixth each in
the following companies: Anglo-Am-
erican, London Mutual, Montreal Can-
ada, Atlantic Mutual, Ontario Fire
and Acadia Fire. Boiler insurance to
the extent of \$5,000 is also carried.
The comptroller speaks in approval of
the work of the school committee, di-
rected by the new secretary, and con-
cluding says: In view of the large
debtedness of the trust and of the
further liabilities which will be
created for new work, in my opinion
it would be a wise measure that all
future issues of bonds should carry
a sinking fund.

The statement of receipts and ex-
penditures showed receipts for the year
were \$189,032.40, of which \$46,653.59
was an overdraft at the Bank of New
Brunswick. The expenditure for cap-
ital account was \$147,995.50, and the
interest and sinking fund interest was
\$27,138.23. The school buildings and
furniture owned by the city are val-
ued at \$508,844.19. The total assets, in-
cluding a balance to the credit of gen-
eral maintenance of \$13,393.23 is \$566,
\$56.09. The bonded indebtedness is
\$519,500, the bank overdraft \$46,653.59,
the amount due on coupons not pre-
sented, \$672, and the amount of the
High School medal fund, \$30, making
the total of \$566,556.09. The ledger val-
ue of the school lands and buildings
is \$464,626.70.

2 IN 1 FAMILY

Here is one of the many cases in which
several members of one family have
benefited from the household box of Zam-
Buk. Col. Sgt. Louis Elliott, 3rd Co., 46th
Battalion, Peterboro, Ont., says: "The
lower part of my face, cheek and chin
broke out in small red pimples, which
later fastened and broke, forming nasty
sores and dry scabs. The itching set up
by these eruptions and sores was terrible,
and seemed far worse during the night.
All kinds of soaps, washes and ointments
were tried in the vain attempt to get
relief, even to bathing with carbolio acid
and water. Finally I thought of Zam-Buk
and straightway procured a box at the
drug store. One night's application
brought great relief from the intense
itching, and as I kept on applying this balm daily the inflammation
was soon drawn out, and in less than a week's time the sores were
thoroughly healed and every scab banished."

Mrs. Elliott, 139 Sherbrooke St., Peterboro, telling of Zam-Buk's
effect on her younger son Walter, says: "He slipped and caused a wound
on his right hip, which developed into a running sore. From this
smaller sores spread until his lower limbs were covered with ulcers.
These proved very alarming and I feared blood-poisoning! I began the
Zam-Buk treatment, and it really seemed to aid like magic! In a
remarkably short space of time the raw running sores were all healed.
I am very grateful indeed for his cure, and I strongly recommend all
mothers to keep Zam-Buk always handy."

WHAT ZAM-BUK WILL CURE.
Zam-Buk will be found a cure for cold sores, chapped hands,
frost bites, ulcers, blood-poison, varicose sores, piles, scald
sores, ringworm, inflamed patches, babies' eruptions and
chapped places, cuts, burns, bruises, and skin injuries gener-
ally. All druggists and stores sell at 25c. box or post free
from Zam-Buk Co., Toronto, upon receipt of price. You are
warned against harmful imitations and substitutes. See the
registered name "Zam-Buk" on every package before buying.

'MACHINE' PRESTON VS. CHIEF JUSTICE

Ottawa, Dec. 5.—W. T. Preston,
trade commissioner for Canada in
Holland, has fallen foul of Sir Charles
Fitzpatrick, Chief Justice of Canada.
The statement was made some time
ago that a project for the establish-
ment of a Dutch loan company with
Dutch capital in the Canadian north-
west had been nipped through dam-
aging information given to the pro-
motors by a Canadian, supposed to
be a Montreal man.
P. D. Monk moved in the house to-
night for all correspondence bearing
upon the subject.

Sir Wilfrid Laurier agreed to the
motion at the request, he explained,
of an Ottawa citizen named by Mr.
Preston as the individual who had
frightened the Dutch capitalists away
from Canada. The Prime Minister
caused a mild sensation by giving the
name of Sir Charles Fitzpatrick, whose
letter he read.

The Chief Justice declared in his
letter that the statement imputed to
him was without foundation, in which
denial Sir Wilfrid Laurier expressed
complete confidence. Monk declared
that the name was a surprise.

A second motion for a committee
of inquiry was dropped on the sug-
gestion of the Prime Minister pend-
ing the production of the correspond-
ence.
Names of scientific works by G. T. Hay,
Dr. Matthew read the paper of the
evening on the Physical Features of
Rockwood Park, the first of a series
of lectures on the natural history of
that well known resort. A map thrown
on the screen illustrated the geologi-
cal structure of the region. Dr. Mat-
thew spoke of the various features
produced by heat and change and by
elevation, after elevation during suc-
cessive ages, producing that variety
of broken scenery for which the park
is famous. The formation of the bogs
was explained and the use of the soil
and the fertile areas.

Dr. Matthew's lecture was listened
to with careful attention and at the
close he received a hearty vote of
thanks.

Shooting Cow Moose.
Game Warden Denn has laid in-
formation against Joseph Sprout, care-
taker at Loch Lomond, for shooting
a cow moose out of season. The case
will be heard on Monday at 10 o'clock

SHE WAS SURPRISED

When Dr. Morse's Indian Root
Pills Cured her Chronic
Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells
an interesting story of relief from almost
intolerable sufferings. "I can hardly tell you how great my
sufferings have been. Chronic liver com-
plaint accompanied by biliousness were a
daily source of trial to me. Every day
I experienced the sickening effects of
these ailments. I longed for some medi-
cine that should permanently drive them
away.

Hearing of Dr. Morse's Indian Root
Pills, I thought they were worthy of a
trial. My surprise was indeed great.
From the very first I experienced relief.
Continuing with them I found my trou-
bles were slowly but surely leaving me,
and before long I once more knew what
it was to be free from the harassing ef-
fects of the ailments that had long sick-
ened and weakened me. So great is my
faith in Dr. Morse's Indian Pills that I
shall never on any account be without them."

Dr. Morse's Indian Root Pills cure
Bowel and Kidney troubles, Liver troubles,
and keep you healthy. 25c a box

Nickel Has Another Strong Bill Today

Commencing this afternoon the
Nickel will present still another of
those fine picture programmes to
which it has become quite famous.

Three of the best M. P. makers in the
world will be represented in the bill
—Biograph Co., Vitagraph Co., and
the Lubin Co. The Biograph is a
pretty rural romance entitled "Sun-
shine Sue." acted and staged as only
the Biograph people can do, and hold-
ing the interest of the watcher to the
end. The comedy number is Lubin's
household mix-up "Right in Front of
Father"—a queer little bit of a queer
picture; one continuous round of the
most hilarious fun. The Vitagraph
production "Nellie's Farm," is a pa-
thetic story of a sick little girl and a
little boy friend who gives her a toy
farm. Floyd Baxter, whose pleasant
familiar numbers are being so well re-
ceived upon this his return engage-
ment, will continue in the selection
"Happy Days" and tomorrow will
render the old favorite by Ascher
"Allie Where Art Thou?" Orchestral
as usual. Next week Santa Claus
Happy Hooligan and other celebri-
ties dear to childish hearts will be a
feature. The Nickel in the little musical play
"The Narrow Escape of Santa Claus."
