PRESS OPINIONS.

(F. B. McCURDY & CO.)

Herald—The stock market is in a

stronger position.

Sun—New enterprise in trade and

industry is not inevitably on the wane

merely because for the time being

purchasers of securities are holding

aloof.

American—Aside from the weak-

ness in the newer industrial, the gen-

eral market is professional and pro-

fessionals are bearish.

Tribune—There is continued shak-

ing hanging over the stock market

because of the further readjustment

of investment values, as exhibited by

the bond market.

Commercial—Industries and specu-

lation are going down under the

weight of the tariff problem.

Journal of Commerce—Trade condi-

tions are worldwide so far as invest-

ment in new securities are concerned.

Canada is yet too cautious to under-

take fixed commitments.

EVANS ON STOCKS.

(F. B. McCURDY & CO.)

New York, April 16.—Europe was a

major buyer of securities in this mar-

ket and its buying has to a consider-

able extent offset the liquidation

which has been going on for some

time. It is estimated that 70,000

shares of stock will be shipped out

of this week's steamers. In spite of

the market continues to move, but

it is no reason to expect any real

advance in other direction. Trading

in securities for small terms should

be with the preference of the

market on strong spots.

STOCK MARKET SPIRITLESS
BUT UNDERTONE WAS STEADY

New York, N. Y., April 16.—Although

the stock market was spiritless and

unstable today, the undertone was ap-

preciably steady. Stocks were depressed

at the outset, with a recovery quick-

ly following, and during the remainder

of the session prices moved back and

forth within a narrow range, with few

important changes. Increased resist-

ance was offered to pressure, and most

of the stocks, which have been notice-

ably weak recently, made a better

showing. The petroleum stocks in par-

ticular were strong. There was an in-

creased inquiry for stocks at the lower

level established by yesterday's trad-

ing, but the demand was not keen, and

sell off when quotations advanced.

Speculative conditions were virtu-

ally unchanged and on neither side of

the market was there a disposition

to take the initiative. Feeling fell off

and at intervals during the middle of

the day the market was at a stand-

still.

Copper shares were heavy at times

despite the report that the leading

selling agencies had advanced the

quotations for refined metal to 15 1/2

cents. There was a decline of the met-

al, for Europe was said to have been

checked. The market abroad was in-

fluenced by the fortuitously copper

statement, showing an increase in

European visible supply of the metal

of 1,432,000 pounds. In the steel and

iron trade, it was said that some

branches were showing indications of

slowing up, although the effect of the

flooding in the central states accord-

ing to the weekly reviews of trading au-

thorities, was less than had been ex-

pected.

Some traces of improvement were

shown in bond prices, but enough sell-

ing went on to make the tone unset-

tled.

The new St. Paul 4 1/2's sold down to

90 1/2, compared with the subscription

price of 90 1/2. Total sales par value,

\$1,858,000. U. S. bonds were unchang-

ed on call.
