MOMENTOUS SESSION OF THE BRITISH COMMONS

Important Measures to Come Before Parliament--

Liberal Government May Be Short-lived--

Asquith's Majority Already Dwindling, Will Disappear Completely If Allies Withdraw Support.

London, Oct. 7.—Parliament has con-
vened for what promises to be the
most tempestuous session in years.
Three matters of vital importance are
to be disposed of—Irish Home Rule,
the Disestablishment of the Church of
England in Wales and election reform.

The Liberal administration support
all these measures. The Conservatives
will fight them tooth and nail.
Already they have fifty-five pages of
amendments to the Home Rule bill on
hand. The Liberals will resist delay,
however, by the drastic application of
the "guillotine" which limits the time
for debate, and the "kangaroo," where-
by the majority disregards frivolous
amendments.

The Liberal administration's position
is precarious. Counting its own
members of the House of Commons,
forty-two Labor members and seven-
ty-six Irish, it has a majority of 110,
but the Labor men may secede at any
time, and the Irish are only interested
in keeping administration in office un-
til Home Rule is assured.

To Pass Home Rule This Year.

On Thursday next the closure re-
solution allocating the time to be given
to the Home Rule bill will be moved.
It is certain to receive fierce oppo-
sition from the Conservative party and
probably will lead to a repetition of
the scenes which marked the discus-
sion of Gladstone's Home Rule bills
of 1886 and 1892.

It is the government's intention to
pass the Home Rule bill through the
Commons before Christmas, and it is
possible its other vital measures, such
as the Welsh Church disestablishment
bill and the manhood suffrage bill, all
of which are sure to be fought to the
last ounce of the Tory strength. The
party which has issued strong ap-
peals to members to be in their places
all day and every day, ready at all
times for a crisis.

It is expected that thirty to forty
days will be allocated to the Home
Rule bill, and it is feared that other
questions such as the now inevitable
debate on Persian affairs, for which
the extreme Radical section has been
pressing, and the general international
situation, may require consideration.

Marconi Agreement.

The operation of the insurance act
is sure to be brought forward, and one
day is certain to be allotted to the
continuance of the debate on the Mar-
coni agreement. This last, too, is
likely to raise a storm of considerable
magnitude. Hard things will be said
about the pact, and the government has
been in making its agreement with the
Marconi company. One of the al-

ADVANCE ABOUT DUE IN SALT FISH PRICES

Local Dealers Report Market In Good Shape — Prices Much Better Than Expected Early In Season.

The salt fish market in St. John is in a fairly healthy condition, and the indications are that prices will advance slightly before very long. Yesterday one of the Nova Scotia schooners landed a cargo of dried cod at the South Market wharf, for which a price of \$5.00 per quintal was paid. While this is not as high as some prices paid last year, when fish prices generally broke all records, it is a good price as compared with other years, and much better than was expected earlier in the season.

The Newfoundland bank catch is bringing good prices, and the bay cod usually command a better figure than Newfoundland fish. The Nova Scotia bank fishermen have been making good catches recently, but the Bay of Fundy catch of cod this season has been light. The wet weather of the early summer interfered somewhat with the curing of the fish, but the stock generally being sent here from the states, and provide from seven to eight cents a box. Some consignments of salt pollock have brought \$32.00 a quintal, while about the lowest price paid has been \$25.00.

A Business Report.

It was reported yesterday that the firm of Tappley Brothers, tag boat owners of North End, had suspended payment. An evening paper quoted P. Tappley of the firm to the effect that a meeting of the creditors would be called and a compromise asked for. Mr. Tappley hoped the result of the arrangement would be but temporary, a hope which will find general response in the business community.

Leoric Temple's Case.

New York, Oct. 8.—When the exercises at the Cedar Grove, N. J., public high school opened yesterday morning, Leoric Temple, the seven-teen-year-old son of Frederick I. Temple, who is an auditor in New York, was not present. The school board of the village had taken action in regard to the boy's refusal to announce his allegiance to the American flag, and as the boy refused to reconsider, acting under his father's orders, he was expelled.

C. P. R. Denies It.

THE MIRAMICHI LUMBER CUT MAY BE RATHER LIGHT

Because of High Freight Rates North Shore Operators May Not Exert Themselves During Coming Season.

"Owing to the high freight rates, the lumber operators along the Miramichi river are not inclined to make preparations for much of a cut this winter," said James Robinson, of Miramichi, who was at the Royal yesterday. "One company plans on making quite a cut, but the majority of operators are taking things easily. Early in the summer shipments from the Miramichi district to Great Britain were fairly good, but with the advance in freight rates, and the difficulty of getting tonnage, shipments have fallen off, and very little has been done in the lumber trade. Some of the lumber men have made considerable shipment to the United States, but owing to the extra distance it is not possible to meet the competition of Bay shore ports and Nova Scotia on a satisfactory basis in the American market. The North Shore hasn't the advantage which St. John has, of being able to get schooners which bring coal from the states, and provide them with a return cargo of lumber. The way ocean freight rates has gone up is causing the lumber men a good deal of concern."

Will Revalue City Lands.

As a result of the investigations which the city commission has been making into the assessment system of the city, it has been decided to have a revaluation of the city lands. The Chamberlain's department has been complaining for some time that it was impossible to get any definite information about the valuations placed by the county assessors upon the city's lands in the Parish of Lancaster, and it has been claimed that the city was paying larger taxes on its lands to the county than was warranted by the valuations placed on private lands in Lancaster. The commissioners are having a general examination made of the city's assessment system, and the expected result will be a general revaluation of private land within the city limits as well.

Exhausted Nerves Sleepless Nights

Continually Grow Worse Until Or, Chase's Nerve Food Restored Vigor and Strength.

Mrs. Campbell.

What misery to lie awake nights and think of all sorts of things without being able to get the rest and sleep which is necessary to restore the nervous energy wasted in the tasks of the day.

This symptom of sleeplessness is one of the surest indications of an exhausted nervous system. You must have sleep or a breakdown is certain. Dr. Chase's Nerve Food feeds the feeble, wasted nerves back to health and strength. In a few days you obtain the natural, restful sleep which helps so materially in restoring vitality to the nerves and strength to the whole body.

Mrs. Sarah Campbell, 108 Alma street, St. Thomas, Ont., writes: "For months I was so bothered with nervousness that I could not sleep nights. There were other symptoms of exhausted nerves, but none caused so much misery, and I found myself continually getting worse.

"I began using Dr. Chase's Nerve Food, and it was not long before I noticed great improvement in my health. It built up the nervous system wonderfully, strengthened the nerves and enabled me to rest and sleep well."

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50, all dealers, or Edmansons, Bates & Co., Limited, Toronto.
