MAN WAS BIG

audience of hockey enthusiasts the 236th Kitties team defeated the city team of puck chasers at the Arcuck Rink this evening. The score at the close of the third period stood 5 to 2 in favor of the military men. The match was keenly contested throughout, the brand of hockey being much better than has been seen on local les for some seasons. Good hard ice was provided by the rink management for the match, which served to make the play fast and lively. McLean, the Kilttles' major, a St. John boy and former Yale man, starred for the winners, getting two of the three goals, while Sears netted the puck for the other count. The Kilties scored twice in the first period and once in the third period. Neither side scored in the second period. Several spectators thought that the city team had made a third goal in the last period, but Referee Captain J. D. Blaix ruled that the puck had been kaixed into themset.

There was very little play that could be considered on the rough side, which the gave the judge of plar, D. Leo Dolan, a much easier time than he has had when he handled preyious exhibitions on local lee. Special mention should be made of the work of the goal tenders. Robald Gregory, a come of the seal tender for the Kilties, was equally effective.

MAY TRADE JOE WOOD

There is talk of a trade between the Boston Red Sox and Cleveland, whereby Joe Wood will be given to the Indians in exchange for catcher Steve O'Neill.

Cleveland would like to add Wood to its pitching staff, in view of the fact that Wood and Tris Speaker are close personal friends and the Boston Red Sox are considered a bit weak behind the bat, with Carrigan gone and Agnew not having been at his best last year.

OLD BUT GAME

Dan O'Leary, who is 74 years old, thinks a walk of about 20 miles a day is the proper exercise for a man after

up.

Dan has a standing challenge to walk any man, regardless of "age, youth, or beauty," as he puts it, for \$500 a side. He has been dufing distance walking since 1867, and has covered 108,462 miles.

Here are some rules suggested by

west 23d Street, take 23d Street crosstown car.

Here are some rules suggested by him: Walk to the office and back every day. Start with five miles a day and increase until you are walking all you have time for. Get shoes with flexible soles and a good fit around the heels. To keep your feet in good condition use wars sandpaper to remove the callous spots. Bathe your feet every night and use sandpaper in the morning when the skin is dry. Cultivate the stride natural to you, and it will get you there with the least effort, whether the distance is long or short.
