Mabel McKinley--Niece of the Late President of the United States--Takes Nuxated Iron for Strength

And Says She Regards It as The Ideal Tonic For All Weak, Run-Down Nervous Women

Dr. George H. Baker, Formerly Physician and Surgeon Monmouth Memorial Hospital of New Jersey, Explains Why Iron is One of the GREATEST OF ALL STRENGTH BUILDERS

Says: He has found nothing in his experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron.

Every woman who wishes to preserve health, strength and beauty, should carefully read the statement of Miss McKinley who, after her personal use of Nuxated Iron, tells of the results she obtained.

Miss McKinley says: "While I had often heard of Nuxated Iron I must admit that prior to using it myself I had no idea of its remarkable value for building up the health and strength.

"Following the strain imposed by months of the most exacting work during the soldier's life in the various army encampments, together with my social engagements and charitable pursuits, I found myself in such a weakened, run-down state that I feared a complete collapse.

"It seemed utterly impossible for me to drop everything and go away for a complete rest, but I realized that as my condition was serious I must either do this or find something that would actually rebuild my strength and enable me to continue my activities.

MAINE PEOPLE GOT CAUGHT WITH THEIR BOOZE

(Bangor Daily News.)

Some interesting stories have been related by Bangor people who have come across the Canadian border after automobile trips on foreign soil, in Maine since Monday afternoon. The first was that of a man who was in the form of whiskey. One Bangor man isn't saying much, however, about his experience. He had a bottle of whiskey along and when he reached the border he thought a fine hiding place would be in the radiator. All words were used in an incoherent manner. He lifted the hood to learn the number of the engine. Then the bottle was discovered and confiscated, with a row rampant on the part of the owner and friends in the car, who will think of another hide next time.

Children Cry For Fitcher's CASTORIA

Mother and Doctor.

Baby's not well. Looks well but cries, and now what's the matter? Pins? No. Right hand? No. Seem to enjoy its breakfast this morning? Yes. What did the meal consist of? A cup of hot milk and I guess I gave her some of the rolls and bacon I had. Don't guess. If that was her breakfast send out for a bottle of Fitcher's Castoria and after you give her a dose read carefully what a baby of her age should have for breakfast—you'll find it in the booklet around the bottle.

Too many young mothers are like this mother. Caution. That's the word that should be hung in every home. Caution, Mothers, must be burned, burned deep in your mind if our little-ones are to remain well.

At the first irregularity, at the first flush of fever give Fitcher's Castoria, then call in your physician—he will commend you. You will have done much to aid him.
