BORDEN AND HAZEN CALLED TO ASSIST.

Going to York to Stem the Tide Flowing Mr. Gibson's Way.

Fredericton, Dec. 16.—(Special)—The political campaign is now in earnest and promises to be rather lively. Liberals have secured some of the best stump speakers in the maritime provinces and will hold meetings in every parish during the next ten days. Reports from all parts of the constituency are of a most encouraging nature for the Liberal candidate, and all the indications point to his return by an increased majority.

The numerous defections from the Conservative party in this city have greatly alarmed Dr. McLeod and his campaign managers and they have appealed to leaders—R. L. Borden and J. D. Hazen—to help stem the tide which seems to be flowing Mr. Gibson's way.

The assault on Sister St. Paul. Michael Sullivan, the R. C. R. private changed with his brother-in-law, the Reverend of the Good Shepherd and assaulting Sister St. Paul, was brought before the stipendiary magistrate this morning. Sullivan is charged with assault and with a rough looking customer.

There are two charges against him—assaulting the sister and breaking with intent to commit an indictable offence. Adjournment to the Monday was taken to have the evidence of the sister who was wounded.

Sullivan said he was a native of Ireland and was 35 years of age.

Low Takes Oath of Office. New York, Dec. 16.—Seth Low took the oath of office as mayor of New York this afternoon before Justice Morgan J. O'Brien in the supreme court. He will assume office at noon Jan. 1.

14,000 Colliery Employees Idle. Shamokin, Pa., Dec. 16.—Fourteen thousand men and boys have been idling since yesterday because of the flood in this district. It will be several days before all the collieries will be able to resume.

Bridges Carried Away. For height of water and damage to property along the river rising four feet higher than ever before known. Four bridges between Fairbairn and Lincoln had been carried away. The mills along the river bank were flooded and in some cases carried away. In the basement of the American Wool Company's mill was stored a large amount of finished goods and raw material, valued at more than \$10,000. The water rushed through this basement all day to a depth of eight feet. The Portland Packing Company's plant was also flooded and its contents damaged about \$5,000. Families were obliged to flee from tenements along the river. The damage to dwellings will be heavy.

Waterville a new \$15,000 foot bridge was carried away by the flood and the old toll bridge at Winslow was washed down. From 30 dwellings in Waterville and 25 in Winslow the occupants were taken in boats.

Kennebec Water Falling. Madras, Me., Dec. 16.—The river has fallen six feet since 10 o'clock last night, and the danger is past. Mill streets are entirely swept away to a depth of four feet. The bridge across Canal is badly damaged. Three barns on Western Island with 50 tons of hay were washed away. Lowell and Main streets are badly gutted. Two houses on Mill street are undermined. Two others filled with ice and logs, logs swept out of houses and scattered all about. There is no water in the village water supply. The water is so low that the mill race is nearly dry. The water is so low that the mill race is nearly dry. The water is so low that the mill race is nearly dry.

Losses on Anrooseogin. The heaviest loss on the Anrooseogin river was sustained by the International Paper Company. The loss was about \$100,000. The loss was about \$100,000. The loss was about \$100,000.

Eastern Maine Suffers. Eastern Maine suffered severely. All the rivers and streams were full of ice and drift. The loss was about \$100,000. The loss was about \$100,000. The loss was about \$100,000.

STORM'S HAVOC THROUGHOUT MAINE FAR BEYOND FIRST ACCOUNTS.

Property Loss in Buildings, Factories, Lumber Torn from Booms, Damage Done Roads and City Streets, Washouts on Railroads, is Extensive—Details of Demolition.

Portland, Me., Dec. 16.—Every four brings reports of storm disasters that add thousands of dollars to the aggregate loss. The three principal rivers and innumerable smaller streams have overflowed their banks, sweeping thousands of acres, washing away bridges, buildings and great quantities of logs and lumber, flooding factories, mills and dwellings. Over a large portion of the Maine Central railroad trains have moved since early yesterday morning and the eastern section of the state is entirely cut off from communication by rail with the western part. It is not expected that through trains will be running between here and Bangor before Thursday.

The Bangor & Aroostook railroad and the Canadian Pacific lines in this state are in nearly as bad condition, and nearly all the smaller roads have a temporary abandonment of the attempt to operate their trains. With few exceptions, the great mills on the Androscoggin, Kennebec and Penobscot rivers were unable to start their machinery this morning, and thousands of men are temporarily without work. In farming districts the roads are impassable for teams in the cities and towns many people were driven from their homes.

At the Great Northern Paper Company's mill at Bangor the water rose to such a height that the wall of the generator room was forced in on the expensive electrical machinery. A portion of the floor and roof also was crushed. In the basement it carloads of pulp piled outside were carried away. Several bridges were destroyed. It was necessary to make repairs.

In the lower section of the town are filled with ice and debris and the walls of houses are partly filled with logs and ice.

THE GLOBE FINANCE CORPORATION AGAIN.

Creditors Hear Some Interesting If Not Welcome News at Meeting.

London, Dec. 16.—During a meeting of the creditors of the London and Globe Finance Corporation today, the official receiver, Mr. Barnes, announced that the unsecured liabilities of the concern aggregated £1,142,000 with apparently over-valued assets totaling £434,000.

At a subsequent meeting of the shareholders Mr. Barnes said there would be nothing left for them. Apparently, none of the directors, with the exception of Whitaker Wright, knew anything of the enormous transactions of the corporation. The balance sheet for 1900 was a work of art. Some of the entries made inflated the assets by £317,000 and within a few days got out as almost grossly inflated as £290,000 appeared at £764,000. Of the reserve £200,000 had absorbed that. There was nothing to show for this. Of the cash in bank £250,000 had been hired from a broker for two days, for £5,000. With the exception of Mr. Wright who had netted a profit of £20,000 in the Le Roi No. 2, none of the directors had profited in the corporation's speculation in Le Roi.

ROOSEVELT'S PROMISED SPEECH GIVEN LAST NIGHT.

ed Liberal to Re-organize—Present Ministry Wrong—Britain May Have to Fight for Trade Supremacy—His War Views.

London, Dec. 16.—Lord Rosebery's long expected and much heralded speech, delivered here tonight, was received with marked enthusiasm by an immense crowd. It can hardly be said to have been a success, but it was a triumph. The speech was a masterpiece of oratory, and it was a triumph. The speech was a masterpiece of oratory, and it was a triumph.
