NORTH SHORE SOLID FOR THE GOVERNMENT, SAYS MB. TURGEON, M.P.

Address Reviewing His Work as Gloucester Concurs With St. John in Nominating Liberals.

> The Federal Member for Gloucester Explains His Position in Local Politics, and Disposes of Absurd Reports.

> O. Turgeon, M. P. for Gloucester county (N. B.), was in the city Tuesday, and in an interview with The Telegraph, expressed his pleasure at the dewhich had been arrived at in St. John to minate Liberal candidates for the next provincial elections. This concurs with the position taken in Gloucester, where a Liberal ticket has been arranged for in support of the local government, and should be adopted in the other constitucies throughout the province. "But you are represented as being op posed to the local government?" suggest ed The Telegraph man. Mr. Turgeor smilingly replied that the papers which

> stated that were about as reliable politi cally as the papers which mourned over the loss of that "stalwart" Liberal, Mr Morrisey in Northumberland at the last election. "The truth of the matter is that the St. John Sun is either really ignoran of politics on the North Shore or pre-tends to be. Neither myself nor my friends have made any statement which ould be construed into opposition of the ocal government, whose administration of public affairs has been in the best in terests of the province. What I have said through my paper, the Courier, that it was the intention in Gloucester t

nominate Liberal candidates whom we are confident can carry Gloucester with as large a majority as that which was given for myself in the federal election Mr. Turgeon's attention was called to an item in the Montreal Star, in which the St. John correspondent of that paper

stated, among other things: "Matters commence to look serious for the government in a coalition contest. In Glouces fight against the government. He and two other Liberals are in the field to oppose the candidates chosen for the gov ernment at the last elections." In reply, Mr. Turgeon said it was quite apparen that the writer of the despatch scar knew where Gloucester county was situated. He certainly had not discovered who its federal member was, although he of the rubbish which is written by men who fancy St. John is the whole province f New Brunswick, and who discuss out side constituencies without being acthe movements affecting politics.
"Our Liberal ticket in Gloucester," con tinued Mr. Turgeon, "will certainly beat the Burns party, as we did before at my own election, and Gloucester will return three staunch Liberals in support of the government. And Restiguuche, from the advices I have, will go as solid. In fact, the whole North Shore is solid for the government. You can bank on that."

AN IMPORTANT MEETING.

Executive of Provincial Sunday School Association Has New

Another of the strong business-like neetings of the Provincial Sunday school executive was held Tuesday night in the parlor of St. David's Presbyterian school room, with T. S. Simms in the chair. The field secretary reported, describing work done during the month, chiefly in bearing on the whole of 1903.

The recommendations received careful

The educational sub-committee, which consists of E. R. Machum, Alex. Watson, T. S. Simms, A. H. Chipman, Rev. A. H. Foster, Rev. G. M. Campbell, and the field secretary, had done some earnes work during two months, and presented a strong report on broad considerations. They recommended the general committee to have a summer school for Sunday school workers for eight or 10 days at some point to be decided, this to be pre ceded by Sunday school institutes of per haps two days' duration at a few points perhaps Campbellton, Moncton and Wood-stock. To these meetings notable Sunday educators would be brought, and well selected local workers used. Careful consideration of points bearing on this advance step brought out the fact that the association lays it under an obligation to make this move. The association has been progressive and must still be so. The committee dealt with this report, section by section, finally adopting it as a whole,
