Dr. Ward's DEAD SHOT WORM CANDY.

(CERTIFICATE.) Albany Medical College, December 15, 1862. \\
I do hereby certify that I have analyzed Dr. Ward's Dead Shot Worm Candy, and to the public I would say that they contain nothing that is in the least injurious to the youngest infant. They are entirely vegetable, and possess those truly anthelmintic qualities which above all others are preferable as externinators of the common or Tape Worm.
J. V. P. QUACKENBUSH,

Prof. of Obstetrics and diseases of Women and Children. This Medicine has been prepared by the proprietors for a number of years; has been used with the most decided success in numerous families of the first respectability, and has received the approval and recommendation of several eminent medical gentlemen. The most alarming symptoms of the disease arising from the prevalence of worms in the intestines have been speedily and entirely removed by the use of the VEGETABLE WORM CANDY.

Dreadful indeed are the effects of these pernicious vermin on the constitution, des troying the appetite, vitiating the nourishing principles, and their certain consequences are paleness, emaciation, a stoppage of the growth, etc., and often followed by consumption and decline. Even where werms are not discharged, this medicine acts as a gentle and safe domestic physic—clearing the passages of whatever is noxious, introducing a healthy chyle into the constitution.

In the above line, in Mr. Scott's Buildings, sear the Railway Station, Almonte, Where he guarantees to suit any Gentleman with a Garment, which, for Style and Durability cannot be surpassed in Canada.
