The Board of Directors present this the thirty-sixth annual report of the affairs of the Hospital for the year ending 30th September, 1886.

The total amount expended during the year for supplies, viz.:—meat, bread, vegetables, milk, groceries, drugs, fuel, etc., was \$9,184.07.

The number of patients admitted during the year was 350, and the number of outdoor patients who received medical treatment was 199. The number of days spent in the Hospital by patients was 18,589. The total cost of maintenance for each patient was 48½ cents per day.

The actual average cost per day for sustentation and medical supplies was 21 ⅓ cents for each patient.

It is satisfactory to feel that while the increasing accommodation and efficiency of the institution necessitate an increasing expenditure, the receipts from all sources, as well from the liberal charity of a generous public as from the Ontario Government and the Municipalities of the City of Ottawa and the surrounding Counties, show a corresponding increase, and while in addition to the ordinary outlay for maintenance a large amount has been paid for improvements and repairs, the year closes with a fair balance on hand.
