Happy Farmer Tractor handling 3 bottom 14 inch plows back-setting Timothy Sod

Thirty-One Cents an Acre!

At Brandon the Happy Farmer demonstrated its ability to plow an acre in 45 minutes at a cost of only 31 cents worth of coal oil! Compare this with the cost of plowing an acre with your best team, with feed at high prices, and men's extra time to be counted in. Will it not pay you to use the

Happy Farmer Tractor

Model A—8-16 Horsepower.

Model B—12-24 Horsepower.

Here is the ultimate tractor for efficiency and economy combined! It is famous for its simplicity—few parts to get out of order. Any intelligent farm lad can run it. It is heavy enough for the hardest plowing test and for heavy hauling—light enough to use with the drill. And it will go anywhere; it will plow right up to the fence with no unfinished corners. It will turn in its own space and not mire in soft spots.

Model B's engine is not just "adapted" to coal oil. It is designed specially for kerosene. It

burns it perfectly—all of it—with no smoke nuisance and no carbon trouble. Model B will not only pull the plow and the binder, getting your work done early in critical times, but it will deliver 24 horsepower for all kinds of belt work at low up-keep cost.

If you prefer a lower power tractor, Model A supplies the need.
