

SKIN DISEASES

These troublesome afflictions are caused wholly by bad blood and an unhealthy state of the system, and can be easily cured by the wonderful blood cleansing properties of

Burdock Blood Bitters

Many remarkable cures have been made by this remedy, and not only have the unsightly skin diseases been removed, and a bright clear complexion been produced, but the entire system has been renovated and invigorated at the same time.

SALT RHEUM CURED.

Mrs. John O'Connor, Burlington, N.S., writes:—"For years I suffered with Salt Rheum. I tried a dozen different medicines, but most of them only made it worse. I was advised to try Burdock Blood Bitters. I got a bottle and before I had taken half a dozen doses I could see a change so I continued its use and now I am completely cured. I cannot say too much for your wonderful medicine."

Fits Cured

For proof that Fits can be cured write to

Mr. Wm. Stinson,
134 Tyndall Ave., Toronto

for pamphlet giving full particulars of simple home treatment. 20 years success—over 1000 testimonials in one year.

Sole Proprietors—Trench's Remedies Ltd. Dublin

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months residence upon, and cultivation of, the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts, a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties.—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,
Deputy of the Minister of the Interior.

Ans.—Creosote is a crude product distilled from coal tar at very low temperatures. While it preserves the wood, its effect is not lasting, and it is necessary to force the oil into the lumber under pressure to make it of high value. A preparation made by special process, known as Avenarius Carbolineum is very highly spoken of for preserving wood.

COLT SCOURS

Three-year-old gelding scours rather badly. He has been this way since last summer, even when in pasture, but whilst in barn during the winter was much worse. Is fed crushed oats containing a little wheat, also boiled feed. A short time ago he was given linseed oil and laudanum, which helped him for a time, but he is now as bad as ever. He seems best when fed on the boiled grain.

Sask.

W. R. C.

Ans.—The probable cause of the scouring is some dietetic error, which has produced indigestion. In the first place have the colt's teeth examined. There may be some "caps" (temporary molars) which need removing, or they may need other attention. The next step is to remove from the alimentary canal any fermenting material that may be there. This is best accomplished with a dose of raw linseed oil. About a pint would be the amount to give. To the oil add two ounces of turpentine. This will prevent and remove the fermentation. After the oil has ceased to operate, give two-dram doses of hyposulphite of soda in two quarts of drinking water, morning and evening. Give more water when he has drunk the medicine. Feed sparingly on crushed oats and good hay. Allow as much hay as the colt can consume in one hour, three times a day, and water always before feeding. Persevere with this treatment for two or three months, and you may expect to succeed with a cure.

GOSSIP

With apologies to Mr. Bryce, of "Doune Lodge," Arcola, we wish to correct the statement made in our May 5th issue that Eva's Gem was champion Clydesdale mare at Winnipeg Exhibition last year. On looking up the awards we see that Eva's Gem was not shown in her class nor for championship, but only in the class for groups from one province and the get of one sire. The grand championship for females was won by Lady Rotha, Mr. Bryce's first-prize yield mare. "Doune Lodge" also carried off stallion championship with Baron of Arcola.

AN OFFERING OF CHOICE PERCHERONS

Readers will notice the advertisement appearing in these columns of Lakewood Farm, Rock Rapids, Iowa, the proprietor of which, is Mr. H. G. McMillan, is offering Percherons to the Canadian horse-buying public. Lakewood Farm, Iowa, has the reputation of being the largest breeding establishment in the world. Mr. McMillan, besides being a breeder and importer of Percherons, is extensively engaged in the breeding of Shorthorn and Jersey cattle and Poland-China pigs. His Percherons are rated by State Fair and International judges as among the first in the United States. The stock is thoroughly acclimated and has been bred and reared for the express purpose of meeting the requirements of the farming public of the United States and Canada. To this end the stock has been specially selected for strength in those points where strength in drafters is most desired, and reared in such a manner that the future usefulness of the stallions as sires would not be impaired. There is a good deal in feeding and managing stallions during colthood, much of their usefulness for breeding depends on how they have

been managed during this period.

With a view to extending trade in the Northwest, Mr. McMillan has arranged with Mr. Brice H. Bunney, Gleichen, Alberta, to represent Lakewood Farm in this country, and any information on these horses may be obtained by writing him, or to Mr. J. B. McMillan, manager of the farm, Rock Rapids, Iowa.

SHORTHORNS IN GOOD DEMAND

Mr. J. Bousfield MacGregor, Man., in sending in a change of advertisement advises us that the demand for registered Shorthorns of both sexes continues to improve. Mr. Bousfield has been advertising young bulls for some little time, and of the lot offered has now only two left, having sold twelve during the past few weeks. Customers express themselves satisfied with the stock sold them and good inquiry exists for more of the same kind. The stock Mr. Bousfield is now offering consists for the most part of registered cows from two years up, which he is advertising at prices running from fifty to seventy-five dollars each. The offering is an opportunity for those looking for the general-purpose, milking type of Shorthorn.

CHINA TEA SET

Kindly take note: To everyone who sends us FOUR new subscribers to "The Farmer's Advocate" at \$1.50 per year each, we will send one 40-piece Karlsbad China Tea Set, in handsomely dainty design, as a premium. Send us your order NOW.

Dispersion sale of "Forest Home" Shorthorns and Clydesdales, June 2nd.

In connection with the Clydesdales offered for sale by Messrs. Burnett & McKirdy, of Napinka, and by Mr. McKirdy personally, it will be interesting to horsemen to learn fuller of their individual merit. In the lot are a four-year-old, 2 two-year-olds, a yearling colt, and a yearling filly. The first, Prince Edward (imp.), is a rich-colored brown, sired by the notable Clydesdale, Royal Edward, by Baron's Pride, for some years stud horse at one of the most famous breeding establishments in Scotland, owned by J. Ernest Kerr, Harvieston Castle, Dollar. This is a good, strong, hardy, young horse, with plenty of bone, is a very sure breeder and, with his superior breeding, should prove a splendid sire of good, sound, hardy drafters. This colt is for sale at a price that cannot fail to make a money-making investment, and is in fine shape to start on a good season.

Evergrand.—This grand young Clydesdale has done well since shown at Brandon, is growing, and shirking out, and will, when fully matured, be one of Canada's best. He is sired by the unbeaten prize-winner and great breeding Baron's Pride horse, Everlasting, and is developing into a very fine specimen of the Baron's Pride type of Clydesdale.

Mr. McKirdy's own string are: King's Own, a fine colored bay with very little white, out of Lady McArthur 6th, and sired by Show King; foaled May 17th, 1907. This fine colt is a beautiful specimen of a Clydesdale, having weight and splendid conformation, great heart-girth, and heavy, flat, clean bones, with fine quality of hair, a strong, well-muscled leg and grand fore feet. King's Own is an easy keeper, with a fine, quiet, docile disposition, with good action, and an extra good walker; with his first-class breeding, being from big, drafty, sound, robust stock, should make him a grandsire of good-selling drafters, and can be purchased at a very reasonable figure.

Show Prince is a brown, with a little white, out of the imported mare, Mary of Inchwood, and sired by Show King; foaled May 3rd, 1908. He is a very promising colt of excep-

LONG RANGE CHAMPION

London Morning Post, July 16th, 1908

The London England papers loudly praise the performances of the Ross Rifle at B'sley last year when all long range records were beaten by Mr. F. W. Jones with a Ross Match Rifle. In five matches totalling 27 shots at 900 yards and 17 shots at 1000 yards Mr. Jones never missed the bull.

This performance was well seconded by the work of the Ross Rifles at the D.R.A. last fall when 13 out of 15 Mark III Ross Rifles competing in the first stage of the "Governor Generals" secured places in the second stage.

Rifle shots who want to set the pace in 1909 cannot afford to use any rifle but

ROSS RIFLE, MARK III

Ross Sporting Rifles \$25.00 and upwards are on sheer merit winning out against all imported sporting arms.

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be limited. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

ALMOST RESIGNED

"I came mighty near resigning my job this morning," said Ardup, ordering coffee and sinkers. "I'd made up my mind that the boss and I couldn't get along any more."

"Well, why didn't you resign?" asked the man sitting on the next stool.

"He beat me to it just one second."—Chicago Tribune.

GOT TO THE ROOT OF HIS TROUBLE

AND DODD'S KIDNEY PILLS CURED W. WRIGHT'S BACKACHE.

He had suffered for several years but the old reliable Kidney Remedy gave him quick relief.

Kelvington, Sask., May 24.—(Special).—"Yes, Dodd's Kidney Pills cured me of Backache, and I have recommended them to others who have also been cured." These are the words of William Wright, a farmer well known here. "I believe I inherited my trouble," Mr. Wright continues. "At times for several years it was very severe. I also suffered from Lumbago, and in the morning I had a bitter taste in my mouth and was troubled with dizziness, and my skin was dry and harsh and there was a sediment in my urine."

"No treatment I could find gave me any permanent relief till finally believing that my kidneys were the root of my trouble, I determined to try Dodd's Kidney Pills. Four boxes cured me."

Mr. Wright went at his trouble sensibly. He examined his symptoms, and they showed him that Kidney Disease was his trouble. Do as much for yourself, and if your symptoms point to disordered or diseased kidneys the cure is easy. Dodd's Kidney Pills will do it. They never fail.
