Every day our newspapers contain accounts of serious losses of property by fire and lightning. What estimate does the public place on the owner who had no insurance? "Foolish man not to be insured." Are you in that class?

When we suffer loss by fire we may have the sympathy of our friends, but cannot look to them to make good our loss. We must be wise and provide the more substantial comfort afforded at such a time by an Insurance Policy.

Our premium rates are as low as is consistent with fair and liberal treatment of our patrons. The real value of insurance is determined when loss occurs. Our Policies are free from ambiguous or obscure conditions.

Special attention given to FARM FIRE INSURANCE

The sense of security that results from being at all times fully insured against loss of property by fire or lightning is worth many times the cost of the protection. It enables a man to put his best energies into his everyday business or avocation.

Prompt settlement of loss claims coupled with fair all around treatment has given us a standing with the people of Western Canada that it will be our constant aim to maintain. We can refer to a long list of staunch friends that our business methods have made for us.

The location of our Head Offices places us in close touch with the people of the three Western Provinces, to which our business is confined. We have no risks in eastern or southern cities where serious losses so frequently occur from fires.
