A Dangerous Shot. The Warton Canadian in its report of the Markdale game in the North-West League, which Warton won by 2 to 1, prints the following:—In the dying moments of the game, the Markdale players fed Pletsch, their heavy defence player, many passes and he dashed out some wicked shots, which had the right label, but were properly cared for by Nimmo.

Mildmay 10, Formosa 8. The Formosa hockey club came down for a game on Friday evening, and a bunch of juniors and intermediates were put up against them. It was a fairly good exhibition, with Mildmay always in the lead, which the visitors strove tenaciously to overcome. Formosa has a fairly fast bunch of players, and the locals had to put in their best digs to keep in the lead. Dick Hotten refereed the game.

Dr. Fortune of Walkerton, who attended the cattle, inoculated the whole herd, and arrested the course of the disease. He is of the opinion that the trouble was contracted through drinking the river water. Mr. Pletsch's loss will be very heavy, as eleven out of the twelve cattle which succumbed were pure-bred Shorthorns.

Good Export Cattle. Messrs. John and William Vollick shipped a carload of twenty-two fine cattle on Tuesday. The lot averaged over 1400 lbs., and were a credit to the owners. Their many friends wish them a happy and prosperous wedded life.

Played Poker on Sunday. A bunch of drovers from this part of the province had to lay over at Toronto last Sunday to wait for the market on Monday, and as the time hung heavily they arranged to have a game of poker at the exchange. The police got wind of the doings of the cattlemen, however, and raided the premises, arresting a number of the players and onlookers. The Mildmay drovers are not interested in the chips, so they were fortunately absent when the raiding took place. Some of the names of those arrested, however, are familiar here.

FALSE REPORTS

Reports have reached us that if the water by-law carries and Herrgott Bros. will receive the money, that Hy. Herrgott will move out of town. In order to justify my position, I wish to state that such reports are absolutely false. We are here to stay, whether the by-law carries or not. If the by-law carries and we receive the money it will be used to expand our business and if it does not carry we are perfectly satisfied to accept the revenue of \$700 or more. We are public spirited enough to know that a commodity such as water should be owned by the municipality. Your Council has offered you the water at \$6 per year as soon as the by-law is carried and no doubt the rate will be still further reduced as circumstances permit.

We are just as much interested in the public welfare of our village as any ratepayer, and it is up to you to decide for yourself, you are welcome to vote either "Yes" or "No" as you please. I just make these few statements in answer to rumors which have been brought to our attention and to answer the "knockers" which are always busy when a beneficial question such as this is brought before the ratepayers.

Yours truly,
Henry Herrgott
