LISTOWEL STANDARD FRIDAY, APRIL 22, 1881.

DEATH OF EARL BEACONSFIELD. the regretful intelligence that Earl Bea-consfield was dead. The tidings of hi-death were not unexpected, as his low condition for some time past had been know to all newspaper readers. He died fu of years and honor, and his name will g of years and honor, and his neme will go down to posterity as one of Great Brit in's greatest statesmen. To him alone belongs the honor of having ascended from a lowly member of a despised nation to Prime Minister of Britain. Benjamin Disraeli was born on the 24th December, 1804. He was a decendant of an Israelitish family who came to England about the middle of the last century. His father, Isaac Disraeli, was a man of letterand to him no doubt his son was largely and to him no doubt his son was large

nounced literary tastes. Scarcely had the younger Disraeli attained his ma jority when his predilection for literature was manifested by the publication of "Vivian Grey" From the time that this his first novel appeared up t within a few months ago, when "Endymion" set the literary world agog, his peiwas not idle. But whatever of success the dead Earl gained through his Literary productions, has been overshadowed by his brilliant career as a statesman. Likemany others who have left a bright record on the pages of his ory, Disraeli's first experiences as a politican were by no means encouraging. It was not until after he had been four times defeated that he at last succeeded in gaining a seat in Parliament. The concluding words of first his speech in the House of Commons illustrate the stamp of the man of subsequent great achievements. Failing to obtain a hearing, owing to Daniel O'Connell's personal following uniting to jut down Disraeli by noise, he gave up the vain attempt. In doing so he said: "I have begun several things many times, and I have often succeeded at last. I will sit down now but the time will come when you will hear me." The time did come. The resolute young parliamentarian developed into the statesman. In 1846, after the repeal of the Corn Laws, a measure which Disraeli vigorously opposed, and which caused his complete severance from his former leader, Sir Robert Peel, he became leader of the consolidated Tory party. When Lord Derby was called upon to form a Government, in 1852, Disraeli took office in the new ministry as Chancellor of the Exchequer. During the period which followed, up to the retirement of Earl Derby in 1865, in consequence of failing health, Disraeli occupied a prominent place in the house, as finance minister under Lord Derby, and in the opposition ranks during Lord Palmerston's administrations. Upon the retirement of Earl Derby in 1865, in consequence of failing health, Disraeli was again called upon to form a Government. The Premier immediately tendered his resignation, not waiting for the assembling of Parliament, Mr. t-Indastone then assumed the reigns of office, which he held until 1874 was manifested by the publication "Vivian Grey" From the tim

THE DEAD EARL How the News of Benconsfield's Den was Received in Europe.

Beaconsfield.

The Scandard says:—"By the death of Earl Beaconsfield the country is deprived of the brilliant powers and faithful services of one whose name will be recorded among the most illustrious of England's statesmen."

The Court Circular publishes the following:—"The Queen has received with feelings of the deepest sorrow the news of the death of Earl Beaconsfield, in whom Her Majesty loses a most valued and devoted friend and counsellor and the nation one of its most distingment of the manual country of the Majesty loses a most valued and devoted friend and counsellor and the nation one of its most distingment of the Majesty loses a most valued and devoted friend and the nation one of its most distingment of the majesty of the most distingment of the majesty and resource as Earl Beaconsfield.

All the Berlin newspapers expressioned at the death of Earl Beaconsfield.

Prince Bismarck was greatly moved on receiving the news.

WINTER IN NEBRASKA.

WINTER IN NEBRASKA.

7ts Eucqualled Severities — The Hard Times on the Cattle Range.

The winter now drawing to a close has been a most remarkable one, fully deserving, so far as the North West is concerned, a place among L.e few cold winters of modern times. All people, all industries, and all interests have suffered—not perhaps equally—but all seriously, and some grievously indeed. The winter really began in October with a severe storm of snow and wind at a severe storm of snow and wind at law level, the winter really began in October with a severe storm of snow and wind at law severe not far from zero. This was as serious in its effects upon animal exposed to its fury as a severe attack of epizotic would have been, destroying its bocommence next week. They appear to have the road through to Warton by the first of November, next in time for winter. This was followed by cold that became extreme in November, and which has continued ever since, accompanied mature had prepared for the drain of winter. This was followed by cold that became extreme in November, and which has continued ever since, accompanied may be accompanied to the murimished. Barns are few and none of them was menough or large mough to shelter the farm animals securely. Fuel was not, and could not agve been, haid in, and, in at too many asee, food too was wanting. The results apposable to venture out into the enjment to procure them. In southern limits of the procure them, in southern in his possible in many asses, food too was wanting. The results and the subjects of the North Riding of Perth Agricultural Society was the day.

STRATFORD.

The annual spring show of entire stock held here on Saturday was largely attended. The whole of the was not and none of them was more stormed to the procure them. In southern was felling to the procure them. In southern was felling to the procure them. In southern limits, the procure of the procure them. In southern limits and the attendances of the North Riding of Perth Agricultural Society was data Stratford

stock. There were thirty two entries of live stock, and many prizes were awarded in each class. There was also a very large display of agricultural implements.

Soft where fuel could be had.

The large cattle herds are in an alarmore of the meridian of Sydney, from 40 to 60 to the meridian of Sydney, from 40 to 60 to the meridian of Sydney, from 40 to 60 to the losses incurred by death, while the survivors will be practically worthless for market. All over this desolate and treeless region not a spear of grass is to be seen, and the opening of spring is yet ally a month away — Correspondence viringfield Republican.
