Correspondence is requested, but we reserve right to reject any where writer will not assume the responsibility over his own name. No correspondence of any kind inserted without the name of sender being given (not for publication.)
Address: H. G. HARRIS, or The Advertiser, Kentville.

THE ONLY WAY TO
CURE RHEUMATISM
Must Be Treated Through the
Blood and the Poisonous
Acid Driven Out

The twinges and tortures of rheumatism are not due to cold, damp weather as so many people suppose. Rheumatism comes from poisonous acid in the blood. This is a medical truth that every rheumatic sufferer should realize. There is only one way to cure rheumatism — it must be treated through the blood. All the liniments and treatment in the world will not cure rheumatism, and the sufferer who tries them is not only wasting money, but is allowing the trouble to become more firmly rooted in the system and harder to cure when the proper remedy is tried. Dr. Williams' Pink Pills have had remarkable success in curing rheumatism because they go right to the root of the trouble in the blood, driving out the poisonous acid, releasing the stiffened joints, clearing away the torturing pains, and giving the victim renewed health and ease. Mr. Vincent Brow, Havre Boucher, N.S., says: "For two years I was an almost constant sufferer from rheumatism, the trouble being so bad at times that I could scarcely get around. The trouble seemed to bring with it anaemia, and altogether I was in a very bad condition. I used doctor's medicine for almost a year without relief. Then on the advice of a friend I decided to try Dr. Williams' Pink Pills. I think I took altogether about a dozen boxes, with the result that I am again enjoying perfect health."
You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Wanted—At once a book-keeper. Apply Boylan & Gaul, Kentville.

GUARD THE CHILDREN
FROM AUTUMN COLDS

The fall is the most severe season of the year for colds — one day is warm the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers best friend in preventing or banishing colds. They act as a gentle laxative keeping the bowels and stomach free and sweet. An occasional dose will prevent colds or if it does come on suddenly the prompt use of the Tablets will quickly cure it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Mrs. W. H. Conrod of Middleton, Annapolis Co., spent a few days in Dartmouth this week, visiting Mrs. W. H. Greene, Dahlia Street, Mrs. Conrod is executrix of the estate of the late Mr. Conrod of Waverly and has been in Halifax closing up matters in connection with that estate. She will return to Middleton today. Morning Chronicle.

CANADIAN SYSTEM NOW
BETTER THAN BRITISH

Some of the readers have asked whether we were justified in our suggestions that there was more graft, more family and political influence and interference in England than in Canada. The other day a British judge sentenced Lucien Asselting (an inspector in the army clothing department, to five years penal servitude for accepting bribes and obtaining £1,400 under false pretences by instigating another man to make a tender for a supply of razors and knives, less than half of which were delivered.

Charges are pending against other official departments and the Judge who sentenced Asselting suggested that the Government should overhaul the whole system of purchasing departments and place business men at their heads.
In Canada, we believe, as the result of the constant agitation kept up by the Financial Post, Sir Robert Borden long ago overhauled our purchasing departments and put business men in charge. They are not by any means perfect, but our system is much better than the British. Our Government is weak in prosecuting those guilty of

fraud! It is weak in inspection. It is weak in accepting goods that are not up to standard or for which they are wanted. Fully adapted to the purposes. Hundreds of thousands of dollars of Canadian-made supplies have been scrapped in England and France. This is not the fault of our manufacturers, but of our Government departments in not giving manufacturers proper specifications. —Financial Post of Canada.

SIX STEAMERS TORPEDED
BY SUBMARINE OFF THE
AMERICAN COAST

Boston, Oct. 8.—The submarine arm of the German navy ravaged shipping off the eastern coast of the United States today. Four British, one Dutch and one Norwegian steamer were sent to the bottom or left crippled off Nantucket Shoals. Tonight, under light of the hunter's moon, the destroyer flotilla of the United States Atlantic fleet was picking up passengers and crews of the destroyed vessels and bringing them into Newport, R. I. So far as known there was no loss of life, though at a late hour the crew of the British steamer Kingston had not been accounted for.

THE CHIEF CHARM
OF LOVELY WOMAN

Soft, Clear, Smooth Skin Comes With
The Use Of "FRUIT-A-TIVES"

NORAH WATSON
86 Drayton Ave., Toronto.
Nov. 10th, 1915.
A beautiful complexion is a handsome woman's chief charm. And the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.
"I was troubled for a considerable time with a very unpleasant, disgusting rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-a-tives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-a-tives'.
NORAH WATSON.
50c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

FOREST GAME IN MARITIME PROVINCE

In the summer season the Province of New Brunswick is a happy land, where the sunny hours speed away on the feet of delightful dreams. In the fall she is lovely in her rich dress of brown; and in the winter, when she is arrayed in her robe of virgin whiteness, she is fair and charming; and if she is then cold, her admirers do not feel that her chillness is a chillness of heart.
This favorite Canadian haunt is preeminently a land of the holiday-maker and sportsman. St. Andrews, where is situated the popular Canadian Pacific Algonquin Hotel, and many other seaside places are loved haunts of the bather and outdoor game player during the holiday season of June, July, August and September. No sooner have the summer holiday folks and fishermen left the province than the hunters of the big game take their places, for at the opening of the big game season the large numbers of hunters of both sexes appear with their guns amidst the thick forests of the land. New Brunswick is one of the most popular of the Canadian provinces for big game hunting. Moose, caribou and deer are plentiful in this region.
A magnificent specimen of big game is the moose. When fully grown he weighs over 1,000 lbs. His massive antlers are long and generally average six feet in width. He may be found in twelve of the fifteen counties of the province. It is only the hunting folks and the wary guides who know how to hunt the moose. There is the "calling" done early in the season, and the "still hunting" done later on—in the cold weather. In September and October the moose is often surprised and shot wading in the lakes and rivers, feasting on the roots of water plants. While pursuing the moose, the hunter can distinguish between the tracks of the male and the female, for the male leaves round tracks and those of the female are somewhat pointed. Fredericton, Havelock, New-castle, Bathurst, Campbellton and Perth are good starting points.
A graceful antlered monarch of New Brunswick is the caribou. He weighs about 600 lbs. on an average. It is a delightful sight to watch him stride at a walking rate, or trot, or gallop over the country. A full grown caribou stands from four and a half to five feet in height. Of this animal there are two varieties, the woodland and the barren ground species. The woodland is somewhat taller than the other and its color is darker about the body, but the horns are lighter. It is generally found in herds of about half a dozen. The barren ground caribou travels in large herds, and its coat is light. This kind is noted for its migratory habits. In New Brunswick the places where the hunters are likely to achieve the best results are North West Miramichi, Restigouche, Upsal-quish, Nepisiguit, and Tobique Rivers. The starting points for these areas are—Newcastle, Campbellton, Bathurst, Chatham and Perth, all of which are reached by the Edmunds-ton Branch of the Canadian Pacific.
There are few localities in New Brunswick where a deer may not be located. Like the moose and the caribou he gives those who follow him an interesting and pleasant

sport.
Sportsmen desirous of hunting the big game of New Brunswick may secure good accommodation at the homes of their guides. Good hotels and boarding houses are also available.
The season for the hunting of the moose, caribou, and deer opens on September 15th and continues to November 30th. Shooting on Sunday is prohibited by law. Non-resident hunters must be accompanied by a licensed guide. The license to kill one bull moose, one bull caribou, and two deer costs a bona fide resident of the province \$3 and a non-resident \$50. Hunting with hounds is forbidden.
This year the opening of the big game season was marked by the exhibition for sale on the St. John market of moose and deer meat. In recent times there has been a considerable reduction in the number of moose amongst the larger New Brunswick game, and the people are becoming alive to the necessity of being more careful. Indiscriminate shooting is being checked to some extent at all events, and it has been suggested that the sale of the meat of big game on the markets should be stopped to discourage the hunter who hunts for the purpose of making money.

PROVINCIAL GOVERNMENT
APPOINTMENTS

The following Provincial Government appointments have been gazetted.
To be a Justice of the Peace, for County of Pictou—Simon A. Fraser, of West River Station.
