#### GRAND RECITAL

Concert Pianist and Vocalist Entertain a Select and Appreciative Audience at Ursuline Academy.

Last evening at about half-past seven o'clock, the Grand Hall at the Ursuline Academy was thrown open to the musical people of the city. A thrill of expectation such as one experiences on taking up for the first time a new and wonderful creation of the literary world, was felt to vibrate through the hall as Mr. J. D. A. Tripp, made his initial appearance before a Chatham audience. The first motif of the Back-Tausig number proved the master hand and true interpreter. A vibrating tone of sympathy between audience and artist, and the appreciative listeners gave rapt attention to one of the finest performances ever heard in the

Maple City. excellence of this Canada of ours, is its honor and pride, its joy and its crown, and Canadians glory in the well-won renown that their hero of delightful harmonies has achieved in Europe and the United States. He not only entertains and delights his audience, his is a higher mission-that of the true artist. He educates, refines and enobles. Every number is

selected with some definite aim, and, let we say right here, there are few artists who arrange a program with uch effectiveness Mr. Tripp was the first to play the Bach-Tausig Toccata and Fugue be-tore a Chatham audience. It was a revelation! The coloring most glori ous! Technique simply stupendous The phrasing and rythm perfect! Each number was most enthusiastically encored. To say which one was best received, would be well-nigh im-possible. The Paganini—Tiszt La

Campanella, was a masterful interpretation. The audience was positively spell-bound. After his second number a dainty little maiden presented Mr. Tripp with a gorgeous shower bouquet of American Beauties, and was awarded gracious smile of pleasurable satis-Several times during the program like evidences of the deep and enthusiastic appreciation of his

rapt and eager auditors were evinc-Mrs. John Cooper, of our own city, gave some very beautiful vocal numbers, and received frequent and rapturous applause. Hers is a rare voice pleasing quality and under control. She is the favorite perfect control, of our Maple of our Maple City song birds, and though she must be thoroughly conscious of it all, her charming simplicity suffers nothing from the many enthusiastic demonstrations she re-

To the Ursuline Academy, to Ma Tripp and to Mrs. Cooper, the audience of last evening is indebted for the most delightful treat of the season. The programs were daintily gotten up, and bore sweetly appropriate quoeither cover. PROGRAM.

After the game in which the Briscoes defeated the Brooklyns last evening by a score of 7-6, the features being the pitching and batting of Dennis. J. A. McGarry took the Briscoes to Wignell's ice cream paror and treated them.

SEVEN PRINCIPAL ROUTES.

It is a well known fact that the C., M. & St. P. Ry. system offers a great many different routes between icago and St. Paul and Minuea-Its main line between those especially well known as points is the route over which runs the famous 'Pioneer Limited" and the Government Fast Mail Train.

There are six or seven other routes over a number of which are run through coaches and sleeping cars, which are almost as direct as the principal main line. These various routes traverse the

most interesting and attractive sec-tions of Illinois, Wisconsin, Iowa and Minnesota, including the celebrated 'Lake Region" of Wisconsin, and cross the Wisconsin river at the famous "Dells," where is the most pictursque scenery in the Northwest.
The main line and several others include from 150 to 300 miles of romantic and picturesque scenery along the Mississippi river. On these various lines are located the most

mportant towns and cities in the Northwest. Both one way and special excursion tickets between Chicago, St. Paul and Minneapolis are honored via any one

of these direct lines.

The teachers attending the National Educational Convention at Minnea-polis will appreciate and take advantage of this fact as they can have a choice of routes going and returning.

Electric Shocks. It is generally supposed that electric shocks at 500 volts will invariably

prove fatal, but that such is not the case was proved the other day by a member of the Institution of Electrical Engineers, who stated that even with wetted boots he had stood on the rails of the City and South London railway, sat on the live conductor and slapped the running rails with bare hands. He further said that, provided the day were dry and the skin not moist, it was quite safe for the average person to handle live wires. One man fell on a cable carrying a current of 5,000 volts and escaped with only a few burns. Another man was rendere unconscious by a two thousand volt current, but was soon restored unhurt. A one hundred volt current has been known to cause death, but such a case is quite a rare occurrence.
