THURSDAY, SEPTEMBER 26, 1907.

TECUMSEH PARK WALK.

The suggestion from a resident of the Creek, published in last week's Planet, is one which is the subject of the serious consideration of the City Council.

It seems to be the unanimous opinion of every ratepayer who has an interest in the city, that the present walk is a disgrace to the city, and that it should be removed. The suggestion is a very timely one, and one which should be heartily encouraged. The present walk is a disgrace to the city, and it is a disgrace to the city that it should be so long in being removed. The suggestion is a very timely one, and one which should be heartily encouraged.

that your Park is defaced by that unsightly walk." The Regiment's latest proposal gives the city an excellent opportunity to get out of the difficulty. As was stated in last evening's Planet, they ask that a walk be placed on the south end of the Park, along the line of trees from the Sixth street bridge to the Armories, and entering on William street at some point near the Tecumseh Roller Rink. For the accommodation of the pedestrians who might be put to some little inconvenience through the removal of the present walk, the idea could be extended along the line of trees from the Armories to the point where the one now joins on to Murray street. The present walk could then be torn up, and the ground levelled and sodded, and all cause for complaint or criticism would be effectively removed.

The whole change would mean possibly a matter of two or three minutes loss to pedestrians who wish to cross the Park by this route, but what is this compared with the advantages to be gained? The encouraging part of the proposal is that it originates with the people who use the present walk and who will be affected—though even slightly—by its successful outcome. It is coming near the end of the life of the present Council. The most of the citizens agree that its record is commendable. If Mayor Stone and his wide-awake colleagues desire to add another to the long list of municipal improvements accomplished this year, they will lose no time in acting in this matter, and in laying before the electors further evidence of their worthiness of hearty support.

CATARRH IS CURABLE

Successful Experiments in Abating and Curing This Disease.

Catarrah is an entirely unnecessary disease and should not be tolerated for a single day now that Hyomei is so generally known and has made so many cures in Chatham and other towns.

Until comparatively recent times catarrah was thought to be a blood disease and stomach dosing the only treatment. Modern science finally disproved this idea of the cause of catarrah, and found that it was a germ disease and, after many experiments, the remedy was decided to be Hyomei.

Hyomei mediates the air you breathe; it kills the catarrah germs; it heals the smarting and raw membranes of the passages in the nose and throat; it cures all catarrah troubles.

As there is life and health in the air in the mountain-tops where the pine forests give off their fragrant and healing balsams, so there is life and health in breathing Hyomei. There is no need of suffering from catarrah if the simple and natural treatment of Hyomei is used.

So sure is this prescription to cure even the worst cases of catarrah, that C. H. Gunn & Co. sell it under an absolute guarantee to refund the money if it does not do all that is claimed for it.

JUST WHY "PROTECTION BRAND"

ASPHALT READY ROOFING

IS SUPERIOR TO OTHER KINDS

1. There are no nails exposed to mar the appearance of roof.
2. It does not need to be renewed with paint from time to time. Its first cost is also its last.
3. It is a warm roof in winter and cool in summer and is therefore well adapted for stock buildings.
4. It is absolutely water, fire and wind proof.
5. It is guaranteed for ten years.
6. It contains no tar to melt and run in the summer, and freeze and crack in the winter.

THE HORSE IN KENT

Minister of Agriculture Makes Report on Horse Breeding

How This County Stands in Matters of Raising Thoroughbreds

Hon. Nelson Monteith has had printed and published a report on the horse industry of Ontario, 1906, prepared by the officers of the Department of Agriculture, and embodying views and statistics formulated by inspectors whose labors were undertaken in eight districts, covering the entire front and peninsula of the province, say from Cornwall to Sarnia. The report covers 133 pages of statistics, gathered in 42 counties.

Some sections of Kent, says the report, seem to favor heavy horse breeding more than others, but the main type is the lighter breeds. The city of Chatham is a great light horse centre, and of the sires owned by horsemen in this city, ten in number, four are Roadsters, one a Hackney, two Percherons, two Clydes and a Shire. The Roadsters are mostly a good class and also the Hackney, while the two heavy breeds are fairly well represented. Two of the stallions are fifteen years old, and stand fees vary from \$10 to \$15, while for three Roadsters \$20 is the fee stated.

With the exception of one Clydesdale all the stallions in the township of Zone are Roadsters, two of these and the Clydesdale scoring well as regards confirmation and action. All are sound but one. Fees range from \$10 to \$20. Roadsters topping the list are elsewhere. Mares of General Purpose and Roadster type, of about 1,100 lbs. weight and medium quality, constitute the breeding stock of this township. Their average age is eight years.

Howard township is well represented in the number and variety of sires kept for service, which include two Hackneys, a German Coach, a French-Canadian horse, three Roadsters, two Coach horses and six Clydesdales. Seven of these stallions are grades. They are mostly a good lot and the majority are sound, but two are 14 and 19 years old respectively; \$10 to \$15 is the range of fees for service, with one given as \$20. In all there are some 1,800 mares of fair quality in the township, of an average weight of 1,200 lbs., about one-third being of the draught type, the rest General Purpose and Roadsters. Their average age is eight years.

All the six stallions inspected in Camden township were young horses and sound, three of them having been used for their first season. The average quality is fairly high, and the service fees follow the general rule, from \$10 to \$15. There are 1,200 mares in the township, of Clydesdale, General Purpose and Percheron type, whose quality is fair, and average weight about 1,150 lbs., the average age being seven years.

Harwich township possesses what is rather a rarity in Ontario now, viz., a Suffolk Punch sire. The heavy horse interests are served by two Clydesdales and two Shires, while there are in addition three Percherons, a Coach horse and three Roadsters. Two of the stallions are grades. The majority are reported to be sound, but some are well up in years. The service fee is the usual range, from \$10 to \$15. The percentage of mares bred out of the 3,000 in the township is about 35 per cent. They average 1,250 lbs. in weight and are mostly General Purpose, with some Draughts and Roadsters. Their average quality is fair, and age seven years.

Orford township has one Percheron stallion, four years old, sound and well rated, and has a good percentage of foals to its credit. There is also a Clydesdale and Coach horse. Service fees are from \$8 to \$10. About 800 mares are kept by farmers, being mostly of General Purpose stamp, with a very few of heavier build. They average about 1,150 lbs. and rate fairly well as to quality, age averaging about eight years.

The table accompanying the report gives a total of 71 stallions in Kent County, all serviceable but five. The number of mares served in 1906 was 4,816. The number in the East Kent townships are as follows: Zone 289, Orford 215, Howard 1,092, Camden 389, Harwich 768. Many Harwich mares are credited to Chatham city.

EVER HAVE CRAMPS?

Kind of fierce to be tied up in a knot at midnight with cramps. Keep Nerviline handy. Ten drops quiet cramps instantly. Used occasionally Nerviline prevents this trouble entirely. From Stratford, Ont., Wm. Deo writes: "Nothing I know of will give such quick relief to cramps, colic or pain in the stomach as Nerviline. If you feel queasy or sick just ten drops of Nerviline in water and you're well next minute." Think of the protection and comfort contained in a 25c bottle of Nerviline, and get it to-day.

Another Ablely Than Pills. Paris, Sept. 23.—L'Espresso writes: "Saturday night last week a man and woman were in the air, about sixty yards above the ground, in a combination of a balloon and aeroplane. The balloon was 60 feet long, and is said to be slightly heavier than the air, the surplus weight being lifted by the action of the motor suspended from the balloon."

DODD'S KIDNEY PILLS

CURES RHEUMATISM, BRUISES, DIABETES, GRAVEL, GOUT, CALCULI, NEURALGIA, MIGRAINE, SCIATICA, LUMBAGO, SPRAINS, AND ALL AFFECTIONS OF THE KIDNEYS.

DISTRICT

BLENHEIM

Blenheim, Sept. 25.—Mr. and Mrs. W. H. Lugaden were Chatham visitors for a day this week.

The Blenheim millinery openings will be held next Friday and Saturday.

Mr. and Mrs. J. K. Morris, of Blenheim, spent Monday at Chatham.

Mr. Dryer, of Chatham, conducted the services in Trinity church, Blenheim, both morning and evening last Sunday.

Quite a number of Blenheimites attended the Fall Fair at Ridgeway yesterday and to-day.

The fire call sounded at noon on Tuesday for the purpose of getting the firemen to fill the power house tank.

Miss Genevieve Shillington, who has been visiting at Bridgen for some time, returned to Blenheim last Friday.

A number from Blenheim attended the funeral of the late C. Reginald Jamieson at Birmingham, Mich., last Monday.

Mr. and Mrs. W. H. Stephenson left last night for Walkerville, where they will visit for a few days en route for Cleveland, Ohio.

Mr. and Mrs. Geo. Cairns left on Monday night for Calgary, where they will reside in future.

Cairns has secured a good position in that thriving western town.

The furnace at the Blenheim power house has undergone a thorough overhauling and is now in first class condition. There is also a derick there at present cleaning out the deep well.

The citizens of Blenheim were treated to some very excellent music yesterday morning by the Chatham band during the "wait" between trains, the band being on its way to attend the Fair at Ridgeway.

\$100 REWARD \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is CATARRH. The cure now known to the medical fraternity, Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENNEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

DRESDEN

Dresden, Sept. 25.—Mr. and Mrs. Charles Aikin entertained the choir at their home on Tuesday evening.

Miss Robertson of the "Public School" staff, was indisposed on Tuesday, and her room was closed.

Messrs. Roy Carscallen and J. W. Guthrie spent Tuesday at Mitchell's Bay.

A number of the members of the Missionary Society met at the home of Mrs. W. P. Wright on Tuesday afternoon and quitted two quilts for the mission bazaar.

Sunday next will be Rally Sunday in the Methodist church, and the Rev. Mr. Crews, of Toronto, will preach at both services and also give a lecture on Monday evening.

Sid. McWha, of the steamer City of Chatham, spent Tuesday at his home here. Mrs. McWha accompanied him to Chatham on his return and spent Wednesday in the city.

WALLACEBURG

Wallaceburg, Sept. 26.—H. S. Clements, Geo. Sulman, of Chatham, and Mr. Marshall, M. P. for West Elgin, are at Mitchell's Bay staking out the shooting grounds.

Vivian Reeves, of London, was in town on business yesterday.

Frank Little, of Seattle, W. T., spent a few days in town this week.

Mr. Nett McDougall, of Petrolia, was in town yesterday.

Miss Hazel West, of Kent Bridge, is the guest of Miss Marie Forhan.

GENTLEMEN, IF YOU ARE BALD, See Prof. Dorenwend's Art Coverings in Wigs and Toupees, worn on thousands of heads. They are a protection against Colds, Catarrh, etc., and give a most natural and young appearance to the face.

Trying on and demonstrating the superior art of these goods free of charge. He will be at the Garner House, Chatham, on Thursday, October 3rd.

The Northway Company, LIMITED.

LINER IN COLLISION.

Allan Steamer Disabled With Many Passengers on Board.

Montreal, Sept. 25.—Brief reports of an accident that seems to have been almost a terrible tragedy have come to hand by telegram from Fame Point, which indicate that a collision occurred some time on Sunday between the Allan Liner Mongolian and the freighter Hurons of the Thompson Line, probably in the Straits of Belle Isle.

No definite account of the accident has yet been forwarded, as neither boat carried a wireless apparatus, but the Mongolian was evidently seriously injured and is now on her way back to Quebec with the big freight boat standing by her.

The Mongolian had on board 150 passengers, and the first intimation of the collision came to hand yesterday afternoon when Messrs. H. and A. Allan received a telegram from Fame Point stating that the steamship Mongolian had signalled that she had been in collision with the freight ship Hurons, and had been so seriously injured that she was compelled to return at a slow speed to Quebec with her hundred and fifty passengers.

Further details of the affair will hardly be available until the two vessels reach Quebec, which will probably be some time to-day, according to the speed of the disabled Mongolian.

Stake at Launching. Rome, Sept. 24.—While the Italian Lloyd's transatlantic steamer Princess Yolanda, 12,000 tons, the largest vessel grant ship ever built in Italy, was being launched at Ravennago, near Spina, she keeled over and rushed into the sea on her side and sank. There were many workmen on board who were rescued with difficulty. The damage is estimated at half a million lire.
