

A DISCOVERY IN ROME.

Hidden Treasures of the Jesuits Retained.
(From a Correspondent of the Boston Herald.)

A most curious revelation has been made lately in Rome, which reveals the existence of a vast treasure of hidden treasures, which are of considerable value. The Jesuits, who were expelled from Italy in 1773, had hidden these treasures in the walls of the city. The Jesuits, who were expelled from Italy in 1773, had hidden these treasures in the walls of the city. The Jesuits, who were expelled from Italy in 1773, had hidden these treasures in the walls of the city.

Then they told of gold and silver articles, among them a superb Onosmodium. The Onosmodium of which they spoke is one of the most beautiful plants in the world. It is a plant of the Onosmodium family, and is found in the mountains of the Alps. It is a plant of the Onosmodium family, and is found in the mountains of the Alps.

I have been in the very room and touched the walls, and found the treasure. The treasure is a large quantity of gold and silver articles, among them a superb Onosmodium. The Onosmodium of which they spoke is one of the most beautiful plants in the world. It is a plant of the Onosmodium family, and is found in the mountains of the Alps.

There is an extremely interesting book in the library of the Society of Jesus, printed at Paris, in 1773. It is a book of the Society of Jesus, printed at Paris, in 1773. It is a book of the Society of Jesus, printed at Paris, in 1773. It is a book of the Society of Jesus, printed at Paris, in 1773.

AGRICULTURAL.

OUR FARMERS' CLUB.

We have the following letter from Greenville, following up our article on the subject of the Farmers' Club.

DEAR SIR, I have been reading your article on the Farmers' Club, and I am very glad to see that you have taken up the subject of the Farmers' Club. I am very glad to see that you have taken up the subject of the Farmers' Club.

There is a great excitement in Europe over the arrival of our distinguished friend, the Potato Bug. The following engraving represents the Potato Bug, and is a very good one.

LADIES' CORNER.

(Edited by Miss Greville.)

Some time ago we learned that a new system of washing had been introduced in some of the French towns, which did away with the use of the washboard and tub. This new system is a very good one, and is worth the notice of our ladies.

It is simply to dissolve two pounds of soap in a tub of water, and to add a few gallons of warm water, one spoonful of turpentine oil, and two spoonfuls of ammonia. This mixture is then used for washing.

HEALTH IN THE HOUSEHOLD.

SICKLE-CELL.

This disease, the terror of the parent's heart, is simply treated by Dr. R. of Boston. It is a disease of the lungs, and is caused by a cold in the head. It is a disease of the lungs, and is caused by a cold in the head.

FOR THE LONG WINTER EVENINGS.

(From the New York Herald.)

The instructive and interesting experience of Miss Irene Macgillivray has led us to mention that even the young, gay, and wealthy may not be altogether satisfied with a winter spent in idle, dissipated, and unproductive hours. Those of them who are not otherwise employed may find in the study of the history of the world a most agreeable and profitable occupation.

It is simply to dissolve two pounds of soap in a tub of water, and to add a few gallons of warm water, one spoonful of turpentine oil, and two spoonfuls of ammonia. This mixture is then used for washing.
