I. C. R. Employee Died in Harcourt

Harry Wathen, Former Postal Clerk of I. C. R. Died Wednesday

Mr. Harry Wathen, who has been critically ill at his home in Harcourt passed away at half past three o'clock Wednesday afternoon.

Mr. Wathen, who was in the 70th year of his age, was well known all over the Government system of railways. For some thirty-five years he was postal clerk on the I. C. R., running between Campbellton and Moncton, and only retired from the service a few years ago.

He was a veteran salmon and trout fisherman, in which branch of sport he was a recognized authority. He was secretary-treasurer of the Adowwoosook Fishing Club almost ever since it was organized, and was held in the highest esteem by the members of that organization.

The late Mr. Wathen was a man of high integrity, and he enjoyed the confidence and respect of all with whom he came in contact in his business or social way. His genial disposition won for him many warm friends, and his death was deeply mourned by all who knew him.

He is survived by one son, John A. Wathen, merchant, of Harcourt, and two daughters, Miss Trinda, at home; Mrs. S. M. Dunn, Harcourt; Mrs. W. G. Thorber, Millerton; Mrs. Williamson, Greenwick; Mrs. Fox of Toronto.

Sixteen Year Old Engineer Drowned

Frank Crosbie, Engineer on Tug Boat Arthur, Drowned at Chatham

A very sad drowning accident occurred on the river, opposite Chatham Wednesday afternoon, about 3 o'clock, when Frank Crosbie, the sixteen year old son of Alex. Crosbie lost his life.

Young Crosbie was an engineer on the Dominion Pulp Co's. small steamer Arthur. At the time of the accident the tug was towing a scow of pulp across the river from the company's mill to the Canada lock, at the lower end of the town.

Captain P. McCreary and Crosbie were the only persons on the boat or scow at the time. It seems that Crosbie spoke to the captain about the tarpaulins on the scow and evidently went to make them fast. A few minutes afterwards the captain heard Crosbie calling out and looking out of the wheel house saw him in the water about eighty feet astern.

The captain immediately ran below, reversed the engines and cut the scow clear and backing the scow where he had seen Crosbie last. In the meantime some person on the company's other boat saw that something was wrong with the tug and immediately went to her assistance, but although both boats searched around for some time they saw no trace and evidently had to give up.

The body has not yet been recovered.

Bathurst Village Visited by Fire

Call to Newcastle Responded to by Firemen—Engine Had Try-out

Bathurst Village was visited by a serious fire Wednesday afternoon last, the fire breaking out in the lumber yard of the Bathurst Lumber Company, and about fifteen million feet of lumber was destroyed.

It was fortunate for Bathurst that the strong wind was blowing at the time, was blowing in an opposite direction to the village, or the results would have been a repetition of the Campbellton disaster.

About 3.30 o'clock a call for assistance was received by the Newcastle firemen, who immediately responded, taking the engine, and Chief Dickson and E. Menon, Stables, Russell, Brown, Bethune, and Robt. Beckwith, who had charges of the engine. Mayor Campbellton accompanied them. The Campbellton firemen also responded.

The firemen report that the Newcastle engine which has just undergone overhauling by its new caretaker, Mr. Beckwith did admirably well. A great deal of scepticism prevailed about town as to how big engine would work, but this has been a good test, and perhaps after all will prove valuable to the fire department under the management of its new engineer.
