ANOTHER VICTORY FOR TAILENDERS

Edmonton Loses Another to Calgary--Figures This Time 5 - 1

(From Saturday's Bulletin.)

'Tis the same old story to tell of the doings at baseball park last night. Calgary won and the exact score was 5-1. The Chinooks came by their victory honestly. They outplayed their opponents in nearly every particular. There was one notable exception, though, and that was in the pitching department. Crist outpointed his opponent and with better support behind him would have given Calgary a great old rustle for the money. Crist was touched up for a total of eight hits, including a triple and a trio of doubles, but he also struck out ten men and only issued two passes. He pitched the game of his life in many respects and the visitors had no license to make the runaway game they did of it.

The Legislators fell down badly in hitting. On at least four occasions there were openings for a score, but the much-needed hit missed fire. This was particularly noticeable in the eighth and ninth, especially in the final chapter, when with all the corners occupied such generally reliable batters as Bennett, Grimes and Ford could not poke one out of the outfield, even on the fly. Blexrud was the only one who could do anything with Barnstead. He got two safeties for four times up. He fell down in the field though, something the fans weren't looking for after his previous showing in left garden.

Calgary played the same high-class article of ball they had on tap the evening previous. Barnstead was always master of the situation and although only seven strikeouts came his way he never allowed the losers to bunch their hits. They got two in a row on two occasions, but they went to waste in the first attempt. Jansa backed him up faultlessly, only allowing one stolen base, and in the field Rodosy covered himself with glory. In all he had five difficult chances and he never made a miss. In the eighth he went down on Grimes' hot one that he got on a run toward second, but he threw over and made the throw to first in time to catch the batter. At least the umpire allowed the out, but it was a very close decision. Sykes was the premier batter, having two safe ones (both doubles) to his credit on four chances. He is a great hitter and will be in the game regularly—at left field when not on the mound.

Priest did the umpiring with his usual success. He did the burglar act with Grimes in the ninth and there was the same crop of blunders on the balls and strikes with Edmonton getting somewhat the worse of it. But his work did not lose the game to the Legislators. The losers couldn't hit and were to the bad in spots in fielding.

The meeting was opened with Chandler and O'Neil swinging aimlessly on the ozone and Taylor rolling out, Harper to Lussi. In the second they did better. O'Donnell swung thrice to no purpose. He was followed by McClellan who lined one out to the fence, just nicely in safe territory and made the trip home to third on it. Then Sykes doubled to the same territory and the shortstop made the home trip. Rodosy obliged with a strike-out and Jansa was robbed of a hit by a great running catch by Blexrud. They went out in order in the third and fourth. In the fifth they happened along for two more, though neither one of them were coming to the Chinooks. This is how the trick was turned: Harper let Sykes' roller go under him, Rodosy's sacrifice enabled Sykes to make the second sack. Then Jansa hit to right and Blexrud got the ball to the infield about as rapidly as Methusela would have done the job in the latter half of his eight-hundredth year, Sykes reaching home. Barnstead was the next up and he struck out, but Ford dropped the ball and when he heaved it down to second to catch Jansa, Harper let it get away from him. Jansa tore for third and Baker duplicated Harper's mess of things and Jansa completed the circuit handily. With two runs in and two out, Chandler flew out to Wessier. Crist handled them one, two, three in the sixth, but in the seventh they noticed another. McClelland arrived on a hit by pitcher, and finished the home trip on Sykes' two-base drive to the left-field fence. Sykes got down to third on the second out, but Barnstead's best was a high one to right which Bennett got on the run. The fifth tally was bagged in the eighth with one gone. Taylor singled nicely over second and then O'Neil ripped off a two-bagger over Blexrud. The fielder was slow again getting the ball in and Taylor got down in the run column. O'Donnell hit safely, just out of Harper's reach, sending O'Neil to third and on McClellan's out, Harper to Lussi, O'Donnell copped second. Sykes was next up and with a couple of baggers to his credit already, a single looked a certainty, also a run or two. The burly pitcher was not equal to the occasion and struck out. They looked dangerous again in the ninth. Rodosy got on when Lussi failed to hold the throw from Harper, but Jansa's attempt at a sacrifice forced Rodosy at second, Barnstead flew out to Baker. Chandler hit over Wessler, but fast fielding held Jansa to second and with two departed, Taylor struck out.

Edmonton started off on the right foot, getting men to first and second, but the hit that was wanted failed to arrive. In the second they also got Wessler to second with only one out, and again no hit was procurable. They went down in order in the third. In the fourth Blexrud reached second withonly one in the cemetery, but still no hit happened along. The one-two-three business was worked in the fifth. In the sixth with two down and Blexrud on second the populace demanded a hit and Lussi came along with the hit, but unfortunately, it was in the air and was very artistically gathered in by O'Neil. In the seventh first and second were topped off by Edmonton batters, but they got no further for the next two pounded the gentle zephyrs and the third flew out to Taylor. In the eighth there was a fighting chance for a score with men on at first and second and only one corpse, again a registration was prohibited by good fielding on the part of O'Neil and Rodosy. In the ninth the solitary counter arrived and as it was the only one Edmonton obtained, gentle reader pardon us while we tell just exactly how the counter was garnered in. Wessler beat out a short hit to right. Nagle was sent up in place of Harper and your uncle "Lefty" didn't disappoint the crowd. He peeled off a very choice single to left and again the Edmonton colors floated at first and second. Barnstead landed one on Crist's lower extremities. Edmonton players now occupied a foremost place on all the sacks. Bennett flew out to O'Donnell. Grimes' hit was to Rodosy, who picked the ball up on the second attempt, allowing Wessler to score, but getting Grimes at first, according to the umpire. Second and third were still occupied, but Ford's best was a roller to McClellan and was easily retired. The score:

CALGARY.	A.B	R.	H.	P.O.	A.	E.
Chandler, 3b...	5	0	1	0	2	0

Summary—Three-base hit, McClelland; two-base hits, O'Neil, Sykes 2; sacrifice hits, Rodosy, Grimes, Lussi; struck out, by Crist 10, by Barnstead 7; bases on balls, off Barnstead 2, off Crist 1; hit by pitcher, McClelland, Crist; stolen bases, Wessler; left on bases, Edmonton 11, Calgary 6. Umpire, Priest. Time, 1.50. Attendance 700.

SHORT STUFF.

'Twas ladies' day ,too.

Last game of the series to-night.

It was a hard game for Crist to lose.

Edmonton will be away for two weeks.

Rodosy was the prize exhibit on the infield.

Barnstead's errors were on low throws to bases.

Edmonton never got a man around to third until the ninth.

If Blexrud is feeling right he will do the heaving tonight.

Only one stolen base. Wessler made a great slide for it, too.

Either Barnstead is improving or the Legislators' batters are going back.

Harper played the worst game he was ever guilty of on the home grounds.

Blexrud made a couple of nice running catches at centre, but his throwing was the worst ever.

Calgary's solitary rooter in the grandstand had things pretty much to himself after the fifth.

Nagle, who went in to bat for Harper in the ninth didn't disappoint the fans. His hit was nicely placed to left field.

Barnstead is a slow fielder and knows it. He never takes any chances on getting the runner at second on bunts.

It was Harper's off night at fielding and Ford's with the bat. The Kid very seldom goes through nine innings without at least one safety.

Baseball doesn't seem to be a very long favorite with the ladies. The attendance was only average, notwithstanding the free admission of the gentler sex.

Sykes tried hard for a hit-by-pitcher walk in the fifth. He deliberately stooped down twice to sand his hands after Crist had wound up. The first time the ball just missed his coco by a few inches.

Mr. Geo. Adams, who has been playing centre field for the Edmonton ball team, left for a trip to Detroit last night over he C. N. R. Mr. Adams was one of the best fielders and hitters on the team and it is too bad he has decided to quit the game.

ENGLISH CRICKET.

London, July 5.—In the cricket match today between Cheltenham School and the eleven of the University of Pennsylvania, the former scored 160 runs and the latter 163.

HATTERS HIT HARD.

Morrison, of Lethbridge, Touched Up For 17 Hits, Netting Five Earned Runs.

Lethbridge, July 5.—Medicine Hat, with Benny and West out of the game, decisively defeated the locals by eight to four. The Gaslighters batted hard, making seventeen hits off Morrison and getting five earned runs. Lethbridge was slow in fielding. Works struck out seven, but gave as many passes. Score:

BARNEY OLDFIELD ARRESTED.

Portland, Oregon., July 5.—Barney Oldfield, the auto racer, was arrested yesterday, and a warrant was issued for E. A. Morris, Oldfield's business manager, on a charge of obtaining money under false pretences. The warrants were issued at the instance of the Evening Telegram, and are the outgrowth of Wednesday's automobile contests in this city. Oldfield was released on $500 bail. The information filed by the Telegram is vague, but in yesterday's issue, the paper printed charges that Oldfield and his manager used the name of a local automobile club for the purpose of making prestige and without the sanction of the club; that the promoters of the race meet offered a card of races when they knew none of the entries listed intended to participate and that the meet in general was a fraud.

BELGIANS WIN AGAIN.

Henley, Eng., July 5.—The water carnival closed to-day. The weather throughout was cold and dismal and the annual picnic was entirely short of its usual brightness and gaiety. The Belgians, as anticipated, carried off the principal trophy, the grand challenge cup for the second year in succession, defeating Christ Church, Oxford, in the final, by a bare length, after a good race. Time, seven minutes, 37 seconds. Captain Darrel, of the First Life Guards, won the diamond sculls, defeating Alex. McCullogh by a length and a quarter. Time, nine minutes, 24 seconds.

MAY SUTTON WINS.

London, July 5.—In the All England Championship ladies' singles at Wimbledon this afternoon, May Sutton of California defeated Mrs. Chambers in the championship round. Miss Sutton thus won back the title of British Champion, of which she was deprived last year by Mrs. Chambers, then Miss Douglas. The American won easily by 2-0. The score was 6-1, 6-4. Miss Sutton received a remarkable ovation from the crowds in the stand. The band struck up "See the Conquering Hero Comes." The committee presentedt o her a huge bouquet of flowers, and there were loud calls for a speech, but Miss Sutton was evidently overcome by the warmth with which her victory was greeted and was only able to say: "I have won twice and I am going to try to win a third time."

Beals C. Wright and May Sutton beat A. D. Prebble and Miss Bothby in the fifth round of the mixed doubles. The score was 6-1, 6-3.

In the doubles, championship round, Norman E. Brookes and A. W. Fielding, Australians, beat B. C. Wright and Karl H. Behr, by 3-0. The score was 6-4, 6-4, 6-2. The Americans put up a good struggle, but the Australians played in better form than they displayed in any of the preliminary ties.

LACROSSE.

The Capitols will have a practice on the old baseball grounds to-night and again on Monday night on Baseball Park. Poor condition told against the locals in the game against Calgary on Tuesday, but the management will prevent the same thing occurring again this year if possible.

* * *

The next games in the Alberta League are on July 10 and 12. On the former date Edmonton plays at Strathcona, and on the glorious twelfth Lethbridge stacks up against High River away from home.

* * *

The Medicine Hat-Lethbridge game at the Hat on Dominion Day was a tie. The figures were 2-2, and as the weather was excessively hot no extra time was played.

* * *

Calgary has taken heart since trimming Edmonton on the Caps own lawn, and have the drag net out for some new material, and are determined to win the district at least, if not the provincial championship. Hewer, the fast forward of the Battleford hockey team, is one of a trio of players the Chinooks are after.

* * *

Lethbridge News: The lacrosse boys should have won at Medicine Hat, but hard luck in their shooting and strange grounds made it impossible. The score, after a game at times slow and rough, at times fast and brilliant, stood two all.

AMATEUR BASEBALL.

The second game between the International Hotel team and Vining's selects was played on the Second street grounds on Friday night and resulted in a win for the hotel nine by a score of 7-2 in a seven inning contest. The winners, led as usual by the only Joe Herrick, put up a great article of ball in every department and were legally entitled to the victory. McGirl and Gorman did battery duty for the winners, and Vining and McDonald for the losers. W. Reid umpired. On last night's form the International aggregation appear to be equal to any of the amateur outfits in the city, and a challenge will be issued for a game with Strathcona some night next week. As a souvenir of their great win last night, Manager Herrick is having his photo taken in uniform and will have the same enlarged and a copy of it presented to each of the players.

LAST DAY'S RACING AT THE FAIR

The closing day's racing at the Provincial Industrial Exhibition was fully as largely attended as previous days and those present were furnished with excellent sport.

The principal race of the day, the free-for-all, was won in straight heats by the Winnipeg horse, Tom Keene, who gave the best exhibition of clean trotting of the entire meet.

In the 2:24 pace, 2:19 trot, there was a big bunch of seven starters, which gave considerable trouble to Starter Webb in getting them away. In this race, too, the Battleford gelding, Hugh Scott, won easily in results of the day:

straight heats. Following are the

FREE-FOR-ALL, TROT OR PACE.

First Heat.

In this race there were but three starters. The horses were late in getting up to the wire and each driver was fined $10 by the starter. They drew positions as follows: Tom Keene (pole), Palmyra Boy, George W. The horses got away on the eighth score with a good start in the following order, Palmyra Boy, Tom Keene, and George W. Tom Keene, however, soon showed that he had too much speed for the others and at the quarter went to the lead. Palmyra Boy made a bad break on the back stretch and fell back to third, but at the half pulled up again to second place and finished about eight lengths behind the leader. George W. was a considerable distance in the rear.

Second Heat.

The second heat was a repetition of the first. The horses got the word at the fifth with Palmyra Boy a length behind the other two. At the turn, however, he dropped into second place and at the half pushed the chestnut gelding hard for the lead. Tom Keene, however, held his position without difficulty and won without lifting his hose from start to finish. Palmyra Boy broke while coming under the wire, but was second. George W. was a dozen lengths behind.

Third Heat.

Tom Keene in a beautiful mile won the third heat and the race, trotting from start to finish in the three heats without lifting his nose. George W. made a determined effort to win second place, but could not head the black gelding.

2:24 PACE, 2:19 TROT.

First Heat.

In the 2.24 pace, 2:19 trot there was a big field of seven starters as follows: Boundary Boy, Dalton McCarthy, Hugh Scott, Bermuda Queen, Webster, Frank C. and Clearwater.

Starter Webb had considerable difficulty in getting the bunch of seven horses away and the word "go" was given on the sixth score with the field pretty well scattered at the wire. The start did not please many on the grandstand, but the starter explained that all the outside horses were behind the pole horse. At the half Hugh Scott was leading with Dalton second, Frank C. third and Boundary Boy fourth. In the stretch the last pulled up to second place and pushed hard for the lead, but was unable to overtake the third, Frank C. fourth, Clearwater speedy black gelding. Dalton was fifth, Webster sixth and Bermuda Queen seventh.

Second Heat.

The horses were sent off at the first score with a poor start. The first four kept well together and at the finish Hugh Scott was in the lead, Boundary Boy second, Webster third, Bermuda Queen fourth and Frank C. fifth.

Third Heat.

The horses were sent off on the second score. It was a race between Hugh Scott and Boundary Boy with the others eight or ten lengths behind in procession. Boundary Boy made a determined effort to pull out a lead in the first half mile, but he could not head Hugh Scott, who won by several lengths. Bermuda Queen was third, Dalton McCarthy fourth, Webster fifth, Frank C. sixth and Clearwater seventh.

RUN—5-8 MILE DASH.

In this event there were six starters, Watercress, Sleeping, Rocksey, Young Pilgrim, Chief Aloha and Friar Charm. With the exception of Sleeping, who was some distance to the rear, the others were well bunched for the entire five-eighths. The race was won by Chief Aloha, Friar Charm second, Watercress third, Rocksey fourth, Young Pilgrim fifth and Sleeping sixth.

Taboveт C. 61a.pt. 2threev hesom

NOVELTY RACE.

This was a mile run, $50 a quarter. There were three starters. Beaver Dam took the lead after the first quarter, which was won by Anita and held it for the entire mile, with Anita second. At the half Dolly Douglas fell back and dropped out of the race.

RUN—5-8 MILE DASH.

This race was won by Dolly Douglas, with Marvel second and Barnes third.

SPECIAL RACE.

In this race, which was specially arranged, there were to be four starters—viz., Garish, Ermack, Zaza and Invoice. They were handicapped as follows: Zaza 112, Ermack 105, Garish 130 and Invoice 105. At the last moment, however, it was announced that the owner of Garish would not consent to a change of driver at the request of the judges, so they declared the race off.

THE SUMMARY.

Free-For-All, Trot or pace, 3 in 5. Purse $500.

Tom Keene, ch. g., F. B. Anderson, Winnipeg	1	1	1
Palmyra Boy, blk. g., S. Q. Alquire, Innisfail	2	2	2
George W., roan g., J. G. Ruttle, Calgary	3	3	3

Time, 2:15, 2:20, 2:20.

There was also a special prize offered in this race of $200 if a horse broke the track record of 2:14. This was not done.

2:24 Pace, 2:19 Trot, 3 in 5. Purse $400

Hugh Scott, blk. g., W. H. Hudson, Battleford	1	1	1
Boundary Boy, blk. g., Fred Johnston, Calgary	2	2	2
Dalton McCarthy, b. g., F. J. Fields, Edmonton	3	5	4
Bermuda Queen, b. m., Taylor & Spink, Edmonton	7	4	3
Webster, blk. g., L. Somerville, Calgary	6	3	5
Frank C., br. g., Allcock & McCutcheon, Medicine Hat.	4	7	6
Clearwater, b. m., W. J. Riley, Calgary	5	6	7

Time, 2:22, 2:26, 2:24½.

Run—5-8 Mile Dash. Purse $250.

1—Chief Aloha, ch. m., J. Stewart, Calgary.
2—Friar Charm, b. g., J. J. Gordon, Golden, B. C.
3—Watercress, A. B. Fullerton, Calgary.
4—Rocksey, ch. m., J. J. Gordon, Rirskin.
5—Young Pilgrim, b. h., L. M. Sage, Edmonton.
6—Sleeping, F. Cheyne, Battleford.

Time, 1:05.

Novelty Race, 1 Mile. $50 each Quarter. Purse $200.

1—Beaver Dam Lad, b. h., J. McAbee, Golden, B. C.
2—Anita, ch. m., E. Unsworth, High River.
3—Dolly Douglas, b. m., H. P. Streeter, High River.

Time, first quarter, 25 sec.; second quarter, 54 sec.; third quarter, 1:23; mile, 1:57.

Five-eighth Mile Dash.

This race for the Calgary Brewing & Malting Co.'s cup and $100 was won by Dolly Douglas, with Marvel second and Barney third. Time 1:07.

THE PENITENTIARY BEING ENLARGED.

Within the next few years the provinces of Alberta and Saskatchewan will have one of the most up-to-date and best arranged penetentiaries in the Dominion of Canada. This is the ambition of the authorities and towards that end they are now working. The present buildings at Edmonton are but the nucleus of what the western provinces will possess in five years' time, when the plans that are now arranged have been put into execution. Each of the coming years will witness an addition to the penitentiary till at the last the entire structure will form a symetrical whole—the equal in size and equipment of any in the Dominion and the superior in many respects.

And this work will not be a charge upon the Dominion Government either for material or labor. The material will be procured near the property in the form of clay and manufactured into brick and artificial alone by the inmates of the penitentiary—thus saving an immense expense and giving the unfortunates who have fallen under the stern arm of the law an opportunity to learn useful trades which will serve them in good stead upon their release.

Main Building Erected in 1903.

In the year 1903 the main building that faces Government avenue, just south of the C. N. R. tracks, was started. The building was intended when its construction was begun, for a territorial prison, and when the provinces of Alberta and Saskatchewan were formed, instead of handing the building and grounds over to the province of Alberta, as at first deemed advisible, the Federal authorities decided to use the property for a penitentiary for the two provinces.

Just about the time of the passing of the autonomy bill the present main building was completed. Enlargements, extensions and additions were at once decided upon and work to that end was immediately begun.

But even at so late a date as last August much of the land, now cleared, and upon which a second building is standing, was a mass of timber, and where now a level turf surrounds and is partly included in the prison enclosure, brush and timber then stood.

First Had 21 Cells, Now 108.

When the present main building was first used as a place of incarceration for Alberta and Saskatchewan criminals, it had 21 cells for male convicts, seven for female convicts, seven for prisoners awaiting trial and seven for punishment and for lunatics.

When converted into a penitentiary the cells for prisoners awaiting trial became unnecessary and that section was converted into an hospital ward.

Early in September of 1906 the industrial building was commenced. It is a structure about 50 yards from the main prison and is 40 feet by 110 feet. The present portion, which was completed early this spring, is about one fifth of what the industrial building will ultimately be. The prisoners' accommodation is made up of 108 cells arranged in three tiers high and running in two rows, the greater part of the building. In the south end is the prison kitchen and upstairs the prison chapel, where Sunday services are held and where scholastic instruction is given for an hour daily during the week. In this building alone there is sufficient accommodation for some time to come, as there are now only 67 prisoners in the penitentiary.

All Convict Labor.

While it is the policy of the government not to allow convict labor to compete with private enterprise, the energies of the prisoners will still have abundant scope for development within the next few years. All the work in connection with the excavation, manufacture of brick and concretes block, erection of the walls and other labor will be done by the prison inmates.

To this end a brickyard and concrete block plant are now in operation in the prison yard, the material being taken in cars from the banks of the river on an elevated tramway that is built over the fence and upon the extension of Jasper avenue to the east of the properly will run underneath the roadway.

Instructors in masonry, carpenter work, blacksmithing, shoemaking and tailoring are employed to instruct the men, and the difficulty of the task and the patience required can be estimated when it is known that many of the prisoners here enter for the first time upon work which is afterwards to become their trade.

That immense structures of excellent workmanship are being erected with such labor speaks volumes for the painstaking efforts of those who are in charge.

This Year's Building.

Men are now engaged upon excavations for an extension to the present main prison. The addition will be 30 feet in width to the rear and will give a bakery in the basement, an hospital wardroom on the first floor, female chapel, hospital ward for women, etc.

Big Dome Next Year.

Next summer the erection of the dome will be commenced and will likely occupy two years in its construction. This will immediately adjoin the building now being erected. It will be about 65 feet square and 54 feet high.

From this central dome will be attached in coming years wings to the east, south and north, the present building to the west forming the administration wing.

In the basement of the dome will be the prison kitchen and the heating boilers.

On the ground floor the officers' hall, commanding a view of the cells in the three wings, and above the officers' hall will be the new prison chapel.

After the completion of this work the erection of the new cells in the first wing, to the east, will be commenced. In the eastern wing, there will be 240 cells on the same plan as those of the present building, but in four tiers instead of three. The tool-proof steel fronts now used for the cells in the industrial building will be transferred to the new wing.

This will be accommodation for a good many years to come, but if more is desired the other wings will be built, the completed structure affording accommodation for upwards of 700 prisoners.

Following this work the walls will be built. They will enclose a space of 500 feet by 600 feet—a portion of land amply sufficient for many years to come.

Close to Government avenue will be a small structure for the warden's office and the stores in order that the public will not have to enter the prison proper in order to do business A switch from the railway will also facilitate the handling of supplies.

Industrial Work.

Beside the industrial work in connection with the erection of the penitentiary buildings, the men are also employed in making boots and also the entire uniforms for the officers. Others are employed in work on the prison farm where a large amount of the vegetables in use at the institution are grown.

Creditable to the West.

Inspector of Penitentiaries G. W. Dawson, of Ottawa, who is now in the city, and who, in company with Warden MacCaulay, kindly showed The Bulletin representative over the institution, gave some interesting statistics of the number of prisoners in each of the penitentiaries of Canada at the present time. They are as follows:

New Westminster, for British Columbia	147
Stoney Mountain, for Manitoba.	196
Kingston, for Ontario	450
St. Vincent de Paul, for Quebec.	350
Dorchester, for Maritime Provinces	220
Edmonton, for Alberta and Saskatchewan	67

A notable fact reflecting some credit on Western morality is that since the penitentiary was opened there has not been one female prisoner. At Dorchester ,there are eleven, and at Kingston seventeen.

NEW LICENSE LAW GOES INTO FORCE ON MONDAY.

On Monday, July 1st, the many important amendments to the Alberta Liquor License Act, passed at the last session of the Legislature, come into effect.

When seen today by a representative of The Bulletin, William A. Deyl, Chief License Inspector for the Province, stated that the new provisions were to be actively enforced.

"I do not think any other province of the Dominion has as stringent legislation concerning the presence of liquors in restaurants and all unlicensed places. Under the new provisions the mere presence of liquor in such places is taken as an offence against the statute. We have found it in the past almost impossible to convict people for selling liquor. There was always difficulty in getting evidence of the actual sale. In future that will be unnecessary. The fines imposed for an infraction of the law are heavy. They are not over $250 for the first offence; over $200 and not above $500 for the second; less than $500 and not over $1,000 for the third, with imprisonment.

"The Department will strictly enforce the provision making it an offense for an interdicted person to loiter about a barroom. The age limit has been raised from 18 to 21, which is as high as legislation anywhere makes it."

"Do many of the hotels in Alberta meet the new requirements as to accommodation?"

"About 60 per cent. of the province's hotels will have to increase their accommodation to the required number to permit of their getting a license. But they have been given until September, 1908, before this provision goes into effect, and already a number have begun to increase their number of rooms. They are also complying with the law to provide fire-alarm systems."

"What other features of the amendments do you find interesting?"

"One is the provision concerning the adulteration of liquor. There has been for some time a Federal enactment in this respect in the Pure Food Law. In future there will be provincial action in the matter and the department can at any time demand samples for analysis from any place selling liquor."

At present there are 227 licenses in the Province.

The principal provisions of the amended act follow in brief order:

No application for a license will be entertained in respect of any hotel or wholesale liquor business unless situated in a city or town or a village, with at least forty dwellings or any place containing forty dwelling houses within an area of 960 acres. This provision puts an end to any rondhouses which may exist in the province and confines the licenses to municipalities and fairly substantial villages.

The number of hotel licenses to be granted in cities, towns, incorporated villages and other places where licenses may be granted shall be according to population as follows:

One license for the first 500 or fraction thereof; one for the next 500 or fraction thereof, and then one for each additional 1,000 of population. This provision does not affect licenses already granted. In any locality where the number of licenses previous granted exceeds the number named in the new clause, no new license will be granted until the population shall comply with the act. For instance, a place of 1,000 population today may have three licensed hotels. The new law does not cut off one of these licenses, but it prevents any new license being granted until 3,000 population has been reached.

Wholesale licenses will not be granted in places with less population than 1,000. This applies to the future and does not cancel existing licenses in places under 1,000.

No licenses shall be granted to premises within 200 yards of a school, church, university or a college. This clause does not affect existing licenses.

Every licensed hotel shall contain in addition to the rooms required for the hotelkeeper, his family and servants at least forty-five rooms in cities; thirty in towns and twenty in villages and in every case a suitable complement of bedding and furniture. This provision must be complied with by September 1, 1908.

No license will be granted for a new building until the building has been completed according to plans and specifications submitted to and approved by the Chief License Inspector.

There shall be no communication between any shop or store and any licensed wholesale premises.

During prohibited hours the view of the interior of a hotel barroom and wholesale liquor premises must not be obstructed by screens, shades, blinds, or frosted, ground or colored windows.

Every licensed hotel and all closets and outbuildings in connection must be kept clean and sanitary, properly ventilated and comfortably heated. If these requirements are not lived up to the Attorney General has power to suspend the license until the matters in complaint have been rectified.

No time check or other evidence of indebtedness given in payment of wages shall be cashed in any licensed premises and any licensee, or his servant, agent or employee shall be punished for any infraction of this law.

No person under the age of twenty-one years is allowed to linger or loiter about a barroom. Any licensee found guilty of such an offence is liable to a fine of not less than $2 and not exceeding $10. The persons lingering or loitering about a barroom are liable to similar punishment.

A permit can be given for the consumption of liquor at a bona-fide banquet.

Proof of the consumption of liquor or the intended consumption on unlicensed premises is conclusive evidence of an infraction of the law.

Any interdicted person found in the barroom of a licensed hotel or the premises of a wholesale liquor store is liable to a fine of not more than $50.

Use of false labels on bottles, casks, or other vessels containing liquor is prohibited.

Mixture of drugs with liquor is prohibited.

Every hotel in villages shall have stabling accommodation for at least sixteen horses.

The license fee for hotel and wholesale licenses in cities with a population of 10,000 or over is fixed at $400. In all other places the fee is $200.

Steamer Monterey on Fire.

New York, July 5.—The steamer Monterey is on fire and is going to Clifton, S.I., for assistance. The Monterey belongs to the New York and Cuba Steamship Company, and was inward bound from Havana. She went aground at eight o'clock. The fire is in the forward hold. The passengers have been taken off by a tug, which is bringing them up to the steamer's dock.

Ontario Gets Half Yearly Subsidy.

Toronto, July 5.—The provincial treasurer received a cheque from the Dominion government for the half yearly subsidy, amounting to $672,000. This is the same amount as last year, so that the increase the province is to receive, of about $400,000, is not being allowed on the past half year.
