"Only a Cold"

SNEEZING and running at the nose, stuffed up feelings in the head, sore throat, tickling in the throat and coughing.

This is the natural development of what is in the beginning "only a cold." It is the way in which scores and thousands are allowing colds to develop into bronchitis, pneumonia, or consumption.

If colds were promptly cured there would be no need for sanatoriums and hospitals for consumptives. Because people have weak lungs they need not become consumptives if they will but guard against colds and cure them promptly by using Dr. Chase's Syrup of Linseed and Turpentine.

This great medicine has proven its right to a place in every home by curing croup, bronchitis, whooping cough, asthma and all sorts of coughs and colds. 25 cents a bottle, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

Certainly Ends Stomach Misery

Indigestion, Gas, Heartburn, or Dyspepsia go in five minutes.

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapepsin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness (like a lump of lead in stomach), Bloating, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from indigestion or any stomach disorder, you can get relief within

Newfoundlanders' Annual Ball in Boston.

(Special Correspondence of the Evening Telegram.)

Boston, Mass., Feb. 17.—Last evening, in its annual ball, there was celebrated the "coming of age" of the Newfoundlander's Mutual Benefit Association, and the affair was correspondingly brilliant. The occasion was honored by the presence of guests of distinction, those invited being the Hon. John F. Fitzgerald, Mayor of Boston; John F. Master, President of the British Charitable Association; Hon. J. J. Powers, C. South Boston (who is a Newfoundland, by the way, who has been elected a Senator of Massachusetts) and Mr. J. Whittle, representing the Terra Nova Association.

The ball was given in the spacious Oddfellows Hall, Oddfellows Building, Berkeley and Tremont Streets, and with the grand march there opened at 9.30 a carnival of pleasure that did not end until 4 a.m. Over 10,000 were present, but, under the direction of the reception committee (whose chairman was Mr. P. P. Fiddell, late of Allan's Square, St. John's), everything went without hitch. Mr. Wm. B. Somerville, President of the Association, acted as floor marshal, and Jeremiah W. Halleran, 1st Vice-President, as floor director, with Edward Molloy and Walter Duggan as assistants. Thirty-one Newfoundlanders, members of the Association, under the direction of Stephen F. Puddister, Chief of Aids, assisted the various committees. A midnight dancing ceased temporarily to permit guests to partake of an excellent supper, while those not desiring to partake were entertained by singers in the ball room. At 4 a.m. the enjoyable affair was concluded.

The Newfoundlanders' Mutual Benefit Association was organized in this city twenty-one years ago. Its present membership is over three hundred; it is well officered and managed, and is the most active of any Newfoundland organization in New England. The Association meets once a month at its headquarters in Appleton Hall, Paine Memorial Building, Appleton St., Boston, and its officers are: Wm. B. Somerville, President; Jeremiah W. Halleran, 1st V.P.; Edward Molloy, 2nd V.P.; Jno. E. White, Rec. Sec'y; Sam'l Down, Treasurer; Thos. Malone, Sergeant-at-Arms; Thos. Holland, Chairman Auditing Committee; Nicholas J. Halligan, Chairman Investigating Committee and Guide; Samuel Goss and Thos. Bouzour, Trustees.

DRUNK ARRESTED YESTERDAY.

—Yesterday forenoon a young man was seen on Water Street very much under the influence of liquor. Later he was found lying on the street and Const. Humber procured a sleigh and drove him to the station.

Drowned in a Well While Getting Water

Dominion, C. B., Feb. 15.—Price McKay, a native of Ball's Creek, was accidentally drowned this forenoon by falling into a well while in the act of drawing water. The deceased was in his thirty-ninth year and leaves a wife and five children. His sister, Mrs. James Lewis, resides in Sydney, and he has two brothers living in Dominion. The late Mr. McKay was severely injured in the mines about two years ago, having a leg broken, and had only recovered when he returned to work.

Strong Evidence in Dynamite Conspiracy Case.

Indianapolis, Ind., Feb. 16.—New disclosures made in the dynamite conspiracy case, through 40,000 letters and telegrams quoted in all the indictments as implicating practically all the officials of the International Association of Bridge and Structural Iron Workers, will be the basis, it was declared to-day, upon which the government will seek to convict the fifty-four defendants charged with committing or abetting in almost 100 explosions.

The correspondence is held as showing that a vast plot, known by Frank Ryan, president of the iron workers, and to members of his executive board and many business agents, was carried on for six years to destroy the property of steel contractors who employed non-union labor.

It charges all the defendants with being equally guilty as abettors. It also purports to reveal evidence that "jobs" became the accepted term and that gradually the officials of local unions began to call on the international headquarters in Indianapolis to assist by dynamite and nitro-glycerine in increasing the expenses of "open shop" contractors.

Ortie E. McManigal, Herbert S. Hookin, second vice president and James B. McNamara, became, it is charged, an organized "dynamiting committee." Letters are included to show regular fees were paid to McManigal and that the cost of doing local "jobs" frequently was discussed in letters.

A letter from Olaf A. Treitmoer of the local union in San Francisco to J. J. McNamara in Indianapolis, after the Los Angeles Times disaster, stating that he hoped "Santa Claus would be as kind and generous to you with surprises," is quoted to show that the conspiracy spread from Boston to the Pacific coast.

Four more indictments not yet made public, supplemented the principal indictment containing the correspondence. The indictments name all the fifty-four defendants as implicated in the general conspiracy and make these charges:

"That on thirty-four counts all the defendants were principals in illegal transportation of dynamite.

"That on thirty-four counts McManigal, John J. McNamara, James B. McNamara and Hookin are guilty of illegally transporting dynamite and all the other defendants are guilty of aiding and abetting them.

"That on sixteen counts all the defendants are guilty as principals in illegal transportation of nitro-glycerine.

"That on sixteen counts, McManigal, John J. McNamara, James B. McNamara and Hookin are guilty of illegal transportation of nitro-glycerine and all the defendants are guilty of aiding and abetting them."

The wide scope of the thirty-two indictments, which contain twenty-eight counts, is due, it is announced, to the theory of the government that the defendants' alleged guilt is equal no matter how small an individual person's activity in the conspiracy may have been. Mr. Miller said it has been determined to press all the counts of the indictments against each of the defendants.

Mr. Miller added that the indictment setting out unconsummated acts of conspiracy, extensive as it is in presenting a mass of alleged incriminating correspondence between the defendants, "only submits a typical act. If we had chosen, this indictment might have been run into many more hundreds of pages. Forty thousand letters were seized in the headquarters of the International Iron Workers Association, and from them the investigators chose evidence that will be more than sufficient to prove our case when offered in connection with corroborative evidence of wide extent and varied character. The freedom with which these men put on paper their plans moves and the working out of their purpose is amazing.

S. E. GARLAND. KNOX Marine Motors.

THIS ENGINE is made in Camden, Maine, U. S. A., especially for fishing purposes. It is the one which has given the best results for fishing purposes obtainable. It is noted for its simplicity. Any person can operate it when once instructed. It will run with gasoline or kerosene. This cut represents 7 1/2 h. p. single cylinder. Make & Break Knox. Compare the description of its power with any other engine and you will find it beats most of them 25 per cent. Note: Revolutions per minute 500. Bore 4 1/2 in. Stroke 4 in. Weight of Motor 500 lbs.

J. LEDREW & SONS have accepted the Agency for this Engine and intend to establish a branch business at Harbor Grace, where Motors will be installed and purchasers will receive instructions, be taught to run the Engines and where all parts for repairs will be kept on hand. The principal of this concern, W. R. LeDrew, is going through a course of training in the Camden Anchor-Block-and-Machine Co.'s Factory. Any person wishing to order one or more of these Engines would do well to send in their order so that W. R. LeDrew will see them tested, packed and shipped, as he wants to make up a car load so as to save freight. For Catalogues, Price Lists, etc., apply to
