HARTFORD, Conn., May 26.
An explosion of a brass pipe bomb occurred in the basement kitchen of the State Army here late to-night. The first battalion of the Connecticut State Guard numbering four hundred men was maneuvering in the drill shed of the Army at the time, and a number of officers of the State Guard were in their offices on the second floor. The explosion caused great excitement, but no one was injured. Seven windows were broken and the kitchen was damaged.

MEXICAN METHODS.

MEXICO CITY, May 26.
(By Associated Press)—A formal investigation for the purpose of re-clarifying the part taken in the death of President Carranza, both by Col-herro and members of the Carranza party is recommended by a commission of four, named by Generals Obregon Gonzales, to inquire into the tragedy. The commission submitted its report last night, and cited ten points which the members had agreed had been proved from stories of witnesses. The report indicates that Carranza was betrayed by men professing to be friendly, that he was shot to death in an attack on his hut, and that the men concerned were agreed to sign a statement that he had committed suicide.

MORE TROOPS FOR IRELAND.

LONDON, May 26.
Aside from fresh troops, recently sent to Ireland, eight more battalions are held in reserve for transfer thither on short notice, according to the Daily Mail.

BEAT OFF ATTACK.

DUBLIN, May 26.
Another hunger strike is on at Mountjoy prison. A visiting Justice, who saw the strikers yesterday, says two men are in a very grave condition. 9 Constables successfully withstood an attack by a considerable force of raiders, who exploded bombs under Lough George Barracks in Galway, and poured bullets into the building for more than an hour. The police responded with rifles and a few bombs. One policeman was slightly wounded.

DANIELS GETTING UNEASY.

WASHINGTON, May 26.
Declaring that the steam roller was being used on him, United States Naval Secretary Daniels told the Senate Naval Investigating Committee today that he would appeal to the full committee if Chairman Hale insisted in putting into record, "an unfair and unfounded" statement as to the condition of American warships, when the war began. Before the Secretary's announcement, Senator Pittman, democrat of Nevada, warned Chairman Hale that he would protest on the Senate floor against the character of questions which the Chairman was asking Daniels.

THE ALTITUDE RECORD.

SAN ANTONIO, Texas, May 27.
What is to be the record for an altitude flight with an aeroplane carrying three passengers and pilot, was made at Kelly Field last Tuesday, when Lieut. Harry G. Hines made an altitude of 20,081 feet. The record was made in one hour and twenty five minutes of steady climbing. The return trip was made in 15 minutes. A De Havilland four model B. ship was used, equipped with a barograph to record the altitude.

TAKING A LOT OF TROUBLE.

QUERETERO, Mexico, May 27.
Roboleo Herrero, yesterday, surrendered to General Gardenas, and is being taken to Mexico City to tell as he knows about the death of President Carranza, according to a message received by General Calles. General Calles has ordered all persons accompanying Carranza at the time of his death to be detained and questioned.

ROLLING STOCK DELIVERY.

BERLIN, May 27.
The Ministry of Transport announced yesterday, that delivery of five thousand locomotives to the Entente, in accordance with the Peace Treaty, had been completed.

CARGO SERVICE STOPPED.

LONDON, May 27.
The executives of the National Union of Railwaymen discussed in London, yesterday, the refusal of the Dublin railwaymen and dockers to handle munitions for English troops in Ireland. The Transport Workers Federation also considered the matter, although the interest of this organization is only indirect, as all the men up to the present involved, are members of the National Union of Railwaymen. It is uncertain how the discussion will affect the situation. In the meantime the determination of workers in Dublin, and some other Irish centres, not to handle munitions, is absolute and the munitions tangle has led to a complete stoppage of the cargo service of the London and Northwestern railway between England and Ireland.
