

How to Judge Tobacco

The True Test Lies Inside the Pipe—Not in the Pedigree, Says Mr. Krob.

In the following letter Mr. Krob points out that once we are past the infantile stage of "taking the watch apart to see what makes it run," we learn that true happiness is a matter of appreciation rather than of analysis. How do you feel about it?

Gentlemen: Most people who are buying Better Light look up at the fixtures we install and say, "That's wonderful," when they should not even be interested in the fixtures. They should look down at their desk-top or counter or work-bench, where they actually use the light. They always want to consider it "F.O.B." the lighting fixture, instead of "Delivered" to the working plane, where it is to be utilized.

Personally, that's the way I look at tobacco. Many manufacturers go into detail telling us where their product is raised, how it is blended, how long it is aged, and how well it is packed, and place this information before the public in their advertisements.

Why should we care whether tobacco is raised in the Sahara or on icebergs, whether it is a blend of "57 Varieties" or run-of-the-mine, or whether it comes packed in cork or cast-iron containers? I buy my tobacco because of the way it tastes in the pipe. That's why I use Edgeworth.

Sincerely yours,
K. M. KROB.

As the producers of Edgeworth we are of course vitally interested in its pedigree. We are absorbed in the blend of Edgeworth and in its curing—in every detail of its development. But all our work and experiment and study has but one object—that Edgeworth may prove its worth "Delivered"—Pipe.

And that's all we expect you to be interested in. aug23,1s,m,w

The Joint Committee

ON BILL "RESPECTING ALCOHOLIC LIQUORS."

OFFICIAL SYNOPSIS. The Committee of both Houses appointed to consider this measure met in the Legislative Council Chamber yesterday at three o'clock. All the members were present and Hon. Mr. Monroe was elected Chairman and Hon. Mr. Morine Secretary.

The Chairman made a brief introductory speech in which he explained the purpose of the meeting, and invited the views of those present.

After some discussion it was agreed by a vote of nine to three to approve of the principle that instead of prohibition the Law should provide for the sale of liquors as a beverage, subject to restrictions.

After further discussion, it was agreed by a vote of twelve to one, to consider the adoption at the present session of a Bill embodying this new principle unless reason should be shown later for deferring action thereon to the next session.

Later it was agreed to invite representatives of organizations which do not favour a measure along these lines to appear before the Committee to-morrow night and Saturday afternoon when their views in objection to such a bill would be heard.

Following upon this, Hon. Mr. Morine, who drafted the Bill submitted to the House of Assembly on Tuesday last, was invited to explain the details of that measure, and did so at some length. He prefaced his explanation by emphasizing that he was not responsible for the Bill, but that he merely drafted the Bill to carry out the views of the Government, in which declaration he was confirmed by Hon. Mr. Monroe and Hon. Sir John Crosbie. A summary of the provisions of the Bill is as follows:

It repeals the Prohibition Act at present on the Statute Book and on a day to be fixed by the Governor in Council, the Prohibition Act becomes non-effective, and this bill goes into effect at the same time, whereupon the Controller, under the present Act passes over all rights, property and effects of the Colony in his possession to the Board appointed under the new Bill.

The whole administration of the new Bill, as under the Quebec and Alberta Acts, is vested in a Board of three members. This board is given almost autocratic powers. It is independent of everybody except as to regulations respecting the keeping of its books, the rendering and auditing of its accounts, the condition and inventory of the goods it has on hand, etc. Otherwise it has practically complete power to purchase, import, possess and sell alcoholic liquors; lease or occupy buildings or land required for its operation; borrow sums of money, guarantee the payment thereof and interest thereon by the transfer or pledge of goods, etc., and issue, sign, endorse and accept cheques, promissory notes, bills of exchange and other negotiable instruments, these provisions being for the purpose of enabling it to import and handle its supplies of liquor. It also has powers to seize liquors, carry on prosecutions, and to appoint all its own officials. The Chairman of the Board shall hold office during good behaviour, and the other members shall be fixed by the Governor in Council. The Chairman's tenure is that enjoyed by the Judges, the Auditor General and one or two other officials. He is irremovable except for cause, and the object of this is to give him the independence it is felt he should possess to properly carry out his work. The other members can be dismissed like any civil servant. The combination is designed to harmonize the views of the two schools of thought in regard to the Board, one favouring absolute independence of the Government of the day, the other holding that the Board should be subject to the Government of the day. Broadly speaking, the Board is the "last word" in the administration of the Act. It institutes all proceedings for breaches of the Act, and these are tried before Magistrates only, and not before Justices of the Peace. Appeals can be taken only to the Supreme Court directly, and various legal processes available in other classes of action are specifically excluded in this enactment because they might hamper the Board's activities.

For the purpose of meeting the demands of the country for alcoholic liquors for beverage purposes, the Board is allowed to open three establishments in St. John's, that at present in existence to be the Head Office, and one each in the Eastern and Western Districts. Apart from this, other branches may be established in other parts of the Island, but only upon application by a majority of duly qualified electors. The Board is also allowed to open three establishments in St. John's, that at present in existence to be the Head Office, and one each in the Eastern and Western Districts. Apart from this, other branches may be established in other parts of the Island, but only upon application by a majority of duly qualified electors.

There are also extensive provisions for the issuing and withdrawing of permits; against the adulteration of liquor, and for facilitating manufacturers, etc., in obtaining supplies for their requirements. Important provisions for the issuing and withdrawing of permits; against the adulteration of liquor, and for facilitating manufacturers, etc., in obtaining supplies for their requirements.

It is claimed that this is the most favourable form of local option, because it makes impossible the establishing of any branch anywhere in the country, except in St. John's, unless a majority of the people ask for it. "Spirits" are unobtainable under the Bill anywhere except in the Government Sale Rooms, but provision is made whereby Wines and Beer can be sold for consumption with meals in trains, steamers and hotels, and for banquet purposes. Such liquor can only be sold by the bottle of spirits, Wine or Beer. The Bill provides that the maximum sale shall be one bottle per day, but there was a division of opinion among the members of the Committee as to this, and several expressed the view that it should not be more than a bottle a week. Further, alcoholic liquors sold in any of these Sale Rooms shall not be consumed therein. These provisions also apply to Wines as well as Spirits. Wines and Beer purchased on trains,

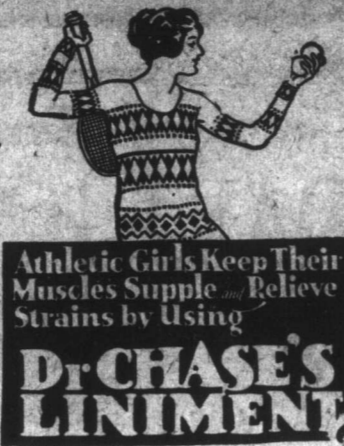

steamers or in hotels must not be taken from the table or used in the rooms. "Hotels" are defined by the Act as "a building provided with special accommodation to provide food and lodging for travellers, and where such accommodation is habitually furnished." It is however, probable that provision will be made by which no hotel with less than ten or twenty rooms shall be recognized. Permits, however, may be obtained from the Board for selling liquor in such trains, steamers, and hotels, and the Board will make its own regulations for this and every other feature of its activities.

Provisions are made whereby the Board may permit spirits or wine to be kept in ships going to sea, in fishing vessels or in logging camps, or by specially appointed persons in places where these branch stores do not exist. The object of these provisions is to cure the effects of the existing Prohibition law. Under that act, no vessel can take liquor and it has become necessary for years past to disregard the law and furnish ships with supplies for medicinal purposes. Similarly, in the remote outposts where there are no doctors, people suffered great hardship through inability to get liquor for medicinal purposes, or the Controller had to arrange in defiance of the law for supplies to be provided. The new provision is designed to make it possible for the Board to license Magistrates, Justices of the Peace, Constables, Clergymen or others, to carry adequate stocks for medicinal purposes only, but not for sale as beverages.

The Bill further provides that no alcoholic liquor shall be sold to any person under twenty-one—the present law says eighteen years—to any person already convicted of drunkenness, or offence caused by drunkenness, or to any person who habitually drinks alcoholic liquors to excess. Two "black lists" are provided under this Bill; the existing black list created by Sundry Magistrates, and another by the Board itself which can be applied to the relatives of any habitual drunkard, or that no liquor shall be sold to him in future.

Very full regulations are provided with reference to permits to hotel keepers and managers of banquets to keep and sell bottled wine or beer. There is also a provision whereby grocers can sell beer, it being suggested as a convenience for customers to order same with their groceries. Some members favored extending this so that grocers might sell wine in the same way, while other members of the Committee were opposed to the sale of alcoholic liquors by anybody except the Government Sale Rooms. Nowhere, either at the Government Sale Rooms, or elsewhere, can alcoholic liquors be drunk on the premises, except at hotels at meal times, or at banquets.

There are also extensive provisions for the issuing and withdrawing of permits; against the adulteration of liquor, and for facilitating manufacturers, etc., in obtaining supplies for their requirements. Wedding Bells

ROBINSON-ALLAN.

More than 100 relatives and friends from the Provinces, New York, Florida, Somerville and Swampscott, attended the reception that followed the marriage of Miss Isabel Beatrice Thompson Allan, daughter of Edmund H. Allan of Somerville, and Robert Bruce Robinson, son of Edward Robinson, 5 Lincoln Avenue, Lynn, Mass. The ceremony was performed at 8 o'clock Thursday evening (July 3rd), by Rev. Mr. Lawson of Amherst, N.S., the bridal couple standing beneath an arch and bell of white roses, from which a shower of rose petals was released at the conclusion of the ceremony. The bride was given away by her uncle, A. W. Allan. An orchestra concealed behind a bank of flowers played "Lohengrin's Wedding March." Miss Alice Ayres of Boston University, a cousin of the bride, was bridesmaid, and Floyd E. Robinson, a cousin of the groom, was best man. The bride's gown was of white tulle with a train of white tulle. Her veil was of orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. Her attendant's dress was of old rose crepe de chene and she carried a bouquet of sweet peas. A reception followed, after which the wedding supper was served. The ushers were Bernard and Gerald Robinson. The gift room that contained many useful and beautiful gifts, was in charge of Miss Mildred Ayres of Somerville and Miss Helen Allan of Lynn, and the guest book was in charge of Mrs. George H. Oulton of Swampscott. Mr. and Mrs. Robinson left for a motor trip through New Brunswick and Nova Scotia, the bride travelling in a brown brocade silk costume, with brown coat and a small brown hat. They will reside at Lynn, Mass. The bride is a granddaughter of Mrs. A. A. Thompson and the late Mr. Thompson, formerly of the Anglo Company, Heart's Content, Nfld. Mrs. A. A. Thompson of Mance Street, Montreal, attended the wedding.
