"Whatever there be between the two sations to forget and forgive is forgotten and forgiven. If the two peoples which are one be true to their duty, who can doubt that the destinies of the world are in their hands? Let America and England march in the van of freedom and progress showing the world not only a magnificen spectacle of human happiness, but a still more magnificent spectacle of two peoples united, loving righteousness and hating iniquity, inflexibly faithful to the principles of eternal justice, which are the unchanging Aw of God."-[Archdeacon Farrar, of St. Paul's Cathedral, London, Eng.

HOW IT GOES.

our esteemed local contemporary quite so excited in any previous election at so early a period in the campaign.

Whether all this warmth is simulated, or whether the idea is simply to draw a red herring across the scent, in either case it can hardly be said to look encouraging for Mr. Carling that such tactics should be

the Dominion, to work hard, to avoid recriminations, to keep a good-natured, yet keen and persistent campaign, and to avoid being side-tracked by irrelevant issues. Let an open door be kept for the hundreds of servatives everywhere who are quietly with us. Look up, not down; look forward, not behind; and lend a hand! Let men of light and leading and influence, whether they be rich or poor, take opportunities of quiet conversation to put the true issues of the great contest throughout Canada in their proper light. If every believer in Unrestricted Trade, every opponent of monopoly will make it his business to convert but one additional voter, the effect will be tremendous.

Appearances in all parts of the Dominion indicate that to-day fortnight Sir John Macdonald will have been notified by public opinion to step down and out.

It is a fallacy to assert, it is a false thing to assert, that Unrestricted Reciprocity will have any injurious effect upon British connection. Extracts are printed in newspapers from American journals, in which they affirm the opinion that Unrestricted Reciprocity will involve annexation, and I do not wonder that we find these statements when the Premier of the Dominion says so, when his Ministers say so, when his organs all over the country say so. When they have been saying all that for months, I do not wonder that the journals of foreign nations and the statesmen of foreign nations may believe them. We do not believe them. They are instrumental largely in making these statements themelves by their own disloyalty. (Hear, hear.)-[Premier Mowat at Toronto.

NEITHER WANT HIM. The London Free Press says:

"The St. Catharines Journal has turned a comersault because the Conservatives of Lincoln preferred the wideawake Star to it, and took the latter's advice in preference to that of the Journal." Our neighbor is already extracting sun-

beams from cucumbers. The Journal high taxation and a restricted market is ruining the industries of the country, and that Unrestricted Reciprocity is the one great necessity to revive confidence and give hope for the future. That is cera patriotic somersault for a that has been published in onservative interest for 34 years. But what does the Star say? It cannot find words to express its disgust with the choice made by the high tax party, and

choice made by the high tax party, and here is what it contends:

"The Star believes that this country has had enough of J. C. Rykert, and that the Conservative party has suffered enough from his corrupt practices—and that the loss of the county would be a cheap price to pay to get rid of him. Believing this, we consider we are working in the best interests of the party in offering the most determined opposition to Sylvester Neclon, the nominee and protege of J. C. Rykert, and who four years ago assisted Rykert with his influence to carry the county on the distinct understanding that when Rykert retired Neclon should be his successor."

the the people of this country are tired of the Rykerts, the McGreevys, the Tuppers, the Carlings, the Neelons and other self-are supporting Mr. Hyman are the backthe Carlings, the Neelons and other self-weilers, and it knows enough to stand from any v. The Free Press has less wisdom.

SIR JOHN MACDONALD'S LITTLE

Sir John's "revelation" respecting Mr. Farrer is likely to recoil on himself, for, if Mr. Farrer is an annexationist, he learned it while in Sir John's employ.

Mr. Farrer is not, and never was, edito Mr. Farrer is not, and never was, editor of the Globe, but simply a writer whose productions are inserted or not, like those of other contributors, according as the chief editor decides.

The editor in shief of the Globe is Mr. 7. S. Willison, who succeeded Mr. John Cameron in that position.

The fact that the Premier of Canada has no better answer to those who deposes to the contribution.

Mr. Farrer is a free lance.

o better answer to those who demonstrate the failure of the high tax policy than to ciate who makes his living in a private capacity by his pen, and whose services the Dominion Premier within a few months endeavored to secure, is a significant indica tion of the exhaustion of those mental resources upon which Sir John Macdonald once prided himself.

-The St. Catharines Journal, for ove 10 years the organ of the Conservative party in Lincoln, is now fighting strongly for the Liberal policy of unrestricted reciprocity as the one thing needful to the prosperity of Canada.

THE PATRONS OF INDUSTRY.

as Patrons of Industry? Why are they buying goods wholesale, and going into co perative buying and distribution?

Because they have grown tired of the extortions of the Combines. These movements of the farmers seen likely to cause some temporary diversion of

gainst free trade in England than there is of a reaction against the rule of three .-[Justin McCarthy in "A History of Our Own Times."

SIR CHARLES TUPPER. Sir Charles Tupper is an officer in the public service, and for him to leave his office in London to engage in political campaigning work is as unseemly as the same onduct would be on the part of any officer or clerk in one of the Government departments at Ottawa. He is paid a handsome salary to represent Canada in England, no less a sum than \$10,000 a year. He has a free house, bought and paid for at the cost of the people of Canada. It has been furnished from garret to cellar at the cost of the people of Canada. All his silver, his china, his cut-glass ware, every decoration of his table, have been provided at the cost of the people of Canada. Nay, more, his very taxes are paid by the people of Canada.

Yet this Knight Commander of the Bath deems it honorable to come to Canada at the bidding of his master, Sir John Mac-donald, and take a public and an active part in the work of the general elections, flying by special trains carried at the cost of the people of Canada from one end of the country to the other and doing his utmost to persuade the people to believe in a policy of humbug! Sir Charles Tupper is himself a believer in the policy of Unrestricted Reciprocity. He was prepared to offer it when conducting negotiations at Washing ington three years ago, but appears to have been restrained by his master. He has often since then expressed approval of that policy to friends in England. He would adopt it to-morrow if he was his own master. But there is his great weakness, and like a spaniel he leaps to do Sir John Macdonald's bidding, no matter how painful the act may be to his own feelings.

We shall make good the \$4,000,000 or \$5,000,000 without either increasing the duty on English goods or imposing direct taxation on our municipal institutions .-[Hon. Oliver Mowat.

A TOTAL FAILURE.

"Without the National Policy," said Mr. G. R. Bent, pianoforte and organ manufacturer, St. John, N.B., "my business would be entirely cleaned out. Without the N. P. the surplus products of the United States would be brought here and slaughtered." Well, under the N. P. Mr. Bent "cleaned out" his business and sought the sunny regions of California.

Many and many a high tax advocate has followed suit. The independent manufacturers remain, and will work and vote for Unrestricted Reciprocity. The whole thing has been a failure except in so far as

it has nurtured combines and diverted capital into brick, lime and machinery that is now standing idle.

If Macdonald and Tupper will come around to us when they reach London we will take them out to see several

nelancholy monuments of their policy.

We need a change and that immediately Mr. Carling tells us that we cannot have it; he says the policy of his friends is "the old policy." It is an old fraud, and all Tupper's rant cannot change the facts.

THE TORY POLICY. The Old Man, the Old Flag, the Old Policy, the Old Voters' List.

HOW ONE FARMER WAS ROBBED. suffering for want of a better market is better than a column of Tory vaporings as to the prosperity of the country. Mr. Frey, a farmer in Brant county, was offered by Mr. Heer, of Buffalo, \$150 for a horse

delivered in Brantford, of \$210 in Buffale.

The farmer wanted the bigger price; for course, but found that while the freight on the animal was only \$8, the duty was nearly \$50, and he took the \$150 as being the better offer. And this incident is being repeated daily in a thousand forms.

No wonder the farmers of Canada are roused as they never were before, and de termined to protect themselves, if possible, from further robbery by the Red Parlor rigade.

+++ -The Free Press should not be so childish and unprofessional as to accuse the ADVER-TISER of desiring to either mutilate or evade Mr. John McClary's letters. The Adveristic standpoint, what has our contemporary to gain by toadying to Mr. McClary or to anybody else? It is but few years ago— after the N. In Galway Jail.

Dublin, Feb. 19.—William O'Brien and John Dillon were transferred to Galway jail at daylight this morning. The inhabitants of Loughreay got wind of the intended transfer and assembled in crowds at the Tipperary railroad station and enthusiastically cheered the members of Parliament as the latter's train stopped for a few moments in their midst. Messrs. O'Brien and Dillon will complete their sentence in Galway jail.

THE TUPPER FAMILY.

Why Sir Charles Tupper Works Hard to Keep His High Tax Friends in Power

le Fattening at the Expense of the Canadian People.

The Auditor General is a servent of the Dodinion Government and he examines the account of the creditors of the Government bill by bill. Below will be found a summary from his report of the moneys paid to Sir Charles Tupper and his family in the year 1888-89. The report for 1889-90 has been prepared and printed, but it is held back by the high tax leaders, because it is deemed against their interests to make known the contents to the people at this time. It is, however, believed that the Tupper family last year received an even greater. a summary from his report of the moneys last year received an even greater slice of public money than in any previous twelve-months. A change of Government would compel the Tuppers and many other high tax advocates to make a living for themselves, greatly to the benefit of the people who have to pay these expensive luxuries. Hence the great anxiety of Sir Charles Tupper to preven Reciprocity party, and his earnest protes-tations that one-half the people (who take a different view from him) are traitors and nnexationists. But to the record.
