

# W. H. HEWLETT GIVES FINE ORGAN RECITAL

Music Lovers Appreciative of Program in First Presbyterian Church.

The music lovers of London turned out in large numbers last evening to the First Presbyterian Church to hear W. H. Hewlett of Hamilton, at one time a well-known musician of this city, give an organ recital under the auspices of the London Organists' Club. His program recalled other delightful organ programs given here some years ago, when Mr. Hewlett's organ recitals were big events of the year. Beginning with the "Prelude and Fugue" in E minor (Bach), and concluding with the brilliant "Toccata in F" by Thomas J. Crawford, the organ numbers were a succession of delightful moments. Assisting Mr. Hewlett was Mrs. Harold Hamilton, a soprano with a powerful and rich voice.

"Marche Russe" (Schwinke) was an organ number which was played with brilliancy, its majestic and triumphal ending filling the whole church with "glorious" sound. "Scherzo Caprice" (Bernard), was another big number, but in lighter vein. Bernard Johnson's "Aubade" and "Pavane" were also de-

lightful numbers, as were "Humoristique" (Tschakowsky) and "Sour Mouque" (Couperin). Each number on the program was a happy selection. Some beautiful songs were rendered by Mrs. Harold Hamilton, not the least beautiful of which were "God's Garden" (Lambert) and "A Ballad of Trees and the Master" (Chadwick) sung with dramatic force. Mrs. Hamilton's voice is rich and full, admirably well adapted to sacred songs. Her other numbers were "I Moura as a Dove" (Benedict) and "A Burst of Song" (Allitsen).

## HOSPITAL REQUIRES 2,500 TONS OF COAL

Victoria Board of Trustees Awards Contract for Annual Supply.

Tenders for coal for the ensuing year were received by the board of trustees of the Victoria Hospital at a meeting held on Thursday. The contract was let to W. Woollett & Sons, the lowest bidder. It is estimated that 2,500 tons will be burned at the hospital throughout the year.

The house committee was authorized to make preparations for graduating day. On May 11, 23 nurses who will have completed three years' training will receive diplomas.

During the month of March 400 changes were made among the patients of the hospital. Of these, 123 were admitted to the institution while 423 were discharged. The births numbered seventeen, exceeding the number of deaths by one. In the out-door department 224 were treated.

The cash receipts for the month totalled \$14,555.99. Accounts for \$24,550 were paid.

# MAY RECOVER \$1,250,000 FROM DIRECTORS OF BANK, SAYS U. S. COURT

SPRINGFIELD, Ill., April 21.—Recovery of \$1,250,000, the capital and surplus of the defunct LaSalle Street Trust and Savings Bank of Chicago from the bank's former board of directors, including the non-active directors, was provided for today in a decision by the state supreme court.

## TWO FINANCIAL BILLS PASSED.

OTTAWA, April 21.—(By Canadian Press.)—The standing committee on banking and commerce this morning passed a bill to incorporate the North American Trust Company of Canada, with initial capital of \$1,000,000. This had been held back on account of objections to the name of the company. The next bill discussed referred to the Credit Foncier Franco-Canadien. This loan company was instituted in 1818, and had only provincial rights at first. These were extended by federal act to cover the Dominion. It was ascertained that the special federal act controlling this company limits interest to 8 per cent, and the company wished to be able to charge the higher rate allowed in some of the provinces. In competition with other loan companies, the bill was carried.

# MUST HAVE SENSE OF PROPORTION, SAYS PREMIER DRURY

Declared Other Educational Institutions Besides Universities Need Some Financial Aid.

TORONTO, April 21.—Two things the province must remember in deciding upon a policy of aid to universities, Premier Drury told the Legislature today in discussing the university estimates. One was the financial ability of the province to pay. The other was a due sense of proportion between the universities and other educational institutions that needed support as well as universities.

"There are a great many people in Ontario who never have, and who cannot see the inside of a university, and we must meet the educational needs of Ontario in a manner to give due regard to all."

Dr. Hugh Stevenson of London said that the Government had done right in making the grant it had to Western University. He thought that it would become the provincial university in a short time for the western part of the province. It cost the citizens of London \$175 a head to keep the Western University going. If the citizens of Toronto duplicated that, he said, they would be providing \$600,000 to \$700,000 a year.

Dr. Stevenson did not approve of the succession duties as the basis of financial aid for the universities. There was a probability they would decrease in the future, he said, particularly in view of the increasing scale of taxation. He criticised the apparent failure in the past of universities, and said that people went to correspondence schools and earned more money than graduates of universities.

"The universities should reach out and get hold of these people," he said. He praised the extension course of the University of Toronto, but thought that the people who got the benefit of it were entitled to it. He prophesied the time when a big university in the North Country would be necessary to take care of educational needs of the people of that section of Ontario.

Mr. H. H. Dewar said that Western and Queen's Universities with larger endowments could give the same education as that given in the University of Toronto. He agreed that succession duties was the proper basis upon which money should be granted to universities.

# OFFERED JUDGESHIP

It is stated in London that Sir Edward Carson has been offered an appointment as an English judge. The Unionist Irish leader is expected to accept the appointment.

# SINN FEIN WOULD KEEP YOUNG MEN IN EMERALD ISLE

Recent Order by Republican Parliament Directed To This Purpose.

DUBLIN, April 21.—The decree just issued by the "Irish Republican Parliament," prohibiting emigration from Ireland, "without permission from the proper authorities," although it is directed against all emigration, was directly occasioned by the heavy increase in emigration to the United States so far this year, it was declared here today. The numbers of Irishmen applying at the United States consulates in Belfast, Dublin and Queenstown for visas have been so great recently that the consulates' staffs have been working to the limit to keep up with the demand. At Queenstown police assistance was required to regulate the lines that formed outside, and to enforce the arrangement that twenty persons only should be admitted at one time.

A considerable proportion of the migration has been of young women.

# WORK OF INCENDIARIES.

CORK, April 21.—An attempt was made Wednesday night to burn the residence of the Most Rev. M. Fogarty, lord bishop of Killarney, Ennis. The front of the house was well ablaze when the fire was discovered and extinguished. A petrol-soaked cloth lay near the front door. Five men were seen fleeing. Two of them were arrested. A neighboring residence was burned to the ground shortly before the bishop's house was set on fire.

# THREE ARE KILLED.

DUBLIN, April 21.—A former soldier, John Reilly, was taken from his home by armed men last night and shot dead on the road at Ballycar. One civilian was killed and another wounded when the party of which they were members was discovered by military patrol in the act of destroying a bridge on the Charleville road, County Cork, today. The military suffered no casualties.

The Burtonport railway has been closed because of repeated train hold-ups along the line. During the course of last night every station of the road was raided, and all goods found were carried away or burned.

# LONDON'S LUNATICS FEWER AFTER WAR

New Low Record Since 1892 Is 25,000, Showing Increase in Mental Health.

LONDON, April 21.—There are fewer lunatics, but more worries in England than before the war, according to an encyclopaedia published by the London County Council recording everything pertaining to social, industrial and municipal life. It is the first appearance of the book since pre-war days.

The war conspicuously increased the mental health of London. Since the beginning of 1915 the number of lunatics dropped from 21,000 to 25,000 in 1919, establishing a low record since 1892.

Blacks and Jews were blamed for the war, and the London County Council recording everything pertaining to social, industrial and municipal life. It is the first appearance of the book since pre-war days.

The war conspicuously increased the mental health of London. Since the beginning of 1915 the number of lunatics dropped from 21,000 to 25,000 in 1919, establishing a low record since 1892.

# Minister de l'Agriculture de la Province de Quebec

Service de l'horticulture. Quebec, le 6 Avril, 1921

Messrs. Tilbury Brick and Tile Co., Ltd. Tilbury, Ont.

Gentlemen:— I acknowledge receipt of your shipment of 25,000 four inch tile which reached Portneuf last week.

Allow me to congratulate you on the way these goods were loaded on the cars. If we keep in mind the distance existing between Tilbury and Portneuf, it is surprising to note that out of a total of 25,000 tiles only 170 were broken. This testifies highly in favour of your factory, the quality of your tile and the care taken in view of protecting same.

I am having your account settled at once....

Thanking you for your prompt attention in this matter, I am,

Yours truly, (Signed) J. H. Lavoie, Chief of the Horticultural Service.

JHL/IM

Portneuf is situated 137 miles northeast of Montreal, and is 670 miles from Tilbury. The freight rate is nearly as great as the cost of the tile at Tilbury.

Cars shipped to Portneuf were switched at least five times. It takes exceptionally good ware to stand this strain.

Ontario Agricultural College tests show that "Tilbury Tile" stand greatest breaking strain, and are unexcelled in all other tests.

Buy "TILBURY TILE." THE TILBURY BRICK & TILE COMPANY, LTD. TILBURY, ONT.

# The Crowning Millinery Event of the Season!

A Sale of Over 600 TRIMMED and TAILORED HATS \$2.85

We secured them at a price that enables us to place them on sale at less than wholesale cost. Every hat in this lot worth from \$4.00 to \$10.00. On sale tomorrow, Saturday only at \$2.85. See them in our window today, and we positively advise you to be here early Saturday morning.

Just arrived, 600 late Spring and new summer Tailored and Trimmed Hats of unusual character and quality, specially purchased for this event from high-class makers, who supply us with our Millinery.

## Royal Millinery & Fur Co.

246 Dundas Street

# The Magnet That Draws the Crowds

Day in and day out we offer the people of London the choicest Meats at rock-bottom prices.

## 7 Reasons Why You Should Deal Here

- 1—Our cattle, hogs, lambs and calves are fresh killed daily in our own abattoir at Hyde Park.
- 2—You are absolutely assured of no cold storage meats.
- 3—We feed the most of our stock before slaughtering, thus you are assured of getting only the meats which we feed right.
- 4—Our meats are chilled right and cooled right, being in only two different temperatures before going over the block.
- 5—Our packing house is right here in London, employs London men and enjoys the reputation of turning out the finest bacon in the province.
- 6—Our volume of business means lower operating cost, therefore we can sell cheaper to you.
- 7—Our new fleet of delivery cars is now on the road and waiting to take care of your trade.

# U. S. COURT PHRASE USED WORLD OVER

"And It Is So Ordered" Near to Absolute Finality.

WASHINGTON, April 21.—The phrase "and it is so ordered," with which so many decisions of the United States Supreme Court are concluded, is accepted by the legal profession, not only of the United States, but of the world, as the nearest approach there is to absolute finality.

Petitions for rehearing of cases are not infrequently occupying much the same position in practice before the supreme court that the routine motion for a new trial does in the county or city courts, but on occasions on which the supreme court has granted such petitions are so rare that the exceptions are historical.

Necessity of bringing a legal dispute to a close at some point is said to have influenced the policy of the court in this regard. A policy which has stood since the days of Chief Justice Marshall. A secondary consideration is the fact that the court is always 18 months to two years behind its calendar, and unless optimistic attorneys were curbed, much of the most trivial "cause" might be prolonged almost indefinitely.

Only two clear-cut cases in which the court has agreed to reconsider its formal decision are recalled by veteran attaches. The most famous was the appearance of the late Gen. Benjamin F. Butler as a "friend of the court" to point out what he thought was a palpable error in the judgment given in American Emigrant Company vs. Adams County, Iowa. The story is told that Gen. Butler himself hesitated to take up the question of a rehearing, especially since the formal motion had been denied, but upon reading the record in the case he determined that the highest American court should not be permitted to rest under the false construction it had promulgated.

"If your honors will read my brief, I am certain you will be inclined to thank me," he is said to have replied when the bench called his attention to the violation of practice—if not of clear ethics—he was making.

The court read the brief and voluntarily reversed itself.

The second outstanding incident was that of the original suits over the federal income tax, heard in 1895. The first judgment upheld the act partially, but declared it invalid in respect to certain important classes of property. Wm. C. D. Guthrie of counsel for the interests fighting the statute presented a petition for rehearing, although his associates are said to have argued strongly that "he let well enough alone."

"To their surprise the court granted the rehearing and finally reversed itself in part by declaring the entire act unconstitutional. It was this decision which led directly to enactment of the sixteenth amendment, giving congress the power to levy a tax on all income, no matter from what source derived. The amendment did away with the constitutional question which forbade the imposition of a direct tax unless it was apportioned in each state according to population.

The rule of the court on rehearings, as stated by Chief Justice Taft in 1901, is simple. No rehearing would be granted, he said, "unless a justice who voted for the judgment votes for the rehearing of it."

# SAYS SPOTS ON SUN ARE ALWAYS THERE

French Astronomer Tells of Discovery in Connection With Recent Eclipse.

CHANGTEH, Honan, April 21.—That made a lot of discoveries last week, when the moon during two hours eclipsed more than three-fourths of the sun's surface, the chief discovery being that of M. Moreux, an astronomer at Bourges, who reported to the French Academy that sun spots which heretofore have been considered occasional phenomena are always existent, but are observable for scientists of the world only under special atmospheric conditions.

Another astronomer, M. Violle, says that the eclipse was accompanied by definite changes in the electrical conditions surrounding the earth, and he is working on extensive calculations which are designed to show that there was considerable potential diminution during the height of the phenomenon, while one of his colleagues, M. Mascard, of the Lyons Observatory, is working out calculations in connection with the variations of light vibrations, which, it is believed, will be most useful to mathematicians.

M. Nordmann, a mathematician, who gained fame during the war as a result of his calculation of the distance of enemy guns by recording the vibrations following shell explosions, has now concentrated his attention on the mysterious Betelgeuse, which, he says, he is confident has a diameter 300 times greater than that of the sun.

# PREMIER GOING OVERSEAS.

OTTAWA, April 21.—The Citizen today publishes the following: "Right Hon. Arthur Meighen and Hon. C. C. Ballantyne, minister of marine and naval service, have booked their passage for England on June 2, though the premier's departure is somewhat contingent on whether the parliamentary session is wound up by that time.

"Preliminary to his going, there is to be a full discussion in the House on the agenda of the conference, including the naval question, the Anglo-Japanese

# PARIS WINE PRICES DROP; WATER SCARCE

Fair Quality of Vin Ordinaire Only a Franc.

PARIS, April 21.—A special provision must be watching over Paris is the interest of the thirst of its people. Simultaneously with the news that the capital's drinking water reservoirs are threatened with unprecedented depletion this summer, comes the assurance that wines of all kinds will be more plentiful and cheaper than since 1910, when a bottle of ordinary red Bordeaux was obtainable for 40 centimes (8 cents then). Nevertheless, Paris officials are preparing for filtration of the Seine water if this supply does not arrive, although the Seine product, even when subjected to latest processes, invariably retains an objectionable taste and odor.

An old French adage suggests that when it thunders in April it is time to get the terrace ready for the wine crop. It thundered twice during the first week this month, and promptly the retail prices of vin ordinaire from Bordeaux dropped as much as 75 centimes a litre, and in Paris the majority of retailers are now selling a fair quality for less than a franc a litre.

On the other hand, this condition may be taken as a warning by Germany, as plentiful wine means that the cantons of the soldiers will be filled to overflowing with their favorite Pinard, which was admittedly one of the best methods of maintaining the solidarity and morale of the French divisions during the war.

# MAY POSTPONE IRISH ELECTIONS.

LONDON, April 21.—The cabinet today discussed a request from Ireland for postponement of elections to the Southern Parliament. No decision was reached, and the matter will again be considered Thursday.

Mr. Lloyd George admitted in the House of Commons at today's session that the question was under consideration. If it were decided to postpone the elections he said the House would be given an opportunity to discuss the subject.

# FOXHOUNDS FOR TORONTO.

MONTREAL, April 21.—The first shipment of foxhounds to be sent from the old country to Canada since the war passed through Montreal this morning en route from Waterford, Ireland, to Toronto, where they will augment the pack of George W. Beadmore, master of foxhounds in the Queen City.

The dogs, sixteen in number, arrived at St. John aboard the Melita from Liverpool Tuesday night.
