But while awaiting fuller developments Although the water has not been so high on this creek for many a year, the miners have been working all eeason by hydraulic process on the bill sides, and generally doing well. The Nip and Tuck has been paying better than at any time since the commencement. Several other companies are doing well. The Price co arrived safely and have opened up an extensive claim below the town, formerly owned by Dove & Oe, and said to be one of the heat claims on there is one feature of the case which would appear to invite remark, and to it we may be permitted to direct attention for a little. Talking about the fifteenth section reminds one of the Fifteenth Amendment to the United States Constitution, which whilst crossing a log to his claim, on the 2d June. The body had not been found at latest has recently formed the subject of so much attention in the neighboring country; and it might be considered not A hat and some clothing were found on a drift country; and it might be considered not altogether neworthy of remark that our fifteenth section, like their Fifteenth Amendment, concerns the constitutional liberties and political rights of the peo-liberties to which we allode liberties and political rights of the peo-ple. The section to which we allude reads as follows: -- 'The Constitution of Colville and Spokane. Wood Wood

The blows: —'The Constitution of the Executive authority and of the Leg-islature of British Columbia shall, sub-ject to the provisions of 'The British North America Act, 1867,' continue as existing at the time of Union, until al-tered under the authority of the said Act.' In order to a proper understanding of this section it must be read in the light of the message with which the last Session of the Legislative Council was opened. It will be remembered that in the message in question His Excellency the Governor intimated that he had applied to Her Msjesty's Grovernment for power to make certain constitutional changes in the Legislative branch, by which the people would be entitled to elect a ma-jority of the members of that body. It was the people would be entitled to elect a ma-jority of the members of that body. It was intimated, at the same time, that the unoffi-cial element in the Executive would be increased. It was with the new constitution, the principal outlines of which were thus the principal outlines of which were thus dimly foreshadowed, that the fifteenth sec-tion proposed to carry the colony into the Dominion. Very decided exception was taken to such a proposition by the Liberal section of the Council, and a debate arose thereon which occupied three days. The position taken by the official members, fol-lowed by three of the representative mem-taken to such a such a substantially key loss of the representative mem-taken to such a proposition by the Liberal section of the Council, and a debate arose thereon which occupied three days. OPEN THE GATES .- There are upwards of 150 Chinese engaged steadily in mining in the 150 Ohinese engaged steadily in mining in the Kootenay country, chiefly on Wild Horse creek. Were the trail between Fort Shepe herd and Kootenay made passable the entire Ohinese trade of that region would be secured to this colony, instead of being entirely lost, as is the case now. Why the Chinese trade in particular? Because the Ohinese packer can not navigate through the American territory not navigate through the American territory as others do. Our European packers make the necessary detour through American territory, giving bonds for goods and animals; whereas John Chinaman's bonds are at a discount and he has to 'come down with the persimmons' every time, thus rendering the Chinese trade an impossibility.

MELANCHOLY OCCURRENCE ON BOARD H.M.S. ZEALOUS:-On Tuesday last, whilst the flagship Zealous lay at anchor at Frasermouth, the Zealous lay at anchor at Frasermouth, the Marines engaged in target practice, and as one of their number, named Walter Watty, was about to step forward to fire at the target, his foot caught in a coil of rope, causing him to trip, when his weapon, which was at full cock. went off and the ball passed through his head entering near the left temple and coming out behind. The top of the poor man's head was blown off. He lived about an hour thereaffter. The remains were brought to Esquimalt and the Old Testament history is observable on this occasion, All the houses in the district belonging to this temple had a blood-red paper pasted on the decropet.
