BAN ON EXPORT OF HANDSOME SILVER PULP WOOD NOT LIKED

Uncle Sam Will Endeavor to Retaliate By Increasing Pulp Duty.

AMENDMENT IN SENATE

A Washington despatch to the Boston Transcript says—
This country will be prepared to meet the move made by Canada looking to the prohibition of the exportation of her logs into the United States, if the amendment suggested by the Committee on Finance to the wood pulp paragraph of the tariff bill shall be agreed to. As soon as the Senate had for the time disposed of the income tax question at the beginning of today's session, Senator Aldrich presented the committee's amendment on pulp. The House bill provides a graduated scale of duty for the various kinds of pulp when imported from countries making an export charge but admits free of duty mechanically ground pulp coming from a country in which no charge is made. The Senate substitute accepted the House provisions, but adds a proviso, intended to be a response to the recently announced decision of Canada not to permit the further exportation of logs from that country, the evident intention being to compel the manufacture of such logs in the region of their origin. Following is the text of the committee's proviso:

That in case any country, dependency, province or sub-division thereof, shall forbid directly or indirectly the exportation of any wood pulp, logs or wood for use in the manufacture of wood pulp, an additional duty equal to the rates of duties imposed by this paragraph upon wood pulp shall be imposed upon any wood pulp imported from such a country or dependency.

The amendment was not pressed at the time it was presented as several senators expressed a desire for time to give it consideration before voting on it. Senator Clapp briefly expressed the opinion that the retaliatory restrictions proposed by the amendment would unfavorably affect the United States by causing a higher price of paper. Mr. Aldrich declared that the provision was only intended to apply a higher duty on paper exported from Canada to the United States in case that country should forbid the exportation of logs and wood pulp. "We simply say to the people of Canada," he said, "if you refuse to allow logs or wood pulp to be sent to the United States and still would send the products of them here you will have to pay a little higher duty."

CUP HAS ARRIVED

Valuable Trophy Given For Citizens For Marathon Race Now Here.

OTHER PRIZES.

The handsome silver cup, the trophy for the men's five mile Marathon race, donated by Messrs. Max M. Mowat, A. E. O. McKenna, Donald McKeith and A. D. MacKendrick, has arrived and is now on exhibition at Mr. C. F. Clark's window. It is a beautiful piece of workmanship and well worth the best efforts of any runner to win.

Besides the many valuable prizes and medals already announced, Thomas MacKendrick, Esq., has placed in chairman MacKendrick's hands \$20.00 to be used as the committee think best.

At a committee meeting Wednesday evening it was decided to offer a penicillin for the winner in the Motor boat race.

The parade gives every promise of being a great success. It is extremely difficult to procure a horse and wagon, and any person having pairs of horses, with heavy truck wagons or sleighs to hire should notify the chairman, A. D. MacKendrick, at once.

All committees are working harmoniously and things are about in shape for the demonstration.

Already there are a number of outside entries in the road race, and field sports and these events will be the best ever witnessed on the North Shore.

The Citizens' Band of Chatham, has been engaged to assist in furnishing music, and several St. John pipers will also be here.

The Campbellton Firemen have ordered new uniforms and will make their first appearance on Dominion Day.

Only four days more and yet the street commissioner has not commenced putting the streets in shape. There is a large amount of work for this department to accomplish and it is hoped it will be done in a thorough manner.

Dalhousie Train
Arrangements are being made to have the Dalhousie branch train leave Campbellton about eight o'clock, so as to accommodate the large number of people from Dalhousie and intermediate points.

JACQUET RIVER IS GROWING RAPIDLY

New Industries Have Caused A Boom In This Progressive Village.

NEW BUILDINGS.

Jacquet River is taking on the bustle and push of a fair sized town and visitors who have been there for a year or more are surprised at the signs of progress and activity there.

At the present time a large number of houses and other buildings are being erected, and already there are two banks, many general stores, two jewelry stores and a butcher located there.

The Royal Bank of Canada is erecting a fine office building to be occupied by themselves.

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep for sale.

NO TRACE OF MISSING CHINAMAN
NEW YORK, June 24—If the statement made by Chung Sing last night accusing Leon Ling of having killed Elsie Seigel has given the authorities any tangible clue to the hiding place of the Chinaman, it has not yet resulted in a mystery.

TAKING THE CENSUS
For some time the police have been busy taking the census of the dogs in town. They are about through and find that there are about 175 dogs and owners. Of these seventy five were on the list last year, or an increase of one hundred in a year. If the increase keeps up Campbellton will be a fine place for dogs, but as all owners have to pay a dog license, it is likely that next year will show a decrease as some of the animals are not worth thirty cents. The license fee is \$1.00.

ACCIDENTALLY SHOT
QUEBEC, June 24—A young man named Beaumont, of St. Raymond Port Neuf county, employed on the National Transcontinental Railway in the vicinity of Herby Junction, was accidentally shot by a roommate yesterday and killed.

ANOTHER COMPANY LEAVES BOARD OF UNDERWRITERS
Rimouski Fire Insurance Company the last to Declare Itself Non-Tariff

It has been announced that the Rimouski Fire Insurance Co., which has been a member of the New Brunswick Board of Fire Underwriters since doing business in this province, has given notice of its withdrawal and will in future conduct its business here as a separate company, although a tariff company elsewhere.

H. B. Anslow has been appointed local agent for this company and all cord for prompt satisfactory settlements and fair treatment of both agents and customers has made it very popular with the insurance public. The Rimouski Old and True, established in 1878, is one of the strongest Canadian companies. (Being a member of the board or not has no effect whatever upon the financial strength of any company.) Its new business and renewals should come through him. Write or call for rates and save at least 10 p. c. of the premiums.

THE MYSTERY OF THE DEATH OF ELSIE SEIGEL
Many New Developments in the Case But the Murder is Still Among The Missing.

THREATENING LETTERS.

NEW YORK, June 24—Rumors and conjectures as to the whereabouts of Leon Ling, who is sought by the detectives in charge of the Elsie Seigel case, continuing in abundance today. While District Attorney Jerome considers this case extremely simple, there are many who look upon it as one of the most mysterious ever brought to light. The theory of Quig Vick Wren, that the girl had died from an overdose of chloroform administered by Leon cannot be confirmed, in the hands of the chief, which his roommate, Chung Sing, declares he saw over her mouth, has disappeared. The finding of the two letters written by Leon to Chu Gai, whom he regarded as his rival in the affections of the Seigel girl, in which Leon threatens the life of both Chu Gai and the young woman, is the best evidence obtainable as yet to show the motive of the case. The actual text of these letters has not been revealed, but it is known that in them Chu Gai is threatened with violent death unless he discontinues his attentions to Miss Seigel. Chu Gai has also said that his own brother brought him oral warning emanating from Leon that he must cease his visits at the Seigel home and that on one occasion when he called at the home of the young woman, Leon, who was already there, left the house in a passion.

FRENCH NAVY IS IN A ROTTEN STATE
Parliamentary Commission Finds Gens on Battleship Obsolete.

NO AMMUNITION.

PARIS, June 22—The report of the parliamentary commission which investigated the naval scandal in France has been turned in. It is a scathing condemnation of the naval administration for the past ten years and it makes an astounding exposure of the deplorable condition of the fleet for which France has spent \$700,000,000 since 1895.

The 350 pages of the report are filled with details of the inefficiency, resulting from confusion and red tape, conditions that make French naval construction cost twenty five per cent more than English or German. As an evidence of these methods it is pointed out that cast iron shells of large caliber, condemned after the accident to the battleship Iena, continued to be manufactured in larger quantities than ever for two whole years. The Patrie, the Republic and other ships of this class were found equipped with secondary guns of a model of 1885 instead of 1902 as the specifications required. Neither the ammunition nor the guns for the six ships of the Danton type, to be completed in 1912, will be ready before 1914 and France has not a single dry dock capable of accommodating these vessels when they are finished.

Perhaps the gravest feature of the exposure is the lack of reserve coal and ammunition supplies at the various ports and arsenals. One officer testified before the commission that at the end of a naval battle of six hours he should find it impossible to replenish and would be virtually out of commission.

The commission recommends the complete reorganization of the department, the elimination of red tape and the distribution of responsibility. It insists especially upon the creation of a department of construction, and equipment, entirely separate from the general staff.

AT DALHOUSIE LAST NIGHT

Most Enjoyable Entertainment Given By Pupils of Institution.

PRIZES PRESENTED.

DALHOUSIE, June 24—The distribution of prizes which took place at the convent school this week brought out the fact that, in the near future, in order to meet the demand, a very large addition will have to be made to the building. It is said that a wing measuring sixty feet will be needed for all purposes for the proper care of the boys and girls. A large chapel is required the present hall being strictly too small for entertainments and the new wing will provide the chapel, amusement hall, dormitory for boys, etc.

The school year at the convent school closes this week with a musical and dramatic concert which drew a large audience last evening. The proceeds amounted to \$64. The affair will be repeated tonight.

The acting by the pupils was very good and they were frequently applauded. Special mention should be given about the dramatic impression made by Miss E. Roy of Campbellton, who took the part of Elizabeth, Countess of Thuringia, in the drama, entitled "St. Elizabeth of Thuringia, or the Miracle of Roses." Miss Marie LeBlanc, P. Delaney and Lottie Arsenault took their parts well.

The following is the programme of the concert:

J. & A. CHILDS BROKEN INTO MONDAY

Tramp Supposed to Have Helped Himself to New Outfit.

MENS CLOTHES TAKEN.

Tuesday morning when the clerk opened up Messrs. J. & A. Childs' store at Jacques River he found that some one had been there before him, and had evidently helped himself to a new outfit of men's furnishings. The clerk was disturbed except clothing and necessary goods for an outfit, and the robbery displayed a taste in choosing, and seemed to be a large number of men's old-fashioned frocks waiting what he required.

The counter was piled with goods taken from the shelves, but very little was missing.

A number of tramps were seen in the vicinity Monday, but as yet no streets have been made.

DRUNKEN ON DRIVE
QUEBEC, June 24—Octave Savard, while driving logs at the top of the River-Apierre yesterday, fell into the water and was drowned. He was about forty-six years. An inquest will be held.

Act V—Hall in Castle.
God Save the King.
The distribution of prizes at the public school will take place shortly. Considerable interest has been taken in the new idea started last year of having prizes offered to the pupils preparing the best paper in the town of Dalhousie.

The prizes will be presented for the work done by several other prizes for other branches. It is expected that there will be a large attendance at the closing ceremony of the Dalhousie Superior School.

What is the Town Council of Dalhousie going to do to aid comfort to the poor families who have to depend on our poor law for existence. It is impossible for these old people to spend another winter in the wretched building they are living in at the present time. The place is unfit for habitation. The rats are a pest and it is to sustain the poor of the town and all right thinking people expect to see these old people decently looked after. Dr. A. O. Ferguson was re-elected Trustee for the town school district and Mr. Daniel McDonald re-elected auditor. The finances of the district are in good condition.

There will be a large number of strangers in Dalhousie this summer. If one can judge from the applications received so far for rooms at the Inch Arran House.

Now is the time for our citizens to give the town a nice appearance. A little cleaning up, paint and whitewash a few flat roofs put up, the hills and sidewalks repaired, dumping ground debris removed from sight, etc.

Savage has done a great deal for his town. We are proud of its prospects for the future. Let each one do his share in beautifying the place. THE POPE TAKES HIS FIRST RIDE IN AUTO
ROME, June 22—The Pope enjoyed his first automobile ride today. It was taken in the Vatican gardens in a handsome touring car presented to him by the American Catholics. The car arrived today and shortly afterward the Pope expressed his desire to take a turn in it. After riding about the gardens of the Vatican, the Pope left the machine and the chauffeur took it into the street, where crowds gathered and admired the car.

SUDDEN DEATH OF NEWCASTLE LADY

Was Ready to Take Train For Trip to Pacific Coast When Stricken.

MUCH RESPECTED.

NEWCASTLE, June 24—Mrs. M. M. Mowat, a well-known and much respected lady, died suddenly at her home in Newcastle, N. B., on Monday night. She was 62 years of age and had been ill for some time. She was ready to take a train for a trip to the Pacific Coast when she was stricken.

She was a member of the Methodist Church and was a devoted wife and mother. She was also a member of the Newcastle Ladies' Association.

Her death was a great loss to her family and the community. She was buried in the Newcastle cemetery on Wednesday.

Her husband, Mr. M. M. Mowat, is a well-known merchant in Newcastle. He is now in the city attending to the funeral arrangements.
