county at different periods, while a member of the council.

Andrew Russell, reeve of Vaughan, was nominated by Jonathan Slater, who stated that Mr. Russell had been elected to the council by acclamation no less than seven times. A gentleman so popular with his constituents must surely possess qualities which would fit him to fill the warden's chair creditably. Mr. Evans seconded the nomination.

A SHORT SESSION. The Technical School Board Decide To Ask For An Interim Appropriation.

The last meeting of the Technical School Board for 1892 was held last night in the school in College-street.

A letter was received from the Grap

Trunk Railway workmen proposing the amalgamation of their school for apprentices and the Technical School, and asking for a seat in the Board for a representative from their body. The proposition was laid on the table for future discussion. The subject of amalgamation was first broached to the City Council, from where the petition was forwarded to the Board.

President Orr drew the attention of the Board to the fast that an interim appropri-Board to the fact that an interim appropri-ation would have to be asked from the City

ation would have to be asked from the City Council to tide them over the next three months, by which time the regular appropriation might be expected. It was decided to ask for \$2500 to be advanced.

The estimates for 1893 foot up to \$7450. Of this sum \$2320 goes on the capital account and \$5130 for maintenance.

There being no further business brought up for discussion the Board adjourned.

The Thaw. "When frost gives way to sudden thaw And all your pipes have got a flaw, And through your house the waters flow, You wish yourself in Jericho."

After a frost of unwonted severity and eqally unwonted duration, we are now experiencing the discomforts which follow as a natural sequence a change from frost to thaw. That the thaw has at last set in few, if any, will regret. True, there are undoubted enjoyments to be got from a frost such as we have had for the past two weeks in the shape of skating, curling, etc. But it has its drawbacks. Severe weather in any shape or form is a positive hardship to the aged, delicate and numbers of poor people who are ill provided with the things of this world best adapted to cope with it. It would seem to be a moot question whether the raw cold weather experienced at the setting in of a thaw is not as After a frost of unwonted severity and whether the raw cold weather experienced at the setting in of a thaw is not as bad in its effects on the human constitution as is the clear, though piercing weather of a frost. It is difficult to determine the point with any exactitude. But it is not a matter needing any special insight to arrive at the conclusion that an open winter, or as our fathers were wont to term it, "a green Yule," is by far the best for mankind. Fresh, open weather allows numbers of people to be healthily and lucratively employed, who during a frost are frozen out if not starved out. Usually it is the case that these are the very people who can least afford to lose any money, or do can least afford to lose any money, or do without the little comfort it would bring in the winter time. With the inconveniences of a sudden change in the weather like the present, every householder who happens to be at the mercy of these modern appliances which are doctored by the plumber, is fully and also too painfully cognizant. We wish them to lepart as speedily as they came. ily as they came.

Carpet Manufacturers Meet. The carpet manufacturers of the province have for some time felt that while the tariff was fostering them some of its regulations

Lack of uniformity in the system of valuing imports at the different ports of entry is held to be one of the chief anomalies. Then they contend that some of the features of the tariff itself bear unnecessarily eavy upon their industry.
Yesterday the carpet manufacturers of

the province held a meeting in the office of the Manufacturers' Association, Canada Life building, to discuss ways and means of seeking relief. Some eight or ten mills were represented. As an outcome of the deliberations

Massrs. James P. Murray of the Toronto Carpet Manufacturing Company, Henry Strond of the Paris Carpet Company, Dodds of the J. & A. Armstrong Co. of Guelph, and J. J. Cassidy, secretary of the Manufacturers' Association, were appointed to wait upon the Government at Ottawa in Toronto Savings & Loan Co., regard to their grievances. The deputation left for the Capital last night.

In placing our Odell Typewriter on the market we are fully alive to the attack which may be made upon it by the makers of writing machines who have already a place in this market. Many persons on seeing the machine, or an illustration of it, will condemn it from sheer prejudice, saying: "Oh! it is not a key machine—it can't be any good. Anything but a key machine is a toy," without in any way looking into its merits. Although this is not a key machine, yet it is capable of turning out work not only equal to but bet er than any key machine yet invented, and more astonishing still is the short space of time occupied in writing. This is no idle boast and we are prepared to prove our assertion to any one who will favor us with a visit.

Suppose for a moment that your Kitchen supplies cost \$500 a year. They may cost more, or perhaps less, but that won't lessen the force of our argument. Now, if you could save \$100 out of this \$500, and into the bargain get NICER, FRESHER Goods, wouldn't you be unthrifty not to do so? We sell all kinds of fresh Groceries. Canned Goods, Provisions, Woodenware, etc. We deliver goods free to all parts of the city. We sell retail at wholesale prices. We are patronized by the best families.
