

## RONALD TEST UNSATISFACTORY.

Hence the Chief Will Visit Montreal and Report on the Results of the Test.

Ald. McMurich presided at the meeting of the Fire and Light Committee yesterday. Ald. Hubbard, Bell, Allen and Davies were present. Nine new members were added to the fire brigade; the failure of the Ronald engine to comply with the guarantee was reported, and Chief Graham was commissioned to visit Montreal and report on a test of steam fire engines. From the expressions of the committee it looks as though the city will yet have the Merryweather, for the order has not yet been cancelled. The first Ronald engine the committee thought they were in honor bound to purchase, but not a second one.

An Experimental Trip. Ald. Bell moved that the chief of the fire brigade visit Montreal to witness a test of the Merryweather and other steam fire engines, and that if he deems it necessary he also proceed to Buffalo and Detroit for the witnessing of tests of American engines, and that he report to the next meeting of the committee.

The alderman also expressed his regret that this resolution, which he moved several weeks ago, was not adopted. It was necessary now that they should have this practical information. From the result of the trials of the Ronald engine it was all the more necessary the city should have a thoroughly efficient engine. The Ronald had done well, but it was not up to the guarantee, nor even up to the expectations of Mr. Ronald, who was present. Under the circumstances, the alderman said, he thought the city was in honor bound to purchase one Ronald; but before anything further was done the chief's report on the qualifications of other engines of greater power than the Ronald was highly desirable, especially in reference to the Merryweather.

The chairman said that, on business, he would at once be going as far as Montreal, and he would be glad to be present at the time of the test.

Ald. Allen seconded the motion. Ald. Davies was heartily in favor of the city having the ordered Merryweather. It could be here shortly, and it would pay to have this first-class engine, especially in view of the results of the Ronald tests.

The chairman endorsed all that had been said of the Ronald falling short of the guarantee. He had no feeling in the matter other than that the city, after purchasing one Ronald engine, should then have the best they could procure of greater capacity than the one that had been twice tried this week.

The Mayor concurred, and said that \$1000 or \$2000 should not stand in the way of Toronto having an engine powerful enough to cope with a great fire and high buildings.

The motion for the experimental trip carried unanimously. The first batch of a number of applicants for positions of firemen was appointed. They are: D. M. Bland, D. McLean, W. Dobbin, J. A. McQueen, George Ball, H. Gates, George Sinclair, H. W. Watson and D. McLean.

OSCAR WILDE COMMITTED. Application to Be Made For His Admission To Jail.

London, April 19.—Oscar Wilde and his friend Alfred Taylor were arraigned in the Bow-street Police Court at noon for further examination. Wilde looked greatly fatigued and really ill. He had been "ruined" and his general appearance indicated carelessness.

Charles Parker was called to the stand and testified that Taylor upon one occasion told him he had gone through the marriage ceremony with Mary Taylor (Taylor) wearing woman's clothing. After the ceremony there was a wedding breakfast, followed by a reception.

Other witnesses were called to the stand and gave similar damaging testimony. At the close of the evidence, Wilde and Taylor were fully committed for trial in the Central Criminal Court, Old Bailey. Application was made for bail, but it was refused.

Wilde, in reply to the question whether he had anything to say, said: "Not at present."

Counsel for Oscar Wilde has announced his intention to apply to the Queen's Bench for the admission of his client to bail, on the ground that the admission to bail of a prisoner is compulsory under the statute.

THE "KNOCKING-DOWN" CASES. Decision Reserved On Application To Quash On Technical Grounds.

Montreal, April 19.—The hearing of the quash in the Grand Trunk conductors' case was concluded, and counsel delivered their addresses. Mr. H. Walker, chief accountant of the Grand Trunk, was examined for the defence and produced conductors' reports from which it seemed that on the occasions upon which they had been accused of "knocking down" fares, the conductors had made returns of the full amounts collected by them on the car.

When the examination of witnesses had been concluded, counsel for the defence asked that the indictment be quashed on various technical grounds. The court reserved its decision.

Dr. Joseph Albrect, chemist, late assayer of the U.S. Mint at New Orleans, after a chemical analysis, declares that Dr. Price's Baking Powder is justly celebrated and "perfectly pure and wholesome."

Killed By a Wagon. Thursday afternoon Charles Wilson, the 9-year-old stepson of Hugh Wilson of Leveville, was riding on a load of gravel when he fell in front of the wheel, which passed over his body, breaking several ribs and injuring him internally to such an extent that he died about three hours afterwards.

Died From Exposure. Brockville, April 19.—Death from exposure is the verdict in the inquest on the body of Lillian Stevenson at Frankville.

For Europe. A. F. Water, general steamship agent, books the following to sail this week for Europe: Prof. Ramsey Wright, Alderman John Hallam, John Boyd, Jos Kilgour, Mrs. William Stanley, Miss S. S. Patterson, Mrs. Lang, J. W. Whitaker, R. W. Moore, R. B. Smith, Mrs. Smith, Miss Smith, Dr. Seadding, Rev. Charles Seadding, Miss Proudfoot, Miss Holcroft, James Maledy, James Ball and wife.

Dyspepsia and Indigestion.—C. W. Snow & Co., Syracuse, N.Y., writes: "Please send us ten gross of your 'Peppermint Cure' of Parmentier's Pills than any other pill we keep. They have a great reputation for the cure of dyspepsia and indigestion." "Parmentier's Pills" are an excellent medicine. My sister has been troubled with severe headache, but these pills have cured her.

Opening of Navigation. The Allan Royal mail steamship Sardinian will leave Montreal May 4 at daylight for Liverpool, calling at Lough Foyle. A few choice cabin berths may still be had. The steamer rates are still reduced—only \$19.15 from Toronto to Liverpool, Barry, Belfast, Glasgow or London. The Laurentian will leave Montreal May 11, Parisian 15th.

Money saved and pain relieved by the leading household remedy, Dr. Thomas' Electric Oil—a small quantity of which usually suffices to cure a cough, headache, neuralgia, or sprain, rheumatism, rheumatism, neuralgia, excoriated nipples, or inflamed breast.

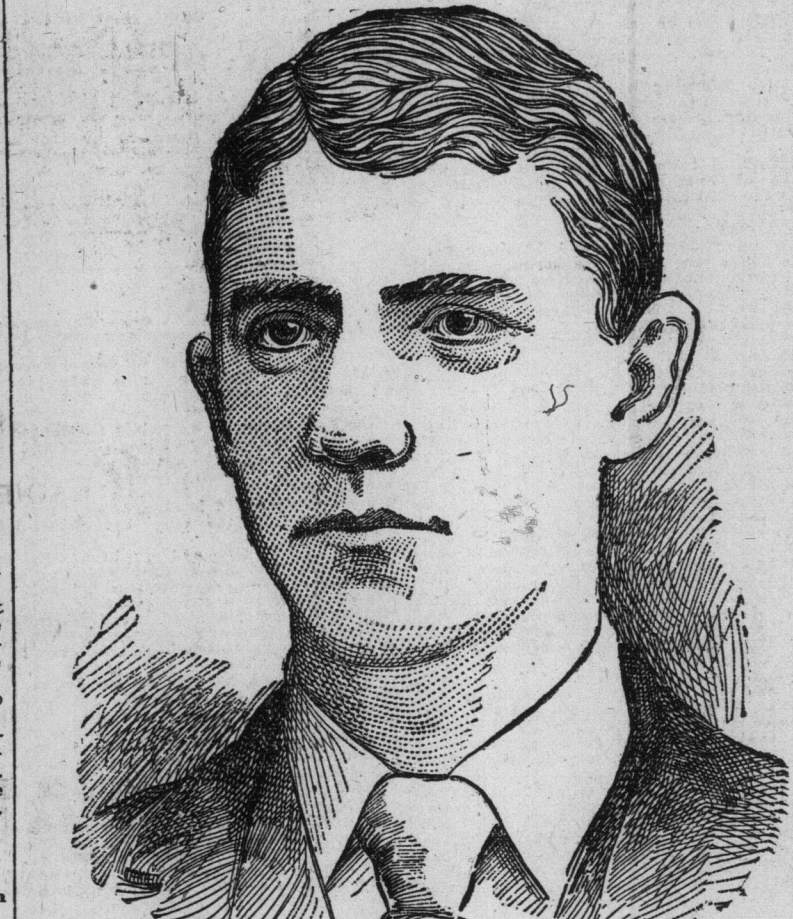

## A Badly Disfigured Man

HORRID SCARS ON FACE AND NECK.

BLOOD POISONING THE CAUSE

WAS IN A VERY CRITICAL CONDITION

Paine's Celery Compound Saves the Life of M. D. Arthur.

No end to the wonderful and almost marvelous cures effected every week by Paine's Celery Compound, the medicine that saves life in time of greatest peril and danger.

M. D. Arthur, a well-known young man of Chelmsford, Ont., says: "With great pleasure I write about your wonderful medicine, Paine's Celery Compound. I was laid up with scars all over my face and neck, the result of blood poisoning. While in that condition I could not sleep at night, I had no appetite and could not attend to my work. I tested the skill of all the doctors in the district, and used their medicines, but was not benefited.

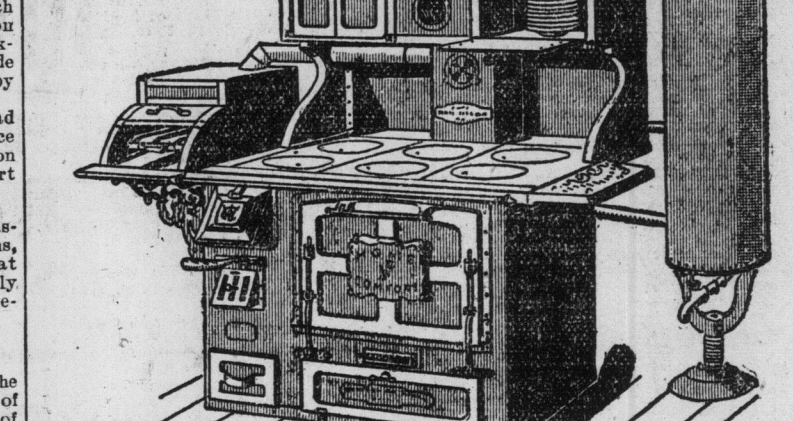

"I think I was miraculously saved at last. My aunt came here from Campbellford and brought with her some of Paine's Celery Compound, which she was then using to advantage. She advised me to use the medicine, and I took two pills each day. I feel the day I commenced with Paine's Celery Compound. In two weeks I was so much better that I could go out, and in three weeks I was able to resume work again.

"I cannot say sufficient in praise of the great healing medicine. I would not be without it if I were obliged to pay ten dollars a bottle for it. Now is the time to cleanse the system, to purify the blood, to brace up and strengthen the nerves, to make the digestive organs work harmoniously, so that perfect health may be enjoyed when summer comes. Paine's Celery Compound does the good work for every man and woman.

HOME COMFORT WROUGHT STEEL FAMILY RANGES

Awarded more GOLD MEDALS than any RANGE in North America.

OVER 299,327 SOLD TO JANUARY, 1895.

Economical in Fuel, Rapid in Baking; made of Malleable Iron and Steel Plate, lined with Asbestos. Manufactured by Wrought Iron Range Co., General Outfitters of Hotel and Family Kitchen Ranges. Established 1864. Paid Up Capital \$1,000,000.
