We the Grand Jarors, impannelled to serve as the Grand Jury for the present September Term of the Court of Common Pleas, amongst Thomas Leary, - Ledge, - Taves of the form of the Court of Common Pleas, amongst other of our duties, considered it incumbent income to visit and inspect the new Court House recently erected in the Town of Saint Andrews. We thought it our duty to do this for two reasons, first, because the Building of an erected, was the property of the Count and respecting which all Freeholders have and naturally feel an interest, and secondly, because great fault was and still is found with ome of our Predecessors in office, for not looking into and examining the state and condition of the Gaol, now the old, but still called the new Gaol, after it had been delivered up as complete from the hands of the Contractor. We have closely examined the first named building, the Court House, both inside and out, and after a thorough examination, we have great pleasure in saying that we are all very highly pleased with it, and that while inquestionably is a great o nament to the Town, it is also decidedly creditable both to orkmanship and design to the skilful architect who built it. We have been extremely orry, however, to learn, that Mr. Berrar will lose seriously by his contract, but we have no doubt that a proper application to the Le. orry, however, to learn, that Mr. Berray will lose seriously by his contract, but we have no doubt that a proper application to the Legislature on his part will result in not only making him whole but rewarding him in some slight degree at all events for the great extra expense, it appears that he has incurred in his desire to give general satisfaction.
