The Weekly Monitor.

WEDNESDAY, MAY 26th, 1886.

—In another column will be found a correspondence upon the question of "Better Terms or Repeal." As our readers are aware, a certain portion of our space is open for political discussions, and both parties will be given an equal chance upon all public questions. We trust that the arguments advanced by "A Voter" will be answered by some one of opposite views, as we are desirous that a full discussion may take place upon this important question. Repeal is to be the weightiest issue of the of the Liberal party at the polls, and a measure that means so much to this province should be weighed and sifted from every stand point, in order that electors shall be able to cast an intelligent vote for or against. The non-partisan character of the MONITOR, of course, precludes us from taking any side in the matter, but as we are anxious, that upon a subject that has so weighty a bearing upon the future, our readers should have the arguments pro and con, we therefore solicit a full discussion.

SANITARY.—The annual spring cleaning is now in active progress in houses, streets and premises. In the first named the most important portion to be cleansed, but the part oftenest neglected, is the cellar. This part of every house should be thoroughly rid of all decayed vegetables, and garbage, the walls and ceiling whitewashed and then the windows taken out and a free circulation of air given. Back yards require special attention, and should be set to rights, sink holes and other such places cleaned out and sanded, and all litter burned up. In the streets the gutters are the most prolific sources of evil and in some localities they are especially dangerous to health from the imperfect drainage. Stagnant, foul smelling water collects, and if not attended to becomes veritable disease breeder. We are only speaking a word in season, and do not wish to imply that our remarks are other than general. A little care now will do much to prevent the development of diphtheria, typhus fever, and other diseases that spring almost directly through sanitary neglect. "An ounce of prevention is worth a pound of cure."

—We have only heard of one salmon being captured in the Annapolis River this spring with rod and fly. If proper protection was only given to the king of fish, our river would soon teem with them. So long, however, as the fish are netted on their way to the spawning grounds, so long may we expect them to be as rare as black foxes. There is a stringent law in force in regard to the setting of nets, but it is difficult to catch the offenders, and they infringe the law with comparative impunity.

— A branch society has been formed in New York, of the "White Cross Army," which has for its object the promotion of personal purity among men. Its first organization was inaugurated in 1883, by Dr. Lightfoot, Bishop of Durham in England. The society is receiving large additions from all the christian denominations, and it is destined to do a noble work.

Such an organization can hardly fail to purify and elevate all on whom it operates. It is thoroughly evangelical, and has little faith in the redemption of humanity from its shames and sorrows by any other than Gospel methods. It loyally acknowledges Christ as the only Lord and Saviour.

Each of the members of the White Cross Army promises by the help of God:—

"1. To treat all women with respect, and endeavor to protect them from wrong and degradation.

"2. To endeavor to put down all indecent language and coarse jests.

"3. To maintain the law of purity as equally binding upon men and women.

"4. To use every possible means to fulfil the command, 'Keep thyself pure.'

"5. To endeavor to spread these principles among my companions, and to try and help my younger brothers."

At a recent meeting of the new society in New York, Judge Kilbreth, one of our police justices, stated that the number of arrests in New York in 1885 was 65,042. No less than 20,692 of these were females. The average number of arrests in the past twelve years is over 75,000 annually. The fact that 27 per cent. of these were females is suggestive of awful shame, misery and despair. Pauperism, drunkenness and prostitution are the most prolific causes of crime. The latter is one result of the herding of human beings in tenement houses. Privacy is almost impossible. Women fall in them. Of 125,000 people in the 6th and 10th wards of the city, which are crowded by the poorest class of tenement houses, 14,306 were arrested by the police in 1885.

— The elections for local representatives will take place on the 15th day of June next. Nomination day is one the 8th. Polls will be held in the different wards of this county as follows:—

Ward No. 1, Melvern Square, at or near shop of Timothy Phinney.

—We have received the annual report of the Fruit Growers Association and International Show Society of Nova Scotia for 1886. The volume contains reports of all meetings and transactions of the Association, together with a large number of valuable papers that were read at the different meetings, bearing upon subjects germane to the objects of the society. The list of these is quite numerous and our space will not permit us to enumerate them at present; but with the permission of the society, we intend to re-print several in the course of a few weeks. The volume should be in the hands of all fruit growers. The Association is doing a grand work, and has a constantly increasing membership. The financial statement shows a balance to the credit of the society of $671.05.

— Hon. L. S. Huntington, ex-Postmaster General of Canada, died suddenly at New York on Monday last. He was one of the ablest orators of the Liberal party.

Local and Other Matter.

—Camp meeting commences at Berwick on the 4th August next.

—Hon. L. E. Baker, has resigned the presidency of the Western Counties Railway.

—Mr. John Ross, harness maker, is fitting up the upper flat of his shop for a hall.

—Messrs. Wm. A. Reed, and Hamilton Parks, both of Port George in this county, have been gazetted justices of the peace.

—Mr. Ralph M. Saunders, of Bear River, passed as mate at a recent sitting of the Halifax marine board.

—A New York alderman, named Jaehne has just been found guilty of accepting a bribe of $20,000 to vote in favor of the franchise of the Broadway street railway.

—At a public meeting in Digby, week before last, a resolution to procure a steam fire engine for the protection of that town was carried, after a full discussion, by a majority of 45 to 27.

—We have received from Sir Charles Tupper, in London, high commissioner for Canada, a copy of the "Official Catalogue of the Canadian section of the Colonial and Indian Exhibition."

—Mr. Leander Rand and Mr. A. P. Welton, were elected Liberal candidates to represent the county of Kings, in the House of Assembly, on Monday.

—The N. Y. *Christian Advocate* of last week said: "The Rev. S. B. Dunn, of Annapolis Royal, Nova Scotia, has spent the last week in this city on business connected with literary work, on which he has some time been engaged."

—Schr. Ivica, Capt. Longmire, ar. Wednesday, May 19th from St. John, Cld. Friday for same port.

—The Prince Edward Island horse "Black Pilot" was in town last week. He is a very fine animal, and is much admired by all who have seen him. He is well bred from trotting stock, and his action shows that he does not belie his pedigree.

—Several very fine salmon were brought into town, on Monday, from the Bay Shore, by Mr. Chas. Margeson. The two largest weighed respectively 26½ lbs., and 25 lbs. They were sold for 20 cts. per lb., and three of them were bought by Mr. Samuel Fitz-Randolph, provision dealer, and another by Mr. Glencross, proprietor of the Grand Central.

—The *Mail* building, Toronto, again suffered heavily from fire on the 22nd inst. The fire started in the second flat occupied by Alexander & Coble, Lithographers. They lost all their stock and material valued at $10,000, on which they hold insurance of $8,-000. The loss to the *Mail* is $80.000, on which they have insurance of $70,000.

—The department of agriculture, on request of the imperial authorities, have made an enquiry through the Dominion and find that Canada can supply about seven hundred cavalry horses yearly. Experienced buyers, it is stated, will be sent here by the imperial authorities to make purchases.

— A sad and fatal accident occurred near Weymouth on Saturday afternoon last, by which Francois Theriau, about fifty years of age, a resident of St. Bernard's, Clare, was returning from Weymouth with his ox-cart, in which were several persons, and also a barrel of flour, he accidently fell, and the wheel passed over his neck, killing him instantly. The body was carried home, and interred on Thursday. No inquest was held.

— Vegetation is advancing with prodigious strides, grass has already attained a vigorous growth; apple trees are fast coming into bloom; cherry trees have fully blossomed, while agricultural operations have been far advanced. The season is a fortnight or three weeks earlier than usual. On Thursday night of last week quite a heavy frost occurred, but we believe no damage was done.

—The Queen's Birthday passed off quietly in this town. No public demonstrations of any kind took place, not that we are any less loyal than in other places, but simply because we have never got in the way of observing the day otherwise than quietly. The employees in the factories, foundry, etc., enjoyed a holiday, and the bank and custom house were closed as usual.

—Mr. Oldham Whitman, marble worker, has just completed a new building on Rectory Street, to accommodate his large and increasing business. The work turned out at his establishment is equal to any in the province. All classes of work in his line receive the most thorough attention. A visit to his establishment will convince any one that we are not overstating the facts.

— A new car has just been turned out of the railway shop at Kentville, which is said to be an unusually fine specimen of workmanship. It is built entirely of native woods, and is finished on the inside with bird's eye maple and curly maple on the sides, and the ceiling in black oak and poplar, with black walnut mouldings. The doors are also of walnut. The car is fitted with all the latest conveniences, even the backs of the seats having springs to them. The car will cost about $10,000, and will be run with two other cars, rebuilt and painted to match, as an express.

—The St. John *Globe* says:—

"It is understood that P. Innes, manager of the Western Counties (?) railway, has tendered his resignation and that his successor has been appointed."

We think the *Globe* has been misinformed. Hon. Mr. Baker, president of the Western Counties line, has resigned his position, which may have given rise to the above report.—ED. MON.

—His Honor Judge Savary, Revising Officer for the Counties of Digby and Annapolis, will hold his courts for the final revision of the lists of voters as follows:—

On the 29th day of June, at the Court House, Annapolis, for No. 10, Annapolis Royal; No. 14, Maitland; No. 22, Lequille; No. 23, Round Hill.

On the 2nd day of July, at Clementsport, for No. 8, Clements; No. 9, Bear River; No. 21, Clementsvale.

On the 6th day of July, at Granville Ferry, for No. 6, Granville Ferry; No. 7, Lower Granville; No. 20, Parker's Cove.

On the 8th day of July, at Victoria Hall, Bridgetown, No. 4, Bridgetown; No. 5, Bellisle; No. 11, Carleton's Corner; No. 15, Dalhousie; No. 19, Hampton.

On the 13th day of July, at Middleton, No. 1, Melvern; No. 2, Middleton; No. 3, Clarence; No. 16, Meadowvale; No. 17, Port George; No. 18, Port Lorne.

All the sittings will commence at 10 o'clock, a. m.

A. V. S. F. G. A.—The semi annual meeting of the Small Fruit Association will take place in Palmer's Hall, Kingston, at 1 o'clock p. m. (local time), on Thursday, the 8th day of June next. Persons in attendance, travelling by rail, will be returned at one third fare

JOHN KILLAM, Secty.

—The young men of the town are about forming a committee to hold a gala day in Bridgetown, on the 1st of July, Dominion Day. In our next issue we will probably be able to give fuller particulars. All those desirous of helping the affair along, will kindly meet at Mr. H. V. Barrett's office on Saturday evening next, at 7,30 o'clock.

—Mr. W. J Glencross, recently appointed commissioner of streets for the eastern portion of the town, has settled into harness and is having the work under his control thoroughly done.

—E. T. Vroom, of Bear River, N. S., was killed in a railway accident at Buenos Ayres recently.

—The Western *Chronicle* says: Mr. T. B. Harris, M. P. P., who has been confined to his bed since Good Friday, walked out of his room for the first time, yesterday. The doctor hopes that he will be able to drive out in a few days if all goes well. He has fallen away over one hundred pounds and is in a very weak state.

—The Halifax *Chronicle* says: The other day, while Mr. F. Wiltshire, assisted by Mr. C. W. Cravin and William Corbin, was blasting rocks on his farm near Kentville, and in the act of drilling out a dead shot, the charge exploded. Mr. Corbin escaped with singed eyebrows. Mr. Wiltshire was struck senseless by a fragment of rock striking him in the face and cutting a deep gash. Mr. Cravin's right hand was so completely shattered that it is feared amputation will be necessary. He had a very narrow escape with his life, as his head was nearly over the hole, so that the drill passed through the rim of his hat.

—We are indebted to Messrs. Drew, Wheelock & Co., of Lawrence, Mass., for a copy of a pamphlet containing a list of the principal manufacturers and business men in the cities of Lynn, Lowell, Lawrence, Salem, Haverhill, Beverly, Danvers, Peabody, Gloucester, Newburyport and Amesbury. Mr. Wheelock of the above firm is a native of Nictaux in this County, and he and his partner have built up an extensive commission business. We extract the following reference to them:—

"Drew, Wheelock & Co., commission merchants for the sale of butter, cheese, eggs, beans, potatoes, hay, etc., No. 168 Broadway, corner of Lowell Street. A representative house largely engaged in handling, on commission, butter, cheese, eggs, beans, potatoes, hay, and other agricultural products is that of Messrs. Drew, Wheelock & Co., which was established five years ago and which has built up a large and influential patronage. The firm occupies two floors of a fine, handsome building at the corner of Broadway and Lowell streets, covering an area of 30 x60 feet. Large consignments of dairy and field produce are received almost daily from all sections of the country. They have a large receiving trade over all parts of the New England States and the provinces, and this is constantly increasing in volume. The co-partners are Mr. W. S. Drew and Mr. R. W. Wheelock, and the former is a native of Vermont and the latter of Nova Scotia."

—Mr. W. R. Matthews, of Middleton, sends us the following:—

Some months ago a paragraph appeared in your paper, which has been extensively copied, to effect that Fred R. Gibson, telegraph operator, and former pupil of J. W. James, Esq., of Lawrencetown, had shot a man in Arizona, and having been captured in Texas, was brought back and lynched. This news caused Mr. James (whose kindness of heart is well known) great pain, and he will be glad to learn that the whole affair was a hoax, as during the past week I had the pleasure of meeting a friend of Mr. Gibson's and reading letters from Mr. Gibson, in which he expresses surprise at reading his own obituary, a thing unknown to his friends folks. He is, however, quite jolly over it and hopes folks will not start the story that he has been burnt at the stake. Mr Gibson has a fine position in El Paso, taking press despatches for the papers. Most of our young men start out with the determination to fight the battle of life for all its worth, and are not given to shooting people.

All that we know in reference to the above matter is that we received the clipping from a Texas newspaper, from Mr. James, and to all appearance the news was authentic enough. Some blockhead in Texas has evidently had the item published, and his dull wit has given him the impression that he was playing a good joke upon some one.—[ED. MON.]

The Queen's Birthday at Annapolis.

A large number of people were in Annapolis Royal on the Queen's Birthday, drawn thither to witness the festivities advertised to take place during the day. The first on the programme was a polymorphous procession, but owing to a number of dresses being lost in the late fire and other causes, this was omitted. Horse racing was therefore the principal feature of the amusements. The race course was from the Court House to the mile-board. For the first race there were four entries, Bridgetown Charlie, and horses owned respectively by Dr. Cunningham, Messrs. Griffith O'Dell, and Benj. Hardwick. Dr. Cunningham's horse was taken sick, we understand, and his owner had to withdraw him and as this horse was the only one that could make a race with Charlie, the latter was also withdrawn. The two other horses therefore contested the race, and a very pretty race it was, the horses being well matched. The 1st heat was taken by O'Dell, the next by Hardwick and the third was decided a dead heat by the judges, consequently a 4th had to be trotted which was won by Hardwick. Prize a very handsome rubber mounted harness, made at the well known establishment of Mr. Miles McMillan.

The next race was between horses owned by Dr. Withers and Mr. Ed. Gates, Whitehead owned by Mr. A. E. Sulis of this town, and Barney by Mr. H. Ruggles, also of this town. There only being room in the roadway for two horses to trot abreast, the horses were paired. Barney and Dr. Wither's horse trotting one race, and the remaining horses another. The Annapolis horses won, and they consequently trotted a final heat for the prize, which was won by Gates. This prize was a silver mounted harness, also made by Mr. McMillan.

In the evening an entertainment was held in the rink by the Annapolis Dramatic Club, when a fine play was presented, entitled "The Turn of the Tide." It was most creditably performed by all who took part in it, and elicited hearty applause. In addition to the play Messrs. Bishop and Tanton gave a series of gymnastic exercises that would do credit to professionals. The evening concluded with a dance and the presentation of prizes. A special train left Annapolis for Bridgetown, at 11 o'clock, and brought back the majority who attended from this town.

ACCIDENTS.

During the day, Mr. Percy Burns, of this town, while riding his bicycle in company with Mr. W. M. DeBlois and Mr. Herbert Runciman, of Annapolis, was run over by the team of Mr. Cole, of Paradise, up understand. Young Burns was injured in the side and one of his legs is swelled up, but he is not confined to the house. The accident happened opposite Mr. G. E. Corbitt's residence, and this gentleman had the injured lad, who was stunned for the time, taken into the house and extended every kindness and attention. The bicycle is broken to such an extent that it cannot be repaired here.

Mrs. Dimock Whitman, of Roundhill, in coming on the stable steps to take passage on the homeward train, made a misstep, the night being extremely dark, and fell backward upon the track, sustaining very severe injuries we regret to state. She had to be helped to the station, and a doctor sent for.

Clarence Items.

— Mr. Robert Marshall's well known mare Daisy, presented her owner on the 16th inst., with a very fine Percheron colt, sired by the Norman Percheron stallion Nichols. This horse's stock is winning golden opinions among our breeders,

— We regret that our good friend Caleb Ansley Banks, is suffering from a severe attack of erysipelas.

— We are pleased to state that our Division continues to flourish, despite the short evenings and busy time of year. At our last meeting we initiated one of the young men of our neighborhood and still more are to come. Although the friends of temperance find much opposition, we feel that we have also much to encourage us. Would that all would look upon such organizations with the favor they deserve.

DIED.—The Kentville *Chronicle* says:—A telegram from J. P. Chipman Esq., who now is in Florida, states that Mr. John Church, Mr. Chipman's partner in the Orange Grove business there, died on Sunday morning last, of paralysis.

Mr. Chipman is expected home next week. Mr. Church is a brother of Mr. Robert Sangster, well known here. He has been away from home a great many years and while living in the states, for reasons we do not know, had his name changed by act of Parliament, to that of his mother's family, which was Church.

NEW ADVERTISEMENTS.

J. W. BECKWITH!

—AS THE—

SPRING AND SUMMER TRADE

FOR THE SEASON OF 1886.

has now fully opened, I beg once more to lay before the readers of the MONITOR, a partial description of my immense importations in all the leading lines of choice

DRY GOODS.

Having closely studied the wants of my numerous patrons, I feel assured that the personal selections I have made in all the various departments cannot but meet with general approval.

TO THE LADIES: I may say that no pains and expense have been spared to secure the very latest and most fashionable designs in Dress Goods and in all other departments of Ladies' Wear as well as a fine assortment of Staple and Fancy Household Requisites. Many charming novelties have been added to my stock this spring, and I feel assured that satisfaction will be felt by all upon inspection.

GENTLEMEN: In the past, I think it is not too much to say, that in my store gentlemen could at all times find a complete assortment in all departments of their wear to select from. I will, therefore, only say in this connection, that even greater pains this year has been given to these lines.

TO MY PATRONS IN GENERAL: I beg to thank one and all of those who have favored me with their esteemed patronage in the past, and trust that the same pleasant relations may long continue to exist between us. I have always endeavored by studying to take every legitimate advantage in buying to secure a Stock, that will be at once thoroughly assorted, reliable and reasonable in price; the result proves that this is appreciated, as every year, I am happy to be able to state, shows a continued and healthy increase of trade, particularly is this to be noticed in the finer grades of goods, as customers every year buy more and more largely in these lines, realizing that in nearly all cases, the best goods are the cheapest.
