Cures Woman's Weaknesses. Dreams are Made Of

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.
Dr. John Fyfe one of the Editorial Staff of The ECLECTIC MEDICAL REVIEW says of Unicorn root (Helonias Dioica) which is one of the chief ingredients of the "Favorite Prescription":

Mr. W. F. Wright, M. D., writes in The New York Herald:—Cervantes blessed the man who first invented sleep. He might also have cursed the imp who devised dreams to murder sleep. Of all the phenomena attending that state of rest for mind and body none attract attention and thought as do those strange, grotesque, and weird pictures in which we seem to live while sleeping. A strange contentment and happiness or an awful fear and dread will make our awakening from the dream life either a pain or a relief.

It is but natural that an importance should be given dreams they do not seem that a case is sensition of the productive organs of women; constant sensation of heat in the region of the kild-sensition of the productive organs of women; constant sensation of heat in the region of the kild-sensition of the productive organs of women; constant sensation of the productive organs of women; constant sensation of the productive organs of women; constant sensation of the kild-sensition of the story or a sensition of the kild-sensition of the discussive organs of women; constant sensition of the story or a sensition of the story or the "Fa-vorite Prescription":

In the treatment of discases peculiar to women it is seldom that a case is seen which do

most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenor-them (flooding) and congestive dysmenor-them (flooding) and congestive dysmenor-them (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.
