

FIRE FELT is a new Non-Conducting material, made into sections to fit any size of pipe, and into rolls and sheets for large surfaces. It is a flexible felt-like fabric, made of pure Asbestos. It has been demonstrated by the U. S. Navy and others to be superior to hair felt as a non-conductor, and is indestructible by heat. Covering your Steam or Hot Air Pipes will save from 10 to 40 per cent. in fuel and give dry steam at long distances.
