A MAGNIFICENT PRESENT I

The proprietors of the Sporting Times have much pleasure in announcing to their patrons that they have made arrangements to present a magnificent horse picture to to present a magnificent horse picture to their advance paying subscribers for the year 1876-7. Realizing the importance of this undertaking, and being determined to offer our subscribers a picture that should in itself be worthy of the paper it represents, and which should be treasured as a work of art; after culling over the finest productions of the American press, we selected the beautiful chrome of Goldshith Main, printed in nine colors and innumerable shades, side 184 by 24 inches believing as one friends with nine colors and innumerable shades, size 184 by 24 inches, believing, as our friends, will when they see it, that it is the fluest liorse picture over published in America. It is not to be confounded with the miserable pictures hawked around the country by some journals, but is really a work of high art and intrinsically of more value than we receive for our yearly subscription. She is represented standing in a box stall stripped, and in this position the picture, from which the chromo is reproduced, was painted by one of the first artists in the profession in America. When varnished and mounted it is impossible to distinguish between the obromo and a very fine oil-painting. It is a is impossible to distinguish between the chrome and a very fine oil-painting. It is a work of art worthy of a place in the finest collections in the country, and what adds to its value it is the only correct likeness of Goldswith Main ever published. As a memente of the mest remarkable trotting equine in the world, shortly to be relegated from the turi, it will be treasured by every hoiseman in the country, more especially by those who have seen the little mare in any of her races. This picture was sold by subscription only a few months ago for \$5 a piece, and copies of it were in great demand. We expect in this liberal gift to more than double our subscription list in the next three months, and if our friends who receive the picture will only show friends who receive the picture will only show it to their acquaintances and inform them how they may get a copy, we are sure our anticipations will be realized. The picture

Used by Professional and Amateur Clubs in the United States, and by several Canadam Clubs anticipations will be realized. The picture Cour Ball has the smoothest stitching of any Ball made—they are equalled by mone, to which fact can be procured in no other way; we do not several clubs will testify.
