

# INDEX TO VOLUME III.

A	PAGE.	PAGE.	PAGE.
Acid, angelic, reduction of.....	77	Caadaiu plumbeo.....	158
" benzole, and gum benzole.....	123	" waters, notes on.....	147
" carbolic, antidote to.....	141	Cantharidate of potash, action of.....	93
" carbolic, poisonous effects of.....	105	Cantharidates, alkaline, application of.....	63
" hydrochloric, preparation of pure.....	22	Carbolic acid, antidote to.....	141
" hydrochloric, test for arsenic in.....	61	" poisonous effects of.....	105
" hydrocyanic in tobacco smoke.....	121	Cataplasms, the philosophy of.....	75
" hypophosphorous and the hypophosphites.....	117	Catechu, adulteration of.....	141
" nitric, action on ext. cannabis ind.....	60	Caustic Soda, action on alcohol of.....	71
" pteric, dyeing horn with.....	131	Cement for glass prisms.....	93
" sulpho carbolic and salts.....	35	" for iron.....	69
" sulphurous, use of in brewing, &c.....	65	" new.....	61
" tartaric, prevention of mould in solutions of.....	110	" manner of applying.....	166
" thymic, uses of.....	23	Changes.....	12, 29, 109, 121, 157, 170
Actinic power, relations of sun's altitude to.....	120	Chalk mixture, improved form for.....	141
Address of the president of the B. P. Conference.....	170	Cheap oxygen.....	60
Adventures of cinchonine.....	73	Chemistry class, the.....	9
Albumen, new test for.....	125	Chemists and druggists alliance.....	10
Alcohol, action of caustic soda on.....	74	<i>Chickering, Rev. J. W.</i> , on flowers of early spring.....	51
" effect of on animal temperature.....	182	China isinglass.....	108
" solubility of sugar in.....	27	Chinese therapeutics.....	108
" detection of fusel oil in.....	121	Chloral, alcoholate of.....	139
Alcoholate of chloral.....	133	" antidote for.....	27
Alliarine, artificial.....	122	" doses of.....	45
Aluminate of soda.....	169	" preparation by Stuedler's method.....	89
Alkaloids, in cinchona, estimation of.....	122, 125	" purification of.....	111, 104
" in opium.....	156	" new.....	92
Ammonium amalgam, Prof. Seely on.....	123	Chloralum, a new antiseptic.....	161
" and bismuth, new alloy of.....	56	Chlorate of baryta, preparation of.....	22
Amygdalin and emulsin.....	27	Chloride of gold.....	121
Anglo-american turkish bath.....	74	Chloroacetic acid, note on.....	28
Aullin colors, action of shellac on.....	76	Chlorodyne, substitute for.....	28
" effect of impure alcohol on.....	60	Chloroform, action of light and air on.....	53
" novel application of.....	124	" testing of.....	169
" Perkin on.....	119, 163	" solubility of glycerine in.....	90
" yield of.....	60	Cider, artificial, preparation of.....	11
" for coloring syrups.....	123	Cinchona alkaloids, estimation of.....	122
Anilin photographs.....	125	" alkaloids, value of.....	125
Annatto, adulteration of.....	39	" action of sugar on.....	140
Annual report of Smithsonian Institute.....	9	" value of various kinds of.....	123
" trade report.....	12	" from Java, first importation of.....	124
" general meeting.....	103	" from Java, researches on.....	173
" report of society.....	102	" in India, cultivation of.....	108
Antimony metallic.....	169	Cinchonine, adventures of.....	73
Antiperiodic, a new.....	183	" versus quinine.....	136
Aponorphia, note on.....	23	Citrate of magnesia, solution of.....	20
Applying cements, manner of.....	169	Citric oilment.....	119
Arrow root, detection of adulteration of.....	27	Coal tar colors.....	43, 140
Arsenic esters of Styria.....	139	" products of.....	43, 140
" detection of in fuchsin.....	70, 156	Cochineal.....	57
" detection of in hydrochloric acid.....	182, 22, 61	" adulteration of.....	108
" tests for.....	22, 54	Coal liver oil, manufacture of.....	155
Arsenical solutions, preparation of.....	83	" tasteless mixture of.....	156
Artificial alizarins.....	122	" and other products of Portsmouth.....	99
" camphor.....	61	" cream.....	73
" cider, preparation of.....	11	Coffee, adulteration of.....	109
" kirschwasser.....	7	" production of.....	23
Atomic controversy, the.....	4	" leaves used as tea.....	172
Atropia, use of salts of.....	21	Cold cream, preparation of.....	50
Attfield's pharmaceutical chemistry.....	10	Conklin's salve.....	11
Avoidupois, origin of the term.....	140	Collodion, carbolic.....	42
		" iodized.....	12
<b>B</b>		Coloring syrups with aniline colors.....	123
Baking powders.....	43	Colored fires.....	152
<i>Bartlett N. Gray</i> , on fluid extracts.....	80	Conium.....	123
Barris, chlorate of, preparation of.....	22	Constitution and by-laws of the Ontario College of Pharmacy.....	103
<i>Bateson, S.H.</i> , on unguentum sabina.....	133	Convulvulin and jalapine, reactions of.....	22
Battery, Leclanche.....	44	Copaiba, poisoning by.....	124
" a cheap and compact.....	152	Copper, new process for extraction of.....	54
<i>Boudin, M.</i> , on Baumés areometer.....	71	Coralline, preparation of, for use in dyeing.....	170
<i>Boudrimont, E.</i> , on the use of linflor for preserving substances from change, by exposure to air.....	132	Coriander seed, to preserve.....	121
Beeswax, bleaching of.....	45	Cosmetics, poisonous.....	90
Belladonna plaster.....	85	Cotton seed oil.....	20
<i>Berthelot &amp; Jungfleisch M. M.</i> , on the laws which regulate the division of a body between two solvents.....	115	Counters, to clean.....	77
Benzoic acid and gum benzoin.....	123	Court plaster, preparation of.....	6
Bismuth, Peruvian.....	141	Cream, cod liver oil.....	73
" new alloy of.....	56	" furniture.....	45
" liquor.....	61	Crimson indelible ink.....	93
Bisulphite of lime, preparation of.....	110	<i>Croft, Prof. H.</i> , notes of laboratory experiments.....	35
Black ink.....	29	" notes on some Canadian waters.....	147
Borax, note on Californian.....	86	Cubens, examination of.....	83
" source of.....	29	Curcumin.....	166
Brandreth's Pills.....	108	Cryolite, elements of.....	117
British pharmaceutical conference.....	170		
Bromal and bromiform.....	59	<b>D</b>	
Bromide of sodium, preparation of.....	124	<i>Delpsch, E.</i> , on the vesicating action of cantharidate of potash.....	99
Bronchial troches.....	81	Dextrine, a variety insoluble in water.....	140
<i>Brownen, G.</i> , on the ultimate analysis of plants.....	76	Digitals, time for collecting.....	85
Bullet-cure for Itens.....	141	Dispensing, hints on.....	21
		Distillation, laws governing.....	84
		Distillery, use of sulphurous acid in.....	55
		Doctor and druggist.....	72
		Drugs, to preserve dry.....	92
		Dyeing with coralline.....	170
		" ivory and horn.....	101
		" on wool with iodine green.....	60
		<b>E</b>	
		Ear-ach, remedy for.....	28
		Early closing.....	151
		Eau de Javelle.....	169
		<i>Eberbach, Ottmar</i> , on iodide of calcium.....	154
		Eggs, medical properties of.....	77
		Emplastrum belladonna.....	65
		Emulsi and amygdalin.....	27
		Ensign, ancient pharmaceutical.....	73
		Ergot, some constituents of.....	52
		" liquor of.....	75
		Essential oils, yield of.....	31, 107
		Ether, test for water in.....	121
		Explosion in compounding a prescription.....	60
		Extract of alabar bean.....	141
		" of Indian hemp, action of nitric acid on.....	60
		" of licorice, adulteration of.....	108
		<b>F</b>	
		Faraday, Michael.....	75
		Fermentation, Liebig on.....	44
		Ferri iodidi, syrupus.....	51
		Fine, red.....	23
		Flowers of early spring.....	77
		<i>Fluckiger, Dr. F. J.</i> , on the purification of chloral hydrate.....	164
		Fluid extracts.....	30, 37, 69
		Frey's vermicifuge.....	116
		Fuchsin, detection of arsenic in.....	158
		Furniture cream.....	45
		" polish.....	45
		Fusel oil in alcohol, to detect.....	121
		<b>G</b>	
		Galena, wet assay of.....	85
		<i>Gauche, Prof. J.</i> , on chloralum, a new antiseptic.....	164
		Gelselium sempervirens, active principle of.....	55
		Gingiale oil.....	156
		<i>Gising, S. W.</i> , on emp. belladonna.....	85
		Glucose.....	156
		Glue, marine.....	102
		Glycerine, importers of.....	173
		" soap, preparation of.....	27
		" soap, pellicul.....	108
		" solvent powers of.....	108
		" solubility in chloroform.....	90
		" as an application to burns.....	108
		" with iodide of iron.....	12
		Gold, chloride of.....	121
		Granulation of metals.....	29
		Grape sugar, manufacture of.....	92
		<i>Grimaux, E.</i> , on essence of sassafras.....	51
		Gutta percha, oxidation of.....	93
		" vessels for chemical uses.....	77
		Gypsum, sulphate of soda from.....	140
		<b>H</b>	
		<i>Hager, Dr.</i> , on zinc sulphophenate.....	53
		Hair restorer, Twigg's.....	12
		<i>Hanbury, D.</i> , on a species of Ipoinca, affording tannin.....	115
		<i>Hermann, J. C.</i> , on some constituents of ergot.....	52
		Hints on practical dispensing.....	21
		<i>Hirsch, J.</i> , on carbolic collodion.....	42
		Hunter's red drop.....	14
		<i>Hustwick, T. H.</i> , on excipients for pills.....	8
		Hydrochloric acid, preparation of pure.....	22
		Hydrocyanic acid in tobacco smoke.....	121
		Hydrogen, peroxide of.....	36
		" sulphureted, action of.....	139
		Hydrometer, use of, in pharmacy.....	88
		Hyoscyamine, preparation and constitution of.....	6
		Hypodermic injection, solution of morphia for.....	134
		Hypophosphorous acid and its salts.....	147
		<b>I</b>	
		Icaja, a new poison.....	172
		India rubber, supply of.....	168
		" vulcanized.....	36
		Ink, black.....	29
		" crimson, indelible.....	93
		" stains, removal of.....	135
		Insect poison, new.....	59
		Insects as food.....	133
		Iodol.....	69
		Iodide of starch.....	172
		Iodine, from Chili saltpetre.....	140
		" B. P., solutions of.....	67
		" green dyeing with.....	60
		Iodoform, preparation of.....	136
		Ipecac in India, cultivation of.....	185
		Iron, ammonio-citrate of.....	149
		" citrate of.....	148
		" and quina, citrate of.....	149
		" and quina, ammonio-citrate of.....	149
		" and soda, pyrophosphate of.....	124
		" peroxide, preparation of.....	61
		" and hydrogen, combination of.....	172
		" and copper, test for.....	60
		" rust, formation of.....	85
		" strong cement for.....	60
		" tinning of, without fuel.....	125
		" Isinglass, India and China.....	108
