

Mr. Bagot's discussion of the question: "Will England become Catholic?" which *The Living Age* of July 29, translates from the Italian review, the *Nuova Antologia*, is noteworthy for the emphasis with which it answers in the negative the question which it puts, and the facts which it presents in support of that view. Mr. Bagot is an English Catholic, but he wrote this article in Italian, and it is here done back into English of unusual force and lucidity.

One of the cleverest of recent stories of life in India is "The Gospel of the Air Ball" in *The Living Age* for July 29, which describes the unexpected consequences which followed the introduction of football among Indian native troops.

Madame Darmesteter's recent essay on "The Social Novel in France" will be found in full in *The Living Age* for Aug. 5.

"Neera's" romance, "The Old House," now in course of publication in *The Living Age*, will be followed, early in September, by a story entitled "Dame Fast and Petter Nord, which Dr. Hasket Derby has translated from the Swedish of Selma Lagerlöf, the young writer whose "Gosta Berling" and "Miracles of Antichrist" have attracted so much attention.

RENDER UNTO CAESAR THE THINGS WHICH ARE CAESARS.

It gives me pleasure at all times to render unto Caesar the things which are Caesar's. Although I am opposed to giving certificates relative to proprietary medicines, in this case I overlook my objections, as I consider Sanmetto one of the greatest vitalizers of the reproductive organs now in use.

P. C. JONES, M.D.

SANMETTO IN PROSTATITIS, CYSTITIS, CHRONIC GONORRHOEA AND VESICAL IRRITATION.

I take pleasure in saying that Sanmetto in my hands has proven its superiority to other remedies in prostatitis, cystitis, chronic gonorrhœa and general vesical irritation. I prescribe it with confidence every time, and in cases not attributable to mechanical causes I feel sure of relief every time. In gleet its action is marvelous, the worst cases yielding readily, and I shall continue its use.

ORAN E. BRULEY, M.D.

ANDERSON, IND.

SANMETTO IN ENURESIS NOCTURNA.

While visiting my nephew in Illinois last Christmas, he told me his little girl, six years of age, had always "wet the bed" at night, and asked me: "What shall I do for it?" I procured three ounces of Sanmetto—all the druggist had at the time; the second night she missed, and has had but three nightly omissions in two weeks. He wrote me last week: "We consider her cured, but shall keep an original bottle on hand and use if necessary." I have uniformly good results from prescribing Sanmetto in kidney and bladder complaints.
