

"That will be after he has sounded the depths of the passion of the Donna Eurynia, who so madly loves him?"

"The idle lie of El Abra, madam. My ear never heard a whisper of the Donna's love until you heard, in the tent, the Guerilla's story. He suspected you overheard; and spoke, it may have been to trouble you."

"I never did aught to his hurt; why should El Abra seek the troubling of me, a feeble, defenceless lady stranger?"

"You rode into the fight at speed, with the precision and valour of chivalrous romance; giving Simon Lud his own life, with possession of El Abra as prisoner."

(To be Continued.)

The *Monde* states that since the French Revolution—that is, 80 years ago—there have been 160 laws regarding the Press—one every six months, on an average—and the series does not appear to have come to an end yet.

### CORPORATION OF MONTREAL.

**PUBLIC NOTICE** is hereby given that the Mayor, Aldermen and Citizens of the City of Montreal, will apply to Parliament, at its next Session, for an Act to amend the several Acts for the Incorporation of the City of Montreal, with a view to extend the authority and powers conferred by the said several Acts on the Corporation of the said City of Montreal, and to grant new and additional authority and powers to the said Corporation; and especially that the said Corporation may, among other things, be authorized to change the mode of voting by electors in cases of grants or loans to railways, &c.; to amend the provisions of the law in reference to the Park; to extend the City Limits; to further regulate steam-engines and boilers, and the erection of buildings; to repeal the provisions of the law which require the City Treasurer to keep separate books and accounts for the Water Works; to reduce the time for the election of Members of the City Council, &c.

By Order.

CHAS. GLACKMEYER,

City Clerk.

CITY HALL, Montreal, 25th Sept., 1871.

4-14a

VICTORIA HOTEL..... P. CROGAN.

**TORONTO.**  
THE ROSSIN HOUSE..... G. P. SHEARS, Lessee and Manager.  
THE QUEEN'S HOTEL... CAPT. THOS. DICK.

**THE DOMINION TELEGRAPH INSTITUTE,**  
89 ST. JAMES STREET, MONTREAL, P.Q.

#### GEORGE E. DESBARATS, Proprietor.

Established for the purpose of qualifying Operators for the new Telegraph Lines now building throughout the Dominion and the United States.

This Institution having been established three years, may now be considered a permanent College. Its rapid growth and prosperity are due to the demands of the Telegraph community, and the great success which has attended the Proprietor is due simply to the able manner in which the system has been conveyed to the Pupils by the Professors attached to the Institute.

The rapid development and usefulness of the Electric Telegraph, and the consequent ever-increasing demand for First-Class Operators renders the opening of Colleges for instruction a positive necessity.

Telegraphic Superintendents view this movement as one made in the right direction. Commercial Colleges have, to some extent, assumed the responsibility of teaching in this, as well as in other branches of business education. The knowledge of Telegraphy gained in this manner has always been looked upon as being second rate. So much so that the Colleges in Chicago, Milwaukee, Buffalo, New York, &c., have discontinued the practice of Teaching, and recommend the Telegraph Institute as the proper place to acquire this highly interesting, scientific and profitable art.

The prospects for Young Men and Ladies to study the system of Telegraphy could not be better than at present, and we call upon all who wish to engage in a pleasant and lucrative employment to qualify themselves as Operators on the Lines of Telegraphy. Graduates on leaving the Institute are presented with a diploma of proficiency, which will enable them to act immediately as vacancies occur throughout the Dominion of Canada and the United States. At first salaries of \$30 a month may be secured; after two years' experience on the lines, from \$50 to \$80 a month can be commanded; while in the United States from \$100 to \$120 per month are paid.

The possession of a knowledge of Telegraphy is especially open to Ladies; in fact, they are the favorites as operators both in England and America, commanding higher wages, as compared with other employments, than men, while they have the natural facility of acquiring the system sooner. A fair knowledge of reading and writing are the only qualifications necessary, and any person of ordinary ability can become a competent operator. This has been proved by graduates who, with a very slight education and no idea of the *modus operandi* of Telegraphy on entering, have become good operators in a few months. Students have also an opportunity of learning rapid writing. Some of our students who could but hardly write their names now take down a message at the rate of from 25 to 30 words a minute.

#### THE DUTIES OF AN OPERATOR.

There is no trade or profession which requires so small an amount of labour, and at the same time where the employee has the same amount of freedom and independence, being at all times master of the instrument over which he presides, generally in an office by themselves, without either foreman or master, merely to take and despatch messages. The usual hours of attendance required is from 10 to 12 hours per day, less the usual hours for meals. Operators are not required to work on Sundays. The Institute is fitted up in a most complete and practical manner, with all the usual fixtures, &c., of a regular Telegraph office on a large scale. Messages of every description, Train news, arrivals and departures, Market Reports and Cable messages are sent and received, as daily practised on the lines. Individual instruction is given to each pupil, according to capacity of learning the science. Neither pains nor expense are spared to qualify the students for important offices, in the shortest possible time. Students may commence their studies at any time, and continue at the College until they are proficient operators, without any further charge. There are no vacations. Hours of attendance, from 9 A.M. to noon, and from 1.30 to 6 P.M. The time occupied in learning averages fifteen weeks; but this, of course, depends principally on the capacity of the pupil for instruction. Some pupils who are now on the lines completed their course of study in from five to eight weeks.

The terms for the full course of instruction is Thirty Dollars. There are no extra expenses, as all necessary materials, instruments, &c., are furnished to each student.

A line has been constructed on which students of this Institute will have actual practice, when sufficiently advanced. In case of a broken communication, the repairs will be conducted by a Professor of Telegraphy, under the eyes of the students; so that a really practical knowledge may be attained in every branch of the Science of Telegraphic Communication.

GEORGE E. DESBARATS, Proprietor.

Montreal, June, 1871.

**JAMES FYFE,** FIRST PRIZE SCALE MANUFACTURER.

No. 24 COLLEGE STREET, MONTREAL.
