

CIRCULAR.
 MONTREAL, May, 1867.
 THE Subscriber, in withdrawing from the late firm of Messrs. A. & D. Shannon, Grocers, of this city, for the purpose of commencing the Provision and Produce business, would respectfully inform his late patrons and the public, that he has opened the Store, No. 243 Commissioners Street, opposite St. Ann's Market, where he will keep on hand and for sale a general stock of provisions suitable to this market, comprising in part of Flour, Oatmeal, Cornmeal, Butter, Cheese, Pork, Hams, Lard, Serranos, Dried Fish, Dried Apples, Currants, and every article connected with the provision trade, &c., &c.
 He trusts that from his long experience in buying the above goods when in the grocery trade, as well as from his extensive connections in the country, he will thus be enabled to offer inducements to the public unsurpassed by any house of the kind in Canada.
 Consignments respectfully solicited. Prompt returns will be made. Cash advances made equal to two-thirds of the market price. References kindly permitted to Messrs. Gillespie, Moffatt & Co. and Messrs. Tiffin Brothers.
D. SHANNON,
 COMMISSION MERCHANT,
 And Wholesale Dealer in Produce and Provisions,
 243 Commissioners Street,
 opposite St. Ann's Market.

REV. SYLVANUS COBB thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article, which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever.
 Sold by all Druggists. 25 cents a bottle.
 Be sure and call for
 "MRS. WINSLOW'S SOOTHING SYRUP."
 All others are base and dangerous imitations.
 Sold by all Druggists. 25 cents a bottle.

NINE YEARS SUFFERING
 Entirely relieved by one bottle of
BRISTOL'S SARSAPARILLA,
 AND ONE PHIAL OF
BRISTOL'S PILLS.
 Chatham, C. W., May 6, 1865.
 Gentlemen.—Having been troubled with the rheumatism more or less for the last eight or nine years, and suffering great uneasiness and pain, but getting no relief either in medicine or permanent, from the various remedies I used, I concluded, on seeing BRISTOL'S SARSAPARILLA advertised in the "Chatham Planet," to give it a trial. After using one bottle of the SARSAPARILLA, and one bottle of Bristol's Sugar-Coated Pills, I feel entirely relieved of my distressing complaint, and am pleased to give my testimony to its curative properties.
 Yours very truly,
 O. J. V. DOLSEN.
 Agents for Montreal—Devins & Bolton, Lamplough & Campbell, Davidson & Co. K. Campbell & Co., J. Gardner, J. A. Harte, H. R. Gray, Picault & Son, J. Goulden, R. S. Latham and all Dealers in Medicine. 533

FOLLOW DISEASE TO ITS SOURCE.—Local disease cannot be cured merely by local treatment. For example: No application to the part affected will radically cure the piles. The habit of tea-dry, which is the primary cause of the complaint, must be changed. For this purpose, BRISTOL'S SUGAR-COATED PILLS, the finest vegetable alternative ever compounded, is the medicine to be used. Constiveness is almost invariably the immediate cause of this distressing disorder. This condition of the bowels is at once changed by the action of the Pills. Indigestion and morbid action of the liver produce constipation. These, too, are swiftly remedied by this powerful vegetable agent, and the organs toned and regulated to a condition of perfect health. Thus are the symptoms and source of the disease removed together, and it is at an end for ever. It is the same with all the complaints which come within the remedial scope of this great alternative, cathartic, and antibilious medicine.
 They are put up in glass vials, and will keep in any climate. In all cases arising from, or aggravated by impure blood, BRISTOL'S SARSAPARILLA should be used in connection with the Pills.
 J. F. Henry & Co Montreal, General Agents for Canada. For sale in Montreal by Devins & Bolton, Lamplough & Campbell, Davidson & Co, K. Campbell & Co., J. Gardner, J. A. Harte, Picault & Son, J. Goulden, R. S. Latham and all Dealers in Medicine.
 Our Fur Traders and Trappers in fitting out here, find Ayer's medicines one of their most profitable articles of traffic. Around Slave Lake and the wild regions of the north, the Indians know their uses and have an abiding faith in them. They say:—"Ayer's great medicine—cure sick men, and his medicines for the diseases from which they suffer, will often bring forth their stock of skins, even quicker than wampum, rum, or tobacco. Savages are not fools if they are unacquainted in some of the arts of civilization." [Montreal Pilot, 10th Sept. 1867.] 1m

A CARD FROM
THE AMERICAN WATCH COMPANY
 OF
 WALTHAM, MASS.

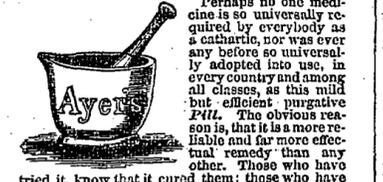

THIS Company beg leave to inform the citizens of the new dominion of Canada: that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world.
 They commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one half of all the watches sold in the United States. Up to the present time, it has been impossible for them to do more than supply the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other markets.
 The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand. In them, all those mysterious and infinitesimal organs which when put together create the watch, are the result of slow and tedious manual processes, and the result is of necessity a lack of uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative vary. But it is a fact that except watch of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Ancre, Lepus and so-called Patent Levers, which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be ordered—whether London, Paris, Geneva or what not; and many a man who thinks he has a genuine "M. I. Tobias, of Liverpool," (whose only fault is, that he can never regulate it to keep over good time), is really carrying a cheap and poor Swiss imitation.
HOW AMERICAN WATCHES ARE MADE.
 The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All their operations, from the reception of the raw materials—the brass the steel, the silver, the gold and the precious stones, to the completion of the Watch, are carried on under one roof, and under one skillful and competent director. But the great distinguishing feat of their Watches, is the fact that their several parts are all made by the finest and the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust a hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it. If any part of any American Waltham Watch should be lost or injured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return mail he would receive the desired article, which any watchmaker would adjust to its position.
 The Company respectfully submit their watches on their merits only. They have fully succeeded in overcoming popular prejudice in the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere. They claim to make
A BETTER ARTICLE FOR THE MONEY
 by their improved mechanical processes than can be made under the old-fashioned handicraft system—They manufacture watches of every grade, from a good, low priced, and substantial article, in solid silver hunting cases, especially adapted to the wants of the farmer and lumberman, to the finest chronometer for the navigator; and also ladies' watches in plain gold or the finest enamelled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them
ARE FULLY WARRANTED
 by a special certificate given to the purchaser of every watch by the seller, and this warranty is good at all times against the Company or its agents.

 Montreal, September 6, 1867. 12m.

COMMERCIAL COLLEGE.
 A FIRST CLASS COMMERCIAL PROFESSOR, a la man and man of business, with a good knowledge of the French language, but whose mother tongue is English, already accustomed to the teaching of book keeping, and well posted up in banking affairs and Telegraphy etc., would find an advantageous position at the Masson College, Terrebonne, Lower Canada.
 Conditions to be made known by letter, (franco) or which would be better—by word of mouth, to the Superior of the College.

A. SHANNON & CO.
 GROCERS,
 Wine and Spirit Merchants,
 WHOLESALE AND RETAIL,
 102 AND 104 M'GILL STREET,
 MONTREAL.
 HAVE constantly on hand a good assortment of Teas, Coffees, Sugars, Spices, Mustards, Provisions, Hams, Salt, &c. Port, Sherry, Madeira, and other Wines, Brandy Holland Gin, Scotch Whiskey, Jamaica Spirits, Syrups, &c., &c.
 Country Merchants and Farmers would do well to give them a call as they will Trade with them on Liberal Terms.
 May 19, 1867. 12m.

Ayer's Cathartic Pills,
 For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adapted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is that it is a more reliable and far more effectual remedy than any other. Those who have not known that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions of climate, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.
 They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
 Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—
 For Dyspepsia or Indigestion, Listlessness, Langor and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
 For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice, Colic or Green Stools, Eruptions of the Skin and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
 For Dysentery or Diarrhoea, but one mild dose is generally sufficient.
 For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the nature of the system. With such change those complaints disappear.
 For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of diuresis.
 For Suppression a large dose should be taken as it produces the desired effect by sympathy.
 As a Dinner Pill, take one or two Pills to promote digestion and to stimulate the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often administered to children, and is a most valuable and safe purgative for the young. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Cholera, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with it, as a means of relief. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often administered to children, and is a most valuable and safe purgative for the young. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Cholera, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with it, as a means of relief. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often administered to children, and is a most valuable and safe purgative for the young. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs.
