The New Home of our  
Biological Department

The largest and most perfectly appointed laboratory building in  
America devoted exclusively to scientific research.

## A SUPERB EQUIPMENT.

Our facilities for the production of *Antidiphtheritic Serum* and *Vaccine Virus* far exceed those of any other manufacturer.

Visitors to our biological laboratories marvel at their extent and the amplitude of their equipment. They see two immense stables, occupying more than an acre of ground, housing upward of three hundred horses and heifers, and replete with modern scientific appurtenances. They see a handsome research laboratory (60 x 160 feet in size)—the new home of our Biological Department—the best appointed of its kind in America.

## Purity and Potency of Our Product.

Our *Antidiphtheritic Serum* and *Vaccine Virus* are prepared under the personal supervision of bacteriologists of national reputation, in strict accordance with the principles of modern asepsis.

They are subjected to the most rigid physiological and bacteriological tests.

They are as pure and potent as human skill can make them.

LABORATORIES:

DADIZE, DAVIS & CO.

BRANCH HOUSES:

New York, Kansas City, Baltimore.
