

those who can do so, should make a personal inspection of their factory, and see their engines in process of manufacture. All the parts of their engines are interchangeable, and duplicate parts are always kept in stock. The firm manufacture 2-cycle as well as 4-cycle, in 10, 20 and 40 horse power. Not only will the buyer obtain splendid value for his money in buying at home, but is incidentally helping to build up a local industry, which every loyal Westerner should be proud to support.

TO SEE NIAGARA FALLS.

Travellers now find it much more convenient and interesting when visiting Niagara Falls to make Buffalo, N.Y., their stopping place, as it is only forty-five minutes ride by steam car, every hour, and by trolley every fifteen minutes. The Niagara Hotel, situated at the source of the beautiful Niagara River with a lovely view of Lake Erie, also adjoins a large public park and Fort Porter reservation. Its rooms are larger than those of any other hotel in Buf-

falo, and its palm court and sun parlors are attractive lounging places. Buffalo is itself one of the most beautiful cities in the world. In the evenings strangers have seven theatres for entertainment. The Albright Art Gallery, modeled after the Acropolis of Athens and costing nearly two million dollars, is in itself worth going to Buffalo to see. The Niagara Hotel is making a special tourist rate of \$2.50 a day and upwards, (American), and \$1.50 a day and upwards (European).

ASTOR HOUSE BILLIARD ROOMS

Among the most popular pool and billiard rooms in Vancouver are the parlors to the rear of the office of the Astor House on Hastings street—near Cambie—under the managership of Messrs. F. C. Phipps and C. E. Wells, who in planning their recreation rooms have devoted especial attention to the light thrown upon the tables during the daytime through the large plate-glass windows, in addition to the shades for the electric lights.
