¹ The Group of 77 and China stated that they uphold the principle of "equitable geographical distribution" which is a well-established practice within the United Nations and strongly objected to the placement of the phrase "equitable geographical distribution" in square brackets by some Parties.

² Some Parties stated that the phrase "equitable geographical distribution" was not acceptable and that the following language should be inserted after the word "rotation":

with one half to be designated by Annex I Parties and one half to be designated by non-Annex I Parties.

These Parties also noted their view that "equitable geographical distribution" was not a well-established practice and was not applicable in this context.
