

The World-Famous "TOWER" Line of Edgers

1,000 IN DAILY USE.

MADE IN TWO SIZES, AS FOLLOWS:

The "TOWER" 2 and 3-saw Edgers, Improved.
For Mills cutting not to exceed 20,000 feet in ten hours.

The "TOWER EXTRA" 3-saw Edger.

A larger and heavier edition of the "TOWER," for mill cutting up to 30,000 feet.

1. They take up little room.
2. They require little power.
3. The feed rolls are adjustable in FOUR directions, which means absolute accuracy.
4. The saws may be removed easily and quickly, without disturbing the arbor.
5. The mechanism for shifting the saws is up-to-date, convenient and positive.
6. The vital parts are carried by a substantial iron husk resting solidly on the floor.
7. They are pre-eminently practical.
8. There is no edger made approaching them in cheapness.

"The No. 8 'TOWER EXTRA' Edger bought of you in January is immensely satisfactory."
KEO SHINGLE CO., England, Ark.

The "TOWER" One-man 2-saw Trimmer.

With this trimmer one man can easily trim the output of a mill cutting up to 30,000 ft. in ten hours. The shifting crank being secured to one of the chain carriers, the operator shifts the saws as he walks toward the board to be trimmed, thus performing two operations simultaneously. This saves time.

There are two feeds, easily and quickly started, stopped or changed, with outstopping the saws. One lever controls both feeds.
